SECTION 6 - OBSOLETE SERVICE OFFERINGS, (CONT'D.)**6.1 Business/Residence Line Toll Free Service**

Business/Residence Line Toll Free Service provides for the termination of inbound toll-free calls to one-party exchange access lines. The minimum service period for Business/Residence Line Toll Free Service is one day.

6.1.1 Toll Free Number Assignment

Toll Free Number Assignment provides for the assignment of a single ten digit toll free number (i.e. 800-XXX-XXXX). Toll Free Number Service allows for but does not require the Toll Free Service Customer to use one toll free number. Toll Free Number Service can be selected for an area by specifying the desired area of service, as described in (B) following. The assigned toll free number will terminate to an exchange access line.

6.1.2 Area of Service

Area of Service defines the geographic location from which the Toll Free Number Service customer desires to accept calls for a given Toll Free number. An exchange access line is required for termination of Toll Free Number Service traffic. The desired Area of Service must be specified by Customer at the time Business/Residence Line Toll Free Service is ordered.

6.1.3 Variable Call Destination

The Variable Call Destination feature provides for multiple terminations of Business/Residence Line Toll Free Service when Customer specifies an Area of Service. This allows for the assignment of one toll free number with termination to an exchange access line.

SECTION 6 - OBSOLETE SERVICE OFFERINGS, (CONT'D.)**6.1 Business/Residence Line Toll Free Service, (cont'd.)****6.1.4 Determining Usage Charges**

Monthly usage charges are calculated separately for each exchange access line termination. There is a minimum usage charge based on the average completed call of 30 seconds per completed call for each billing period for each rate period. Therefore, if the average duration of all such calls is less than 30 seconds, the total use equals the number of calls multiplied by 30 seconds. Usage charges apply as follows:

- A. For each exchange access line termination of a given toll free number, the total chargeable hours for each rate period for each termination is the greater of (a) or (b) following, rounded up to the nearest tenth.
 - (a) Determine the total actual Business/Residence Line Toll Free Service hours associated with a given toll free number and exchange access line for each rate period (chargeable time for each call) or;
 - (b) Determine the total equivalent hours associated with a given toll free number for the exchange access line termination used for each rate period by applying the minimum average time requirement of 30 seconds per call (1 call X 30 seconds).
- B. Using the total chargeable hours per rate period determined in 1. preceding and the table of hourly rates, multiply the hourly rates(s) in the appropriate usage tier by the number of hours used in each usage tier. The total charge is the sum of all the usage.
- C. The charges for a fractional part of a month will be a proportionate part of the monthly recurring charge based on the actual number of days service is provided, plus the usage charges applicable for that month. Every month is considered to have 30 days.

SECTION 6 - OBSOLETE SERVICE OFFERINGS, (CONT'D.)**6.27 Business Plan B**

Business Plan B is an optional calling plan offered to existing Business Customers at existing locations prior to July 21, 2001 for outbound direct dialed calling from presubscribed switched or dedicated Access Lines at rates which are dependent on the Customer's monthly usage guarantee (MUG) level. Inbound (toll free) calling is also available for termination on switched or dedicated Access Lines. Operator assisted calling is also available under this plan. Customers may select a one, two or three year term commitment in order to obtain lower rates.

6.27.1 Billing Increments

The billing increment and minimum call duration of each call is determined by the access method selected by the Customer and the call type. Partial increments are rounded to the next increment.

<u>Access Type/Call Type</u>	<u>Initial Increment</u>	<u>Additional Increment</u>
Switched Access	18 seconds	6 seconds
Dedicated Access	6 seconds	6 seconds
Operator Assisted	60 seconds	60 seconds

6.27.2 Monthly Usage Guarantee

All intrastate, interstate and international usage charges and applicable surcharges billed to the Customer under this plan contribute towards meeting the monthly usage guarantee. In addition, feature charges, directory assistance charges, operator usage and surcharges, and monthly recurring charges are contributory to the monthly usage guarantee. Taxes, presubscribed line charges, carrier universal service charges, pay telephone use charges and other similar fees are not contributory. When the Customer's billing falls below the MUG in any full billing period, a shortfall charge will be applied which is equal to the difference between the Monthly Usage Guarantee and the actual contributory billing for that billing period.

6.27.3 Termination Liability

When the Customer terminates service under this plan prior to the expiration of the Customer's selected term commitment, a termination charge will be assessed. The termination charge is calculated by multiplying 35 percent (35%) of the Customer's Monthly Usage Guarantee multiplied times the number of months remaining in the term.

The early termination charge will apply under the following circumstances:

- A. When the Customer disconnects its entire Account;
- B. When the Customer selects a shorter term; or
- C. When the Customer negotiates a reduction in their monthly spending commitment more than one level during a billing cycle.

