SECTION A - GENERAL RULES AND REGULATIONS

1. General

This catalog schedule contains regulations and charges applicable to MCI intrastate telecommunications services subject to the jurisdiction of the Montana Public Service Commission. All general regulations, definitions, and abbreviations that are not state specific may be found at http://consumer.mci.com/mci_service_agreement/index.jsp. Some of MCI's services are interstate in nature and reference http://consumer.mci.com/mci_service_agreement/index.jsp. These services are complementary to interstate service and are not available for stand alone intrastate usage. All terms, conditions, features and functions, installation and monthly charges, and any other charges except intrastate usage will apply as described at http://consumer.mci.com/mci_service_agreement/index.jsp which are incorporated by reference throughout MCI's Montana catalog schedule. MCI's Montana catalog schedule applies to intrastate usage.

 - 1.1 Effective August 1, 2001, pursuant to the direction of the Federal Communications Commission (FCC), MCI is canceling its federal tariffs for services with certain exceptions, including those pertaining to exchange access, casual calling, and basic long distance service during a 45-day period for customers who sign up for Company service with a Local Exchange Carrier (LEC). International services for Residential and Small Business customers will also remain tariffed through January 27, 2002. Beginning August 1, service descriptions, definitions, terms and conditions, and pricing for state-to-state Residential and Small Business services no longer federally tariffed may be found i) at <http://www.mci.com/service> for Residential services and http://www.mci.com/sb/service_agreement for Small Business services, or ii) by calling 1-800-444-3333.
2. Availability

Services offered in this catalog schedule are provided where billing and provisioning capabilities exist.
3. Directory Assistance Service

Directory Assistance Service, as offered by the Company, allows customers to request information from Directory Assistance records. Directory Assistance charges apply to all requests. In addition to Directory Assistance charges, customers are charged the appropriate Operator Service Charges and Surcharges.

Directory Assistance is available to customers of MCI's Metered Use Service Options. A per call undiscounted charge will be applied to each call. Up to one request may be made on each call to Directory Assistance. The Directory Assistance charge applies to each call regardless of whether the Directory Assistance Bureau is able to furnish the requested telephone number. In addition to the Directory Assistance charge, the following surcharges also apply: surcharges associated with Option B (Credit Card) and Option L (Prism Plus) Calling Card calls; and those surcharges associated with operator assisted calls. The Operator dialed surcharge will not apply to Directory Assistance calls made using an MCI Calling Card. Directory Assistance calls will not count toward, nor be calculated as part of the volume discounts offered under the Metered Use Service Options.

 - .01 Directory Assistance Call Completion

Customers of Metered Use Service may request that the Directory Assistance operator complete the calls made within the state for one of the numbers provided pursuant to Section A-4 above. The customer will be charged an additional undiscountable surcharge of \$0.35 per completed call. The customer will be charged the per-minute rate for switched origination direct dial usage for the MCI service to which the customer is pre-subscribed for completed calls. Call completion is not available to callers who are not pre-subscribed to any MCI service, or for calls to toll free, 500, 700, 900 and 976 numbers.

4. Payphone Use Charge
(Where billing capabilities exist.)

An undiscountable of \$0.55 per call is applicable to calls that originate from any payphone within the state used to access MCI services as follows. This charge, which is in addition to standard usage charges and any applicable surcharges associated with MCI service, applies for the use of the instrument used to access MCI service and is unrelated to the MCI service accessed from the payphone. Customers of Metered Use Services will be charged the payphone use charge for each call which is placed from payphones within the state. The payphone use charge does not apply to calls placed from payphones at which the customer pays for service by inserting coins during the progress of the call; calls using Telecommunications Relay Service; calls originated by customers with qualified hearing or speech impairments who are certified.

5. Late Fee: MCI's bills are payable upon receipt. If MCI becomes concerned at any time about the ability of a customer to pay its bills, MCI may require that customer to pay its bills within a specified number of days and to make such payments in cash or the equivalent of cash. MCI may invoice low usage customers every other month unless a customer invoiced in such a manner requests monthly billing. If MCI permits a Commercial customer to delay payment beyond 35 days after the regular billing cycle, interest will accrue upon the unpaid amount at the rate of one-and-one-half percent (1.5%) per month, unless such rate is prescribed by law, in which event interest will accrue at the highest rate allowed by law. The late payment charge will not be applied to any disputed portion of the unpaid balance unless the dispute is resolved against the customer.

For residential and small business service customers, a late payment charge of 1.5% may be assessed on payments not received within 30 days from the invoice date, where capabilities exist. The late payment charge will be applied to the entire unpaid balance of the customer's monthly invoice including taxes. The late payment charge will not be applied to any disputed portion of the unpaid balance unless the dispute is resolved against the customer. The late payment charge of 1.5% is not applicable to subsequent rebilling of any amount to which a late payment charge has already been applied. Late charges are to be applied without discrimination.

