

DIAL TONE LINE CELL INFORMATIONDial Tone Line Cell Classification:

For the purposes of determining an Exchange Area Dial Tone Line monthly rate, the Exchange Areas are classified into one of four (4) Dial Tone Line Cells. The Cell classifications are determined by the following criteria. These criteria apply to all wire centers regardless of competitive classification.

(C)
|

<u>Dial Tone Line Cell</u>	<u>Classification Criteria</u>
1	All Philadelphia and Pittsburgh City Exchange Areas or Zones with working pairs per square mile greater than 9,000.
2	All remaining Philadelphia and Pittsburgh City Exchange Areas or Zones.
3	All Philadelphia and Pittsburgh Suburban Exchange Areas or Zones and all other Central Office districts with more than 500 working pairs per square mile.
4	All remaining Exchange Areas.

Dial Tone Line Reclassification

When an annual review indicates that the number of working pairs per square mile of an Exchange Area or Zone has exceeded or fallen below the above Dial Tone Line Cell criteria for two (2) consecutive study periods, the Exchange Area will be reclassified. Notice of the reclassification of the Exchange Area Dial Tone Line Cell shall be given by filing revised tariffs with the Commission.

2. EXCHANGE RATE CLASSIFICATIONS

- a. The Local Area Unlimited and Extended Area Unlimited Packages for Residence customers are classified into Usage Rate Groups on the basis of the number of lines in the Local Area Unlimited Usage Package local calling area adjusted by weighting factors which reflect distance.

(1) Lines

The number of lines for each exchange is the sum of the total number of residence and business main lines.

(2) Weighting Factors

The weighting factors are:

- For the exchange itself, each line is counted as "1".
- For each other exchange which may be called on a local basis, the number of lines is multiplied by a factor based on the rate center to rate center distance, as follows:

<u>Mileage Bands</u>	<u>1-10</u>	<u>11-16</u>	<u>17-22</u>	<u>23-30</u>
<u>Distance Factors</u>	1.0	1.5	2.0	2.5

(3) The Weighted Line Rate Groups for Exchange Usage are:

Such revised Tariffs will be filed only (1) when the number of weighted lines has exceeded or fallen below its Rate Group weighted line limits as determined on two consecutive semi-annual reviews or (2) when an additional exchange is added to the local calling area of the exchange and the new number of weighted lines exceeds the upper limit of the Usage Rate Group.

B. EXCHANGE SERVICE

1. DIAL TONE LINE

2. LOCAL USAGE OPTIONS - DESCRIPTION AND AVAILABILITY

Local Usage, as defined following, is provided to customers under options which differ in the way rates applicable to outgoing usage are charged. With any of the options, the customer can receive at no additional rate an unlimited number of incoming calls. Rates for the Local Usage Options are shown in C. following.

a. Budget Usage Option

- (1) With the Budget Usage Option, the customer is charged the applicable rate for each completed outgoing local call. The rate is based upon the Measured Use Rate Schedule shown in C. following.
- (2) This option is available to all Residence customers.
- (3) Residence customers receive an allowance toward their outgoing local calling charges.

b. Local Area Standard Usage Package

- (1) With the Local Area Standard Usage Package, the customer pays as stipulated monthly rate for up to a specified amount of outgoing measured use - the Standard Allowance - within a specified measured local calling area. Additional charges accrue for outgoing measured use in excess of the Standard Allowance. Accumulations of usage are based upon the Measured Use Rate Schedule shown in C. following.
- (2) This option is available to all Residence customers.

c. Local Area Unlimited Usage Package

C. RATES

1. EXCHANGE SERVICE RATE COMPONENTS

Two components are used in determining exchange service rates - the Dial Tone Line and the Local Usage Options.

a. Dial Tone Line Rates

A customer's Dial Tone Line rate is based upon the Exchange Area Cell classification. Each Exchange Area designation falls into Cell 3 or 4. (C) |

The Dial Tone Line rate for customers with Foreign Exchange Service or Foreign Central Office Service is the same as for the central office designation associated with the customer's local serving office.

b. Local Usage Option Rates

Residence customers choose one of the following usage options:

Local Area Unlimited Usage Option
Local Area Standard Usage Option
Budget Usage Option
Hometown-Plus Usage Option

A customer's Local Usage Option rate is based upon the option chosen and the Usage Rate Group of the customers Exchange Area.

The Local Usage Option rate for customers with Foreign Exchange Service or Foreign Central Office Service is the same as for the central office designation(s) associated with the foreign office.