The early termination charge will not apply under the following circumstances:

- A. When the Customer's physical location changes, but the term plan is continued at the new location;
- B. When the Customer negotiates the term plan for a longer term;
- C. When the Customer moves to a jurisdiction where the Company is prohibited from offering service;
- D. When the Customer changes plan prior to 60 days of service;
- E. When the Customer returns to the Company and the same term length agreement as a result of a winback program;
- F. When the Customer moves from the two year term on Plan B Service to a one or three year term on Plan D Service;
- G. When the Customer reduces their term monthly spend level on level during a billing cycle; or
- H. When the Customer has encountered extremely poor service, verified by higher management.

6.27.3 Termination Liability, (Cont'd.)

Once the Customer has reached the lowest Minimum Usage Guarantee level of Plan B, they may move to Plan C without incurring a penalty. The Customer must move to the same term commitment they subscribed to on Plan B.

At the expiration of the term commitment, the Customer will continue at the same commitment and usage rate unless they choose to make a change, either to a different term commitment/minimum usage guarantee or to a different plan. If the Customer continues without changing, they will still be liable for the minimum usage guarantee to which they were originally subscribed.

6.30.1 Description

National Frame Relay Service (NFR) provides connectivity between multiple locations, suitable for connecting local area networks or other wide area network applications. Access to the Company's NFR network is provided in two ways: 1) via direct access, dedicated, digital access line connections at speeds of 56Kbps or 1.536 Mbps to the NFR serving office; or 2) via Frame Relay exchange access. Ports furnished under this tariff operate at speeds of 56/64, 128, 192, 256, 384, 512, 768 Kbps and 1.024, 1.28, 1.536, 4, 6, 10, 22 or 45 Mbps. NFR is offered within Arizona. Service is available for use 24 hours a day, seven days a week.

National Ports

Provides connectivity within and between locations within the State.

Permanent Virtual Circuits (PVCs)

Provides connectivity within the NFR network. PVCs are logical connections between two Ports with the NFR network.

SECTION 6 - OBSOLETE SERVICE OFFERINGS, (CONT'D.)**6.30 National Frame Relay Service (NFR), (Cont'd.)**

(N)

6.30.1 Description, (Cont'd.)

Committed Information Rates (CIRs)

Defines the minimum data transfer rate available between two Ports logically connected by a PVC. Based on the overall NFR network capacity, the Customer may transmit data in excess of the CIR for a limited period of time. The maximum data transfer rate available between two logically connected Ports connected by a PVC is equal to the lower port speed of the two Ports - up to maximum of 22 Mbps.

National Permanent Virtual Circuits (PVC's)

Provide connectivity (logical connections) between National Ports.

Virtual Ports

Provide connectivity for traffic that originates and terminates from or to a local frame relay network. Customers who have existing local Frame Relay can connect to the long distance Frame Relay network using a Virtual Port. Virtual Ports are available within and between the 48 contiguous states of the United States.

6.30.2 Responsibilities of the Customer

- A. The Customer must provide the following information to the Company when ordering NFR:

The number and location of Ports ordered;
The transmission speed of each Port;
The CIR of each PVC;
Burst Excess (Be) rate, if any; and
The Port origination and destination of each PVC/ CIR.

- B. Local Access Charges

1. Access Local Loop

If the Company provides the Access Local Loop facilities, the facilities will be billed at rates based on recurring and nonrecurring charges for such Access Local Loop as established by the LEC tariffs or other Carriers' tariffs.

When the Access Local Loop facilities are provided to the Customer by other carrier(s), the Customer is responsible for all associated recurring and nonrecurring charges and for compliance with the providing Carriers' Terms and Conditions.

The Customer is responsible for all charges associated with the access connection that is ordered by the Company on behalf of the Customer from other carriers.

6.30.3 Terms and Conditions**A. Service Level Agreement (SLA)**

1. The SLA will be applied and measured over a calendar month as specified. These measurements represent the minimum level of performance that is acceptable and are set accordingly. SLA applies to National Ports and National PVCS only. Performance Objectives and Credit Allowances will apply for Customers who have five (5) or more nodes in service during the entire month.
2. Objectives to be measured are:
 - Network Availability
 - MTTR
 - Frame Delivery
 - Transit Delay
3. Calculations for the above objectives will be based on the Customer call to the Network Operations Center (NOC) to establish a trouble report. Outage time begins when the Customer reports the trouble and ends when the Company notifies the Customer that the problem has been resolved.
4. A PVC or Port can only receive one service credit during any one calendar month. PVCs that receive a credit for failure to meet Network Transit Delay or Frame Delivery Performance objectives will not be included in the calculation for Network Availability.
5. Only National Ports, National PVCs and Company-provided local access are eligible for SLAs.
