24.2 Point To Point SONET Service Switched Facilities

(C)

24.2.1 General

Telephone Company provided point to point SONET service is provided where technically and operationally feasible as determined by the Telephone Company and provides a customer with SONET based broadband access transport over the Telephone Company's shared SONET network. The customer has the option to order the service with multiplexing capability from which lesser capacity Switched Access channels can be derived via riders.

(C)

(A) Shared Transport

(M)

Shared Transport is applicable when the transport between nodes and/or Links is ordered at different bandwidth levels. .

Shared Transport may be ordered in bandwidths of DS1 or DS3/STS1.
