ACCESS SERVICE

10. Special Federal Government Access Services

Non-Competitive End-User Circuit Terminations (and associated optional features and functions) are the Federal Government Special Access Services included in this tariff. Federal Government Special Access Services for the other components needed to complete the circuit are available as described in Section 1.1 preceding. (N) | (N)

10.1 General

This section covers Special Access Services that are provided to a customer for use only by agencies or branches of the Federal Government and other users authorized by the Federal Government. Services provided to state emergency operations centers are included. These services provide for command and control communications, including communications for national security, emergency preparedness and presidential requirements. They are required to assure continuity of Government in emergency and crisis situations and to provide for national security. The restoration of services provided in accordance with the Federal Government's Telecommunications Service Priority (TSP) System will be implemented in accordance with the regulations set forth in Section 8.8.

Services for command and control communications and for national security and emergency preparedness sometimes require short notice and short duration service provisions. These provisions are especially needed to meet presidential requirements or in response to natural, man-made, or declared emergencies. Requirements of this type cannot be forecasted and are usually needed for a relatively short period. The provision of service under these conditions may require the availability of facilities, such as portable microwave equipment, which are provided on a temporary basis by the Telephone Company or customer.

ACCESS SERVICE

10. Special Federal Government Access Services (Cont'd)

10.2 Emergency Conditions

These services will be provided on the date requested or as soon as possible thereafter when the emergency falls into one of the following categories:

- State of crisis declared by the National Command Authorities (includes commitments made to the National Communications System in the "National Plan for Emergencies and Major Disasters").

- Efforts to protect endangered U.S. personnel or property both in the U.S. and abroad. (Includes space vehicle recovery and protection efforts.)

- Communications requirements resulting from hostile action, a major disaster or a major civil disturbance.

- The director (Cabinet level) of a Federal department, Commander of a Unified/Specified Command, or head of a military department has certified that a communications requirement is so critical to the protection of life and property or to the National Defense that it must be processed immediately.

- Political unrest in foreign countries which affect the national interest.

- Presidential service.

ACCESS SERVICE

10. Special Federal Government Access Services (Cont'd)

10.3 Intervals to Provide Service

Services provided under the provisions of this section of the tariff are provided on an individual case basis. Therefore, orders for such service shall be placed under the Negotiated Interval provisions set forth in 5.1.7 preceding.

10.4 Safeguarding of Service

10.4.1 Facility Availability

In order to insure communications during periods of emergency, the Telephone Company will, within the limits of good management, make available the necessary facilities to restore service in the event of damage or to provide temporary emergency service as set forth in 8.8 preceding.

In order to meet the requirements of agencies or branches of the Federal Government, the Telephone Company may utilize government-owned facilities, when necessary to provide service.

10.5 Federal Government Regulations

In accordance with Federal Government Regulations, all service provided to the Federal Government will be billed in arrears. However, this provision does not apply to other customers that obtain services under the provisions of this tariff to provide their services to the Federal Government.

10. Special Federal Government Access Services (Cont'd)

10.6 Service Offerings to the Federal Government

The following unique services are provided to a customer for use only by agencies or branches of the Federal Government, other authorized users and state emergency operations centers. The rates and charges for these services shall be developed on an individual case basis and shall be consistent with the rates and charges for services offered in other sections of this tariff.

10.6.1 Type and Description

(A) Enterprise Infrastructure Solutions (EIS) (C)

(1) Federal Universal Service Fund (FUSF) (N)

EIS customers who are assessed an End User Common Line (EUCL) Charge as specified in Section 4.6 preceding will be assessed a monthly FUSF Surcharge as specified herein in lieu of the FUSF Surcharges for Business Single Line, ISDN BRI Arrangement, ISDN PRI Arrangement and Multi-Line Business – Other set forth in Section 4.7 preceding. The EUCL Charge is included in the EIS customer's rate.

