

TWO AND FOUR PARTY
RESIDENCE AND BUSINESS SERVICE

Two and Four Party Residence and Business Service will be eliminated on or before June 3, 2003. The Company will convert existing Two and Four Party Line Service customers to individual Dial Tone Line Service.

(C)

LOCAL EXCHANGE SERVICE

A. EXCHANGE SERVICE

Local Exchange Service is described in Paragraph B. following:

1. Within the Exchange Area, as shown on the maps in Section 2 through 63, the rates for Type A Trunk, Type B Trunk, Pay Telephone Line Service and One-Party Service apply as shown in B.6 following. (C)

Local Exchange Service consists of an exchange access line terminated in a standard network interface.

2. A State Tax Adjustment Surcharge, as specified in Section 1A of Tariff, Telephone-Pa. P.U.C. No. 4, is hereby made a part of this tariff and applies in addition to the charges for Local Exchange Service as provided in this tariff.

These rates, terms and conditions are effective June 30, 2002.

(C) Indicates Change

Issued: October 30, 2003

Effective: October 31, 2003

LOCAL EXCHANGE SERVICE

B. EXCHANGE SERVICE (Cont'd.)

Exchange Service consists of two components – the Dial Tone Line and Local Usage Options.

Each of these rate components are billed monthly in addition to any applicable measured or metered usage charges.

1. Dial Tone Line

- a. The Dial Tone Line provides customers with access to the telephone network. The term Dial Tone Line applies to Residence and Business lines.
- b. The Exchange Dial Tone Line rates for Residence and Business customers are shown in C., following, and are classified into Dial Tone Line Cells.
- c. The Dial Tone Line rate for customers with Foreign Exchange Service or Foreign Central Office Service is the same as for the central office designation associated with the customer's local serving office. (C)
(C)

2. Local Usage Options – Description and Availability

Local usage as defined following, is provided to customers under options which differ in the way rates applicable to outgoing usage are charged. With any of the options, the customer can receive at no additional rate an unlimited number of incoming calls. Rates for the Local Usage Options are shown in C., following.

- a. Usage Sensitive Service (USS) Metered Usage Option
 - (1) With the USS Metered Usage Option, the customer is charged the applicable rate for each completed outgoing local call. The rate is based upon the USS Metered Use Rate Schedule shown in D., following.
 - (2) This option is available to all residence customers.
- b. Usage Sensitive Service (USS) Measured Usage Option
 - (1) With the USS Measured Usage Option, the customer is charged the applicable USS Measured Connection Rate Schedule and the USS Measured Rates Per Minute of Use Schedule shown in D., following.
 - (2) This option is available to residence and business customers.
- c. Local Area Unlimited Usage Package
 - (1) With the Local Area Unlimited Usage Package Option, the customer pays a stipulated monthly rate for an unlimited number of outgoing calls within a specified local calling area.
 - (2) This option is available to all residence customers, and existing business customers who continue such service at their current locations.
- d. Local Calling Plan description and rates are shown in Section 1B following.

These rates, terms and conditions are effective June 30, 2002.

(C) Indicates Change

Issued: November 12, 2004

Effective: November 15, 2004

LOCAL EXCHANGE SERVICE

B. EXCHANGE SERVICE (Cont'd.)3. Dial Tone Line Cell Classification

For the purposes of determining an Exchange Area Dial Tone Line monthly rate, the Exchange Areas are classified into one of the four (4) Dial Tone Line Cells. The Cell classifications are determined by the following criteria: These criteria apply to all wire centers regardless of competitive classification.

(C)

<u>Dial Tone Line Cell</u>	<u>Classification Criteria</u>
1	All Philadelphia and Pittsburgh City Exchange Areas or Zones with working pairs per square mile greater than 9,000.
2	All remaining Philadelphia and Pittsburgh City Exchange Areas or Zones.
3	All Philadelphia and Pittsburgh Suburban Exchange Areas or Zones with more than 500 working pairs per square mile.
4	All remaining Exchange Areas.

