

ACCESS SERVICE

8A. Billing Validation Service

(C)

8A.1 General Description

Billing Validation Service (BVS) provides the customer the ability to query and receive a response from the billing validation data in the Telephone Company's Line Information Data Base (LIDB) containing Telephone Company calling card numbers, Telephone Company numbers with certain billing restrictions and Telephone Company payphone numbers.

8A.2 Regulations

- (A) Billing Validation Service is the access via a SS7 formatted data query of the LIDB containing Telephone Company calling card numbers, Telephone Company numbers with collect or bill-to-third party billing restrictions and Telephone Company payphone telephone numbers. Based upon the received query information, the LIDB will respond with a SS7 formatted confirmation of validity or denial for the requested billing option.
- (B) Technical and customer requirements and specifications for this service are as specified in the Bell Atlantic Telephone Company Tariff F.C.C. No. 1, Access Services.

8A.3 Rates and Charges
