INTRASTATE TELECOMMUNICATIONS SERVICES TARIFF

SECTION C - SERVICE DESCRIPTIONS AND RATES (CONT.)3. METERED USE SERVICE.01 General Description

Metered Use Service offers the use of intrastate communications facilities shared among multiple users, and is provided on the basis of several separate service options. Depending on the option(s) chosen the customer may select the manner in which calls are originated and terminated, may obtain one-way or two-way service, may enjoy point-to-point or multipoint service, or may originate calls in multiple cities.

Under each service option, the individual customer's total monthly charges for their use of the intrastate communications facilities are based upon the total time the customer (account) utilizes such facilities. In that regard, individual intrastate facilities usage charges, as well as other specific charges, discounts and/or features are applicable to each individual service option. When a metered use service call is established in one time-of-day rate application period and ends in another, the rate in effect in each rate application period applies to the portion of the call occurring within that rate application period. A specific description of each of the Metered Use Services is contained in Sections C.3.02-C.3.23 following.

Service Cancellation Request Received From Local Exchange Carrier: If the Company cancels a Customer account or service at the request of the Local Exchange Carrier (LEC) serving the Customer, but the Customer nevertheless continues to complete calls over the Company's network by dialing 1+ or 1010222, then, for a period not to exceed thirty (30) days from the date the Company first received the service cancellation request, the following provisions shall apply:

Customers who had subscribed to residential service under this Tariff will be charged the rates set forth in Section C-3-02 for toll free service usage; and Section C-3-02 for direct dial operator assisted usage.

Customers who had subscribed to Metered Use Service Option U (Commercial Dial 1 Service), Metered Use Service Option R (MCI Preferred), Metered Use Service Option Z (MCI Flat Rate), Metered Use Service Option BB (Advanced Option I for Small Business), Metered Use Service Option CC (MCI Flat Rate Plus) or Metered Use Service Option EE (Advanced Option II for Small Business) will receive service under the terms and conditions, including rates and charges, set forth under the offering to which the customer subscribed at the time of cancellation under those services.

SECTION C - SERVICE DESCRIPTIONS AND RATES (CONT.)3. METERED USE SERVICE (Cont.).25 Option X (500 Personal Number Service)

500 Personal Number Service is an inbound voice-grade telecommunications service that permits calling from stations in diverse geographical service areas within Connecticut to a station at one location, or to a set of up to three stations at more than one location in Connecticut, based upon pre-established priorities as provided below.

For any 500 Personal Number Service call, there are two customers: the "Subscriber" (i.e., the party at whose designated location(s) the 500 Personal Number Service call terminates) and the "Calling Party" (i.e., the party who places the call). Each party is fully and equally subject to all applicable provisions in this tariff which pertains to customers. The Calling Party has three billing options available for this service: Calling Party ANI billing, local exchange carrier calling card, and commercial credit card.

The following types of calls are not permitted when using this service: collect; third party billed; and person-to-person.

All 500 Personal Number Service calls are subject to a 60-second minimum duration, with 60-second additional increments. If the computed charge for any call includes a fraction of a cent, the fraction is rounded to the nearest whole cent.

Neither the Subscriber nor the Calling Party is required to designate the Company as his or her Primary Interexchange Carrier (PIC). Each 500 Personal Number Service call will include a recorded or live operator announcement to the Calling Party indicating that the Company is the provider of the service.

Users of 500 personal Number Service may have access to non-tariffed enhancements (e.g., information services) provided by the Company.

.251 Basic Service Package

The Basic Service Package, which all 500 Personal Number Service Subscribers receive, includes the following:

§ Friends & Family 500 Number: Each Subscriber is assigned a 500 number.

§ Passcode: Each 500 Personal Number Service number is assigned a 6-digit passcode which can be used by the Subscriber to manage service features.

§ Multiple Number¹ Permits Subscribers to pre-establish in priority up to three telephone numbers in Connecticut for the completion of calls placed by Calling Parties to the Subscriber. Numbers will successively be attempted if a busy signal or answering machine is detected or if the call does not complete after four rings.

§ Final Message¹ If calls are not completed at any of the three alternate numbers, the call will be sent to a Final Message. The Subscriber may choose among various options for the final message, including a closing message which informs the caller that the Subscriber is not available.

¹ For these features, calls may not be forwarded to: service numbers (e.g., numbers beginning with 500, 700, 800, or 900); 911; numbers with a 555 prefix; or pay-per-call numbers (e.g. numbers with a 976 prefix).

SECTION C - SERVICE DESCRIPTIONS AND RATES (CONT.)

3. METERED USE SERVICE (Cont.).25 Option X (500 Personal Number Service)(Cont.).251 Basic Service Package (Cont.)

§ Alternate Number¹ A Subscriber may temporarily override the pre-established priority sequence by designating an alternate number without having to change any of his or her Multiple Numbers. If there is no answer at the alternate number, the call will be forwarded to the Final Message. This feature can be activated and deactivated by the Subscriber.

§ Call Screening: Call Screening allows a Subscriber to screen calls by prompting the Calling Party to state his or her name, and allowing the Subscriber to accept or redirect the call. This feature can be activated and deactivated by the Subscriber.

The Subscriber will be charged \$1.00 per month per 500 Personal Number Service Personal Number for the Basic Service Package.² The Calling Party is not subject to any monthly recurring charges, but will be obligated to pay usage charges associated with calls he or she places.