4. Dial Tone Line Reclassification

When an annual review indicates that the number of working pairs per square mile of an Exchange Area or Zone has exceeded or fallen below the above Dial Tone Line Cell criteria for two (2) consecutive study periods, the Exchange Area will be reclassified. Notice of the reclassification of the Exchange Area Dial Tone Line Cell shall be given by filing revised tariffs with the Commission.

5. Exchange Rate Classifications

The Local Area Unlimited Usage Package for Residence and Business lines are classified into Usage Rate Groups on the basis of the number of lines in the Local Area Unlimited Usage Package local calling area adjusted by weighting factors which reflect distance.

a. Lines

The number of lines for each exchange is the sum of the total number of residence and business lines.

b. Weighting Factors

- For the exchange itself, each line is counted as "1".
- For each other exchange which may be called on a local basis, the number of lines is multiplied by a factor based on the rate center to rate center distance, as follows:

<u>Mileage Bands</u>	<u>1 – 10</u>	<u>11 – 16</u>	<u>17 – 22</u>	<u>23 – 30</u>
<u>Distance Factors</u>	1.0	1.5	2.0	2.5

These rates, terms and conditions are effective June 30, 2002.

(C) Indicates Change

Issued: November 20, 2015

Effective: November 23, 2015

LOCAL EXCHANGE SERVICE

B. EXCHANGE SERVICE (Cont'd)5. Exchange Rate Classifications (Cont'd)

c. The Weighted Line Rate Groups for Exchange Usage are:

<u>Usage Rate Group</u>	<u>Weighted Lines in Local Calling Area</u>
A	0 – 27,000
D	27,001 – 83,000
F	83,001 – 350,000

6. Reclassification of Service

When the Company proposes to reclassify service in an exchange from one Usage Rate Group to another because of an increase or decrease in the total number of weighted lines, notice of the reclassification of the proper Usage Rate Group shall be given by filing revised Tariffs with the Commission. Such revised Tariffs will be filed only (1) when the number of weighted lines has exceeded or fallen below its Rate Group reviews or (2) when an additional exchange is added to the local calling area of the exchange and the new number of weighted lines exceeds the upper limit of the Usage Rate Group.

These rates, terms and conditions are effective June 30, 2002.

LOCAL EXCHANGE SERVICE

E. BUSINESS DIRECT BILL CREDIT

The Business Direct Bill Credit provides a one-time or monthly discount to business customers who:

- cite a competitive offer or are contemplating disconnecting their Verizon service but agree to retain their Verizon local exchange service;
- Or existing customers identified by Verizon as likely to disconnect their services without direct contact;
- or have an existing retention offer from Verizon that is expiring or has expired.

The Business Direct Bill Credit is available to customers who:

- call Verizon to disconnect at least one business exchange line, Centrex Plus with Assume Dial 9 (also known as Custopak) or Centrex Plus (dial 9) lines and cite a competitive offer or;
- are contemplating disconnecting their Verizon service but agree to retain their Verizon local exchange;
- or have an existing retention offer from Verizon that is expiring or has expired; and
- agree to maintain a certain amount of total monthly billed revenue on an account basis.

The Business Direct Bill Credit average monthly billed revenue thresholds and associated one time and monthly credits are as follows:

<u>Average Monthly Billed Revenue</u>	<u>Maximum One-Time Credit</u>	<u>Maximum Monthly Credit</u>
\$40.00	\$50.00	\$5.00
\$100.00	\$75.00	\$15.00
\$200.00	\$100.00	\$25.00
\$300.00	\$125.00	\$35.00
\$400.00	\$125.00	\$50.00
\$800.00	\$125.00	\$80.00

- The Business Direct Billed Credit, will apply per account from the date it is implemented on the customer's account and will continue for a maximum of 12 months.
- Qualifying business customers whose discount provided by a previous save offer that expires during the promotional period may qualify for an additional credit up to 12-months provided the customer retains their service in accordance with the requirements of the tariff.
- Customers will not automatically be enrolled in this offering. The Business Direct Bill Credit will be provided to qualifying customers only upon customer request or upon customer acceptance of a suggestion, recommendation, or offer of the discount made by Verizon.
- Customers are limited to one (1) retention discount only per account within the past six months and cannot combine discounts. Customers may not receive both a Business Direct Bill Credit monthly credit and a one-time credit per account.
- Eligible customers do not include customers who are disconnecting their service through the Verizon website or customers disconnecting service as a result of a move outside of or within the Verizon serving territory, disconnecting as a result of death of the customer, or disconnecting seasonal service.

