
INTERSTATE ACCESS SERVICE PRODUCT GUIDE

SECTION 5 - CATEGORY 1 & CATEGORY 2 RATES AND CHARGES**5.1 Special Construction****5.1.1 Basis for Rates and Charges**

Rates and Charges for special construction will be based on the costs incurred by the Company and may include: (1) nonrecurring type charges; (2) recurring type charges; (3) termination charges; or (4) a combination thereof.

5.1.2 Basis for Cost Computation

The cost referred to in 6.1.1 may include one or more of the following items to the extent that they are applicable.

- (a) Cost installed of the facilities to be provided, including estimated costs for the rearrangement of existing facilities. Cost installed includes the cost of:
 - (1) equipment and materials provided or used,
 - (2) engineering, labor and supervision,
 - (3) transportation, and
 - (4) rights-of-way;
- (b) cost of maintenance;
- (c) depreciation on the estimated cost installed of any facilities provided, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage;
- (d) administration, taxes and uncollectible revenue on the basis of reasonable average costs for these items;
- (e) license preparation, processing and related fees;
- (f) ` preparation, processing and related fees;
- (g) any other identifiable costs related to the facilities provided; or an amount for return and contingencies.

INTERSTATE ACCESS SERVICE PRODUCT GUIDE

SECTION 5 - CATEGORY 1 & CATEGORY 2 RATES AND CHARGES, (Cont'd)**5.1 Special Construction (Cont'd)****5.1.3 Termination Liability**

To the extent that there is no other requirement for use by the Company, a termination liability may apply for facilities specially constructed at the request of the Customer.

- A. The termination liability period is the estimated service life of the facilities provided.
- B. The amount of the maximum termination liability is equal to the estimated amounts for:
 - (a) cost installed of the facilities provided including estimated costs for rearrangements of existing facilities and/or construction of new facilities as appropriate, less net salvage. Cost installed including the cost of:
 - (1) equipment and materials provided or used,
 - (2) engineering, labor and supervision,
 - (3) transportation, and
 - (4) rights-of-way;
 - (b) license preparation, processing and related fees;
 - (c) tariff preparation, processing and related fees;
 - (d) cost of removal and restoration, where appropriate; and
 - (e) any other identifiable costs related to the specially constructed or rearranged facilities.
- C. The applicable termination liability charge is based on the normal method for circulating the unpaid balance of a term obligation.

INTERSTATE ACCESS SERVICE PRODUCT GUIDE

SECTION 5 - CATEGORY 1 & CATEGORY 2 RATES AND CHARGES, (Cont'd)**5.2 Special Access Service****5.2.1 General**

Rates are composed of three elements which may apply to a Customer's service, depending upon the specific service requested and its location.

- A. The channel termination rate element provides for the termination of the communications path at the Customer designated location. One channel termination charge applies for each Customer designated location at which a channel is terminated.
- B. The channel mileage rate element is determined by the Vertical and Horizontal Coordinates ("V & H") method, as set forth in the National Exchange Company Association Tariff, F.C.C. No 4. When the calculation results in a fraction of a mile, the total is rounded up to the next whole mile before applying the rate.
- C. Optional Features for which charges are applied only include multiplexing.

5.2.2 Voice Grade Service

There are two types of Voice Grade Services. The service is compatible with either 2-wire ground start and loop start equipment or 4-wire E/M signaling equipment. 4-wire supports analog data transmission speeds of up to 19.2 Kbps. The rates for Voice Grade channels as described in 4.2.2 are as follows:

5.2.8 Individual Case Basis Arrangements

The Company may, in response to a bona fide request from a potential customer or User, develop a bid for services offered in this product guide, or a bid for a Special Service Arrangement not currently offered by the Company. Prices quoted in response to such requests may be different from those in effect in this product guide. An Individual Case Basis arrangement will be offered to the subscriber for acceptance in writing. Such Individual Case Basis Arrangements will specify, among other things, the length of service, minimum volume of service required, and rate and charges for the proposed service.
