MOVES

A move involves a change in the physical location of the Customer's premises which also involves a connection to a different rate demarcation point. The charges for the move are dependent on whether the move is to a new location within the same building or to a different building.

A. MOVES WITHIN THE SAME BUILDING

When the move is to a new location within the same Customer premises (same address and/or same building), the charge for the move will be:

- For Region 1, an amount equal to one half of the first nonrecurring (i.e., installation) charge for the channel termination affected.
- For Region 14 and Region 16, the charge will be the installation charge for the circuit termination/SAL affected.

There will be no change in the minimum period or Service Discount Plan or payment plan requirements.

A move normally involves an interruption of Special Access for the period required to complete the move. No credit allowance will be granted for that period.

B. MOVES TO A DIFFERENT BUILDING

Moves to a different Customer premises (different address and different building) will be treated as a discontinuance and start of service and all associated nonrecurring charges will apply. New minimum period and/or Service Discount Plan/payment plan requirements will be established for the new services. The Customer will also remain responsible for satisfying all outstanding minimum period and/or termination liability charges for the discontinued service except as specified in Part H, Section 1C5.