RATES FOR LOCAL EXCHANGE SERVICE

D. ZONE RATE DIFFERENTIALS

Zone Rate Differentials as shown below apply for Type A Trunk, Type B Trunk, Pay Telephone Line Service and One-Party Service outside the base rate area. The Zone Rate Differential is added to the basic rate to obtain the total rate in each zone rate area as shown on the exchange and Base Rate Area map for the exchange.

(C)

<u>Approximate Airline Distance From the Base Rate Area</u>	<u>Individual or Trunk Service</u>
Zone 1 - First 1/4 mile or less	\$.25
Zone 2 - more than 1/4 mile and not more than 5/4 mile	.51
Zone 3 - more than 5/4 mile and not more than 1 3/4 mile	1.18
Zone 4 - more than 13/4 mile and within the exchange area	2.34

RATES FOR LOCAL EXCHANGE SERVICE

E. ROTARY LINE SERVICE (C)

A group of consecutively numbered individual exchange lines furnished to the same customer may be arranged, at the customer's request, so that all calls to the group will be directed automatically to an idle line of the group.

Only the number of the initial line of the group is listed in the telephone directory and all calls are directed to this number. The additional consecutively numbered lines of the group are termed auxiliary lines.

The automatic selection feature provides a far greater call carrying capacity over a smaller number of lines, fewer repeat calls because of line busy condition and convenience of a single listed number.

A monthly charge of \$2.95 applies for each line of a rotary service in addition to the rate for the appropriate class and grade of service. (C-I)

F. FOREIGN CENTRAL OFFICE SERVICE (C)

Foreign Central Office Service is exchange telephone service furnished to a customer in a multi-office exchange from a central office other than the one from which the service would normally be furnished.

1. CONDITIONS

- a. Foreign Central Office Service is a service not normally furnished by the Telephone company. It will be provided upon customer request only when in the opinion of the telephone company, circumstances warrant and where facilities are available. The Telephone company reserves the right to refuse to furnish or to cease furnishing the service when the cost of obtaining facilities is excessive, or the service may delay or impair service to others.
- b. Foreign Central Office Service will be furnished only in connection with business or residence individual lines, Type A and Type B trunk lines.

2. RATES

Monthly Rate

Mileage charge for each circuit between central offices,
in addition to the normal tariff rate for the class of
service furnished.
Each mile or fraction thereof

\$ 6.00

Issued: April 11, 1986

(C-I) Indicates Change-Increase
Effective: April 10, 1986

RATES FOR LOCAL EXCHANGE SERVICE

F. FOREIGN CENTRAL OFFICE SERVICE (Cont'd)

(C)

2. RATES (Cont'd)

The interoffice mileage is the airline distance between the central office from which the customer would normally be served and the foreign central office via any intermediate central offices, along the existing cable route between the serving offices.

Charges based upon cost apply for equipment, in addition to that normally used to furnish exchange telephone service, that may be required to achieve a quality of transmission and supervision equal to regular exchange service.

G. CONDITIONING OF EXCHANGE LINES FOR DATA TRANSMISSION

(C)

The local exchange telephone service network consists mainly of two-wire metallic facilities designed for transmission of voice and is not suitable for transmission of data, except at very slow speeds.

Rates contained in Section 30 of the General Tariff, Telephone-Pa. P.U.C. No. 15 of this company, apply in addition to those shown herein for conditioning of local exchange telephone service lines to operate within specified parameters required by the type of terminal equipment and speeds at which the data is to be transmitted.
