2.0 SPECIAL PRICING PLANS AND CREDITS. Special Pricing Plans and Credits are available to the extent described below.

2.1 Access Pricing Plans (APP)

Customers who order Intrastate Network Services Local Access Service from the Company may subscribe to service through an Access Pricing Plan (APP) which qualifies the Customer to receive discounts which apply against the applicable monthly local circuit rates. APPs are available to Pre-Verizon Business Services I customers only. Other charges (e.g., Access Coordination, Central Office Connection, Network Connection, and installation charges) described herein are not discountable under these plans. For purposes of these APPs, Dedicated Access Line Service only includes Intrastate Analog Local Access, Intrastate T-1 Digital Access, and Intrastate DS0 (Hubless) Access. An APP applies only to one access circuit. The plan and its discounts are not transferrable to any other circuit, nor may the APP be transferred from one Customer to another.

2.1.1 Commencing an APP

All Customer requests to commence an APP must be made in writing and received by the Company no later than the 15th day of the month preceding the month in which the APP is to commence. A Customer must provide the Company with one month written notice to change an APP. All charges for access facilities will apply until the requested disconnection date. The charges will apply whether or not the Customer uses the circuit. The APP commences the day of installation for a new circuit, or the first day the Initial Circuit can be billed under the plan.

2.1.2 Rate Changes

Customers whose circuits are subscribed through an APP are subject to all rate and discount revisions which are made during the course of the APP's term.

2.1.3 Early Termination

2.1.3.1 Customers who terminate service prior to the end of the committed term will be charged an early termination charge equal to the lesser of the following:

- i. the number of months remaining in the term multiplied by 50 percent of the undiscounted monthly rate at the time of termination; or,
- ii. one month's undiscounted monthly rate at the time of termination for Customers in a one-year APP; two months' undiscounted monthly rate at the time of termination for Customers in a two-year APP; six months' undiscounted monthly rate at the time of termination for Customers in a three-year APP; eight months' undiscounted monthly rate at the time of termination for Customers in a four-year APP; and ten months' undiscounted monthly rate at the time of termination for Customers in a five-year APP.

2.3 Credit Allowance for Interruption of Local Access Service

For the following services the Credit for Allowance for Interruption of Local Access Services set forth in Sections 2.41 through 2.4.4 applies:

- 1.1 Intrastate Analog Local Access
- 1.2 Intrastate DS0 (Hubless) Access
- 1.3 Intrastate T1 Digital Access
- 1.4 Intrastate DS-3 Local Access

2.3.1 In the event of a local access channel outage, a credit will be given in accordance with the following:

- a. The outage is 30 minutes or greater, measured from the time when the Customer reports the circuit failure or outage to the Company (trouble ticket initiation) and ending when the Company closes the trouble ticket.
- b. No credits will be given in cases where the Customer either does not initiate a trouble ticket or does not release the circuit to the Company for testing.
- c. For each circuit meeting the above criteria, the outage credit will equal two times the monthly local access channel charge, prorated for the outage period. The credit may not exceed 100 percent of the monthly local access channel charge.

Example: For a local access channel costing \$1000 per month, a credit for a 5 hour outage would be calculated as follows:

$$\begin{aligned} 5 \text{ hours} / 24 \text{ hours} / 30 \text{ days} &= .0069 \\ .0069 \times \$1000 &= \$6.90 \\ \text{Credit} &= \$6.90 \times 2 = \$13.80 \end{aligned}$$

- d. Two or more interruptions of 30 minutes or more during any period, up to but not including three hours, shall be considered as one interruption.

2.3.2 Credits will not be given if the outage or service unavailability resulted in whole or in part from one or more of the following:

- a. Any act or omission on the part of the Customer, Customer contractors or vendors, or third party (including, but not limited to any local access provider); scheduled maintenance; labor strikes; natural disasters; or force majeure events beyond the reasonable control of the Company (e.g., acts of God, government regulation, natural emergency, etc.);
- b. Interruptions during periods when the Customer elects not to release the service for testing or repair and continues to use it on an impaired basis;
- c. Interruptions during any period during which the Company or its agents are not afforded access to the premises where access lines associated with the Customer's services are terminated.

3.0 OTHER NON-RECURRING CHARGES (Cont'd)

3.1 Intrastate Administrative Non-Recurring Charges

3.1.1 Definitions. As used in this section, the following definitions apply:

Accelerated Expedite: A service order that is processed, at the request of the Customer, with the objective of installing the service in five (5) or fewer business days, whether or not installation is completed in that time period. An Accelerated Expedite charge will apply to the access services specified in the Accelerated Expedite table below and will be assessed on a per circuit basis. For Customer-provided access, the standard Expedite charge will apply as specified in the Expedite table below. Service orders requiring construction prior to the installation of service, either on-net or off-net, could result in extended delays even in instances where an Accelerated Expedite charge applies.

Administrative Change: The modification of an existing circuit, at the request of the Customer, that involves changes to Customer name, Customer contact name, Customer phone number, verification of testing performed by parties other than the Company, service rearrangements not involving a physical change and/or any other administrative change not covered by a Billing Record Change.

Billing Record Change: A change in Customer billing address not involving physical retermination of the circuit.

Cancellation of Order: A (i) Customer-initiated request to discontinue processing a service order, either in part or in its entirety, prior to its completion, excluding requests resulting from the Company's determination of the unavailability of facilities to complete the order and/or (ii) discontinuance by the Company of processing a service order resulting from a Customer request to defer installation for a period longer than 30 days. Cancellation of order charges will not apply to circuits for which the Customer reinstates the same service order within 30 days of requesting discontinue processing the order. Cancellation of Order charges will be assessed per cancelled circuit or port per order. Standard Expedite Charges will apply in addition to any cancellation of order charges if Customer cancels an Accelerated or standard Expedite order before installation.

Expedite: A service order that is processed, at the request of the Customer, with the objective of installing the service in a time period shorter than the Company's standard installation time period for that service, whether or not installation is completed in that time period. An Expedite charge will be assessed per circuit, per port, per order and/or per device depending on the service as specified in the Charges section below. Service orders requiring construction prior to the installation of service, either on-net or off-net, could result in extended delays even in instances where an Accelerated Expedite charge applies.

Pending Order Change: The modification of a service order, at the request of the Customer, prior to the completion date of the order. Charges may apply per order and per circuit or port for each modification.