The FUSF Surcharge applicable to EIS will be determined by multiplying an FUSF Surcharge Factor, as set forth in Section 8.16(D) preceding, by the EUCL portion of the monthly recurring charge applicable to the EIS customer for each of the following services:

- ISDN BRI
- ISDN PRI
- Single Line Business
- Multi-Line Business (N)

(C) Special Routing Access Service

Special Routing Access Service is a specialized service for use by carriers authorized to provide their service for an agency or branch of the Federal Government. This service provides the customer's end users the ability to originate and terminate calls to or from the customer's premises utilizing a Special Routing Plan. (C)

This service is an optional service which operates in conjunction with Trunk Side Premium Access Service furnished under other provisions of this tariff. (D)

(D) High Capacity DS1 Service

For Special Federal Government access arrangements, High Capacity DS1 Non-Competitive End User Circuit Terminations will be rated as set forth in Section 7 but will be offered with clear channel capability as a nonchargeable option. Clear channel capability is described in 7.11.4(4). (C)

(F) Government Emergency Telecommunications Service (GETS)

The Government Emergency Telecommunications Service (GETS) provides authorized federal government end users with a nationwide security and emergency preparedness (NS/EP) switched voice and data communications service utilizing the public switched network, through the activation of a special code(s) in the Telephone Company's end office and tandem switching systems, as requested by the Federal Government or its authorized agent.

(1) The implementation fee is set forth under 10.6.3(F) following.

(2) High Probability of Completion/Enhanced Alternate Carrier Routing (HPC/EACR) is a set of enhanced features, available for GETS in suitably equipped offices, which improves the probability of the completion of GETS traffic via the Public Switched Telephone Network (PSTN) during times of national emergencies or disaster, when the PSTN is congested due to heavy traffic or damage to the network. HPC/EACR provides the capability to set a special indicator, based on a government-specified 3, 6, or 10 digit dialed number string that is carried through the network via SS7 signaling and will indicate that the call is a GETS call. Typically, the digit string of 710 will be used to set the HPC/EACR indicator. This capability is not offered on toll free numbers such as 800 or 888 numbers.

The HPC/EACR feature set also provides the capability to queue calls marked with the HPC/EACR indicator on outgoing trunk groups and to exempt them from certain restrictive Network Management Controls. The ability to provide traffic data on both a trunk group level and a central office level is also included.

Rates for HPC/EACR are set forth under 10.6.3(F)(2) following.

ACCESS SERVICE

10.6 **Service Offerings to the Federal Government** (Cont'd)

10.6.1 **Type and Description** (Cont'd)

(F) Government Emergency Telecommunications Service (GETS) (Cont'd)

(3) Expanded Enhanced Alternate Carrier Routing (N)

Expanded Enhanced Alternate Carrier Routing (Expanded EACR) provides end offices with the ability to perform EACR on any 10 digit number with the 710 NPA code (710-XXX-XXXX). Expanded EACR is available in end offices in the Telephone Company service area where technically feasible.

Rates for Expanded EACR are set forth under 10.6.3(F)(3).

(4) Expanded High Probability of Completion (Expanded HPC) and Office Wide Call/Egress Queuing

Expanded HPC enables suitably equipped offices to recognize any 10 digit number with the 710 NPA code (710-XXX-XXXX) and apply the HPC feature.

Office Wide Call/Egress Queuing (OWCQ/OWEQ) provides a greater likelihood that GETS callers will complete their HPC/EACR calls during periods when the Telephone Company network is congested. When all trunks in a public trunk group are busy, Office Wide Call Queuing enables a call to be placed in queue on any member of the trunk group to wait its turn to be passed on through the network to the called destination. When all trunks in a private trunk group (PBX system) are busy, Office Wide Egress Queuing enables a call to be placed in queue until the next trunk is available.

Expanded HPC and OWCQ/OWEQ is available in all end office and tandem switches in the Telephone Company area where technically feasible.

Rates for Expanded HPC and OWCQ/OWEQ are set forth under 10.6.3 (F)(4). (N)

Material previously shown on this page now appears on 1st Revised Page 10-12.

(D) Move Charges

(1) When service without a termination charge associated with it, as set forth in (A) and (B) preceding, is moved to a different building, the nonrecurring charge applies; when moved to a new location in the same building, a charge of one-half the nonrecurring charge applies.

(2) When service with a termination charge associated with it, as set forth in (A) and (B) preceding, is moved and is reinstalled at a new location, the customer may elect:

- to pay the unexpired portion of the termination charge for the service, if any, with the application of nonrecurring charge and the establishment of a new termination charge for such service at the new location, or

- to continue service subject to the unexpired portion of the termination charge, if any, and pay the estimated costs of moving such service, provided that the customer requests these charges be quoted prior to ordering the service move. Charges for moving such service will be based on estimated costs attributable to the move.

Move charges include the estimated costs of removal, of services or facilities necessitated by the move, transportation, storage, reinstallation, engineering, labor, supervision, materials, administration, and any other specific items of cost directly attributable to the move.
