At the expiration of the term commitment, the Customer will continue at the same commitment and usage rate unless they choose to make a change, either to a different term commitment/minimum usage guarantee or to a different plan. If the Customer continues without changing, they will still be liable for the minimum usage guarantee to which they were originally subscribed. (N)

Inbound (toll free) calling is also available for termination on switched or dedicated Access Lines. Customers may select a one, two or three year term commitment in order to obtain lower rates.

6.7.1 Billing Increments

The billing increment and minimum call duration of each call is determined by the access method selected by the Customer and the call type. Partial increments are rounded to the next increment.

The MRC applies in full each month regardless of whether or not the full allotment of minutes is used, except in the case of partial billing cycles. In the case of first and last month partial billing cycles, the MRC will be prorated based on the actual number of days the Customer had the service during the billing cycle.

Provides connectivity within the NFR network. PVCs are logical connections between two Ports with the NFR network.

Committed Information Rates (CIRs)

Defines the minimum data transfer rate available between two Ports logically connected by a PVC. Based on the overall NFR network capacity, the Customer may transmit data in excess of the CIR for a limited period of time. The maximum data transfer rate available between two logically connected Ports connected by a PVC is equal to the lower port speed of the two Ports - up to maximum of 22 Mbps.

National Permanent Virtual Circuits (PVC's)

Provide connectivity (logical connections) between National Ports.

Virtual Ports

Provide connectivity for traffic that originates and terminates from or to a local frame relay network. Customers who have existing local Frame Relay can connect to the long distance Frame Relay network using a Virtual Port. Virtual Ports are available within and between the 48 contiguous states of the United States.

6.11.2 Responsibilities of the Customer

A. The Customer must provide the following information to the Company when ordering NFR:

The number and location of Ports ordered;
The transmission speed of each Port;
The CIR of each PVC;
Burst Excess (Be) rate, if any; and
The Port origination and destination of each PVC/ CIR.

B. Local Access Charges

1. Access Local Loop

If the Company provides the Access Local Loop facilities, the facilities will be billed at rates based on recurring and nonrecurring charges for such Access Local Loop as established by the LEC tariffs or other Carriers' tariffs.

When the Access Local Loop facilities are provided to the Customer by other carrier(s), the Customer is responsible for all associated recurring and nonrecurring charges and for compliance with the providing Carriers' Terms and Conditions.

The Customer is responsible for all charges associated with the access connection that is ordered by the Company on behalf of the Customer from other carriers. (N)

6.11.3 Terms and Conditions

A. Service Level Agreement (SLA)

1. The SLA will be applied and measured over a calendar month as specified. These measurements represent the minimum level of performance that is acceptable and are set accordingly. SLA applies to National Ports and National PVCS only. Performance Objectives and Credit Allowances will apply for Customers who have five (5) or more nodes in service during the entire month.

2. Objectives to be measured are:

   Network Availability
   MTTR
   Frame Delivery
   Transit Delay

3. Calculations for the above objectives will be based on the Customer call to the Network Operations Center (NOC) to establish a trouble report. Outage time begins when the Customer reports the trouble and ends when the Company notifies the Customer that the problem has been resolved.

4. A PVC or Port can only receive one service credit during any one calendar month. PVCs that receive a credit for failure to meet Network Transit Delay or Frame Delivery Performance objectives will not be included in the calculation for Network Availability.

5. Only National Ports, National PVCs and Company-provided local access are eligible for SLAs. (N)

B. General Exclusions

The following exclusions are not calculated in the SLA.

1. A service outage that is not supported by a Company trouble ticket.

2. New installation prior to acceptance by the Customer.

3. Scheduled maintenance window with prior notifications.

4. Force Majeure.

5. Any act of omission, fault or negligence on the part of the Customer, its contractors, or any other entity over which the customer exercises control or has the right to exercise control.

6. Any act or omission on the part of any third party with the exception of the Interexchange Carrier (IXC), Local Exchange Carrier (LEC), Regional Bell Operating Company (RBOC) or any Company agent or contractor contracted by the Company.

7. The first month of service for the particular service element.

C. Credits

If the specified objectives are not met within the specified time frames, a 10% credit of the discounted Monthly Recurring Charges for all affected ports and PVCs, not to exceed $5,000, will be posted on the Customer's bill within two months of the Company's determination that the claim is valid. The credit will be applied to the appropriate elements affected by the outages (i.e. Ports, PVCs and Company provided local access). (N)
