
SECTION C - SERVICE DESCRIPTIONS AND RATES

2. METERED USE SERVICE ¹

.01 General Description

Metered Use Service offers the use of intrastate communications facilities shared among multiple users, and is provided on the basis of the service options in this section. Depending on the options(s) chosen, the customer may select the manner in which calls are originated and terminated, may obtain one-way or two-way service, may enjoy point-to-point or multipoint service, or may originate calls in multiple cities.

Certain Metered Use Service Offerings involve, at the customer's option, a monthly subscription fee, a recurring monthly minimum charge for intrastate facility usage, or a one time initiation of service charge. At additional cost, certain Metered Use Service options offer a customer the ability to: (1) identify the users and allocate the cost of his long distance service through the use of accounting codes, and (2) receive his or her call records on magnetic tape.

Under each of the above service options, the individual customer's total monthly charges for use of the intrastate communications facilities are based upon the total time the customer (account) utilizes such facilities. In that regard, individual intrastate facilities usage charges, as well as other specific charges, discounts and/or features are applicable to each individual service option. Unless otherwise noted, when a Metered Use Service call is established in one time-of-day rate application period and ends in another, the rate in effect in each rate application period applies to the portion of the call occurring within that rate application period. A specific description of each of the Metered Use Service options and its recurring and non-recurring charges, features, applicable discounts and service availability is contained in Sections C-2.02-C-02.33 following.

Option A, B, D and J customers may enroll in the Friends & Family or Friends of the Firm Programs and become eligible for discounts in those programs in addition to discounts established elsewhere in this section. These customers are subject to the rates and provisions stated below for the Programs.

¹ Effective August 27, 2012, for all residential customers of Metered Use Service, all Calling Card service and Toll Free / 800 service will no longer be available to new customers.