.252 Usage Charges - The Calling Party will be charged the following per minute usage charges for calls terminating within Connecticut:

<u>PEAK</u>	<u>OFF-PEAK</u>
\$0.2450	\$0.1450

Peak rates apply 8:00 am - 4:59 pm, Monday - Friday. Off-Peak rates apply at all other times. Standard Holiday discounts do not apply to these calls.

.253 Discounts - A 25 percent discount applies to 500 Personal Number Service calls placed at and billed to an ANI for which the Company is the designated PIC.

.254 Service Availability - 500 Personal Number Service calls may be placed from telephone within Connecticut served by Local Exchange Carriers which provide 500 access service.

¹ For these features, calls may not be forwarded to: service numbers (e.g., numbers beginning with 500, 700, 800, or 900); 911; numbers with a 555 prefix; or pay-per-call numbers (e.g. numbers with a 976 prefix).

SECTION C - SERVICE DESCRIPTIONS AND RATES (CONT.)3. METERED USE SERVICE (Cont.).95 Option RRRR (Verizon Prepaid Phone Cards)

Verizon Prepaid Phone Cards represent a prepaid calling card service that allows consumers to acquire and use cards to originate outbound direct dial calls via Company-provided 800 numbers. Verizon Prepaid Phone Cards can be used for both interstate and intrastate (intraLATA and interLATA) calls and are classified as either MCI Branded Phone Cards, or Verizon Branded Phone Cards, or cards co-branded with a third party (typically a distributor) (hereinafter "Verizon Branded Phone Cards") where the calling service is provided by MCI Communications Services, Inc. ("MCI")

There are two methods of providing Verizon Prepaid Phone Card services to consumers, as follows:

- Physical format which includes a preprinted phone number and a Personal Identification Number, hereinafter referred to as a "PIN", delivered on a plastic card typically measuring 3-1/2" x 2-1/4"; or,
- Virtual format, which is delivered as a PIN printed on a cash register receipt when purchased at a retail location, or delivered as a PIN when purchased via the World Wide Web.

Consumers can purchase Verizon Prepaid Phone Cards as follows:

- Verizon Branded Phone Cards directly from distributors.
- Verizon Branded Phone Cards via the World Wide Web or via a toll-free telephone number.

When sold through a distributor, prices for Verizon Branded Phone Cards and recharge minutes are established by the distributor. When sold by the Company, prices for Verizon Branded Phone Cards recharge minutes are established by the Company.

This tariff provides terms and conditions applicable to in-state calls made using Verizon Prepaid Phone Cards. The terms and conditions set forth herein for such calls made with Verizon Prepaid Phone Cards supplements the terms and conditions applicable to the sale and use of such cards as set forth in the Consumer Service Agreement located at http://prepaid.Verizon.com/ecommerce/service_agreement.jsp.

1. Card Values: Verizon Prepaid Phone Cards are available under two options, the Minute/Unit based cards and the Dollar based cards, as follows:

- Minute/Unit based cards display the initial number of minutes/units available for interstate calls to the card user at the time of card purchase. Minute/Unit based cards deduct the applicable charge for a call or other service in minutes/units.
- Dollar based cards display the initial dollar value of the card and a per minute rate for interstate calls, or the initial number of minutes available for interstate calls at the time of purchase. Dollar based cards deduct the applicable charge for a call or other service in dollars and cents.

3. METERED USE SERVICE (Cont.).95 Option RRRR (Verizon Prepaid Phone Cards) ² (Cont.)2. Features

The maximum charge for Golden Retriever is \$1.50 per call on dollar based cards and 30 interstate minutes/units on Minute/Unit based cards.

3. Rates and Charges:

Verizon Prepaid Phone Cards are provided in various minute/unit and dollar based denominations by MCI or through its distributors with a stated interstate per minute/unit value not to exceed \$0.35. One unit equals one minute (or fraction thereof) of interstate calling.

For completed in-state calls using a Verizon Prepaid Phone Card, the value of a Verizon Prepaid Phone Card may be decremented up to 1 times the interstate minute/unit value described above. The value of each in-state minute/unit equals 1 times the current interstate minute/unit value as described in this service. Other charges or surcharges may apply to card use. Partial minutes used are billed as full minutes.

Certain Verizon Branded Dollar based phone cards have a maximum per minute interstate rate of \$0.35 plus a surcharge assessed for each completed call. Those cards and their associated surcharge are listed below:

4. Recharging: Verizon Prepaid Phone Cards are rechargeable, meaning that additional value may be added to a card, subject to a maximum allowed value per card, unless the card has expired or as otherwise expressly stated on the card, card packaging, or in the Service Agreement. Such additional minutes/units will be charged at the prevailing per minute/unit rate as of the date of recharging. A minimum of ten dollars (\$10.00) and up to a specified maximum amount may be added to the card per each recharge.

In addition to the foregoing, rechargeable cards are also subject to the following terms and conditions:

- Upon recharge, a recharge fee of up to a maximum of fifteen percent (15%) of the recharge value may be assessed.
- Recharge may be accomplished in any of the following manners:
 - i. By direct payment at selected distributors' locations.
 - ii. By credit or debit card using the toll free access number printed on the card and following the audio prompts.
 - iii. By registering the card for "auto-recharge," an expedited recharge process that alerts the consumer when their calling card balance falls below a certain level and offers the option of an automatic recharge in the same dollar amount of the customer's previous recharge.

Recharge methods and availability may be based on distributor's preference. Recharge minutes/units or dollars of service purchased via the toll free access number or through auto-recharge must be paid for with a verified valid credit or debit card.

5. Exclusions: Verizon Prepaid Phone Cards cannot be used for calls to 700-, 900-, or 976 services or for certain operator assisted, third party billed or collect calls.