6. SPECIAL PROMOTIONAL OFFERINGS:

From time to time, MCI may offer services at a reduced rate or free of charge for promotional, market research, or rate experimentation purposes. Such offerings will be for a limited duration and Customers will be so notified.

7. Call Blocking: Without notice, the Company may block calls to or from certain countries, country codes, cities, city codes, NXX exchanges, individual telephone stations, groups or ranges of individual telephone stations or calls that use certain authorization codes, whenever the Company deems it necessary to take such action to prevent: (a) the unlawful use of service; (b) fraud; (c) nonpayment for service; (d) the use of service in violation of the requirements of this catalog schedule; or (e) Company network blockage or the degradation of service furnished to the Customer or to other customers; or when actions taken by foreign governments or foreign telecommunications agencies, or responsive actions taken by the U. S. Government or any instrumentality thereof, render it impossible or impracticable to provide service. The Company will unblock as soon as it determines it can do so without undue risk, and it will, upon request by an affected Customer, assign new authorization codes to replace any that were deactivated. Whenever call blocking occurs on lines presubscribed to the Company, Customers or former Customers will be unable to make calls via any of the Company's CICs or those of its affiliates. At the request of a private payphone owner, the Company will arrange to block direct dial (i.e., completed without the assistance of an operator) calls made from a payphone to Puerto Rico and the U.S. Virgin Islands and to all international locations, except Canada. The Company may refuse to accept calling or credit card, collect calling and/or third number calls which it determines are or may be fraudulent, or it may limit the use of these billing options to or from certain countries or areas, including all or part of the United States, Puerto Rico, and the U.S. Virgin Islands.

8. INSTATE ACCESS RECOVERY FEE:

A monthly service charge that is applied to Customers subscribed to the Company for long distance services associated with a residential telephone line or billed to a residential account. This charge reflects costs incurred by the Company in providing in-state long distance service over Customer's local exchange provider's network. Customers will be exempt from this charge during any monthly period when company spending is less than \$1.00.

Monthly Recurring Charge: \$2.95

Such additional minutes/units will be charged at the prevailing per minute/unit rate as of the date of recharging. A minimum of ten dollars (\$10.00) and up to a specified maximum amount may be added to the card per each recharge.

In addition to the foregoing, rechargeable cards are also subject to the following terms and conditions:

- Upon recharge, a recharge fee of up to a maximum of fifteen percent (15%) of the recharge value may be assessed.
- Recharge may be accomplished in any of the following manners:
 - i. By direct payment at selected distributors' locations.
 - ii. By credit or debit card using the toll free access number printed on the card and following the audio prompts.
 - iii. By registering the card for "auto-recharge," an expedited recharge process that alerts the

consumer when their calling card balance falls below a certain level and offers the option of an automatic recharge in the same dollar amount of the customer's previous recharge.

Recharge methods and availability may be based on distributor's preference. Recharge minutes/units or dollars of service purchased via the toll free access number or through auto-recharge must be paid for with a verified valid credit or debit card.

5. Exclusions: Verizon Prepaid Phone Cards cannot be used for calls to 700-, 900-, or 976 services or for certain operator assisted, third party billed or collect calls. Any unused balance on a Verizon Prepaid Phone Card cannot be transferred to or combined with one or more other Verizon Prepaid Phone Cards.
6. Availability of Service: There are no time of day or day of year restrictions for use of Verizon Prepaid Phone Cards.
7. Regulations: Use of Verizon Prepaid Phone Cards is available by calling the Company toll free number printed on the card.
 - A completed call may only be charged to a Verizon Prepaid Phone Card that has a balance sufficient to cover the charges assessed for the call. The Verizon Prepaid Phone Card balance will be reduced by the appropriate minutes/units or dollars charged for the completed call.
 - After the number of the called party is dialed, but before the call is completed, the available balance of talk time based upon the telephone number of the called party will be announced to the caller. A Verizon Prepaid Phone Card call will be interrupted with an announcement when the available balance on the card drops to one minute/unit, based on the originating/terminating phone numbers of the call. Once the balance on the card is insufficient to continue, the call will terminate.
 - Credit allowances for interruptions – MCI will credit one minute/unit on a consumer's Verizon Prepaid Phone Card in the event of poor call transmission or call cut off caused by MCI. To receive a credit, the consumer must promptly notify MCI Customer Service of the service problem by calling the Customer Service number printed on the card. Credit will not be given when interruptions are caused by the failure of systems not provided by MCI, by the failure of other MCI services connected to the Verizon Prepaid Phone Card, for wrong telephone numbers or other causes outside the control of MCI.
 - Activated Verizon Prepaid Phone Cards are non-refundable. Once activated, and subject to applicable terms and condition, a Verizon Prepaid Phone Card may be used to originate direct dialed calls until the available card balance is depleted or the card expires, whichever first occurs. Card expiration dates will be specified on the card or the card packaging.

Prices for MinutePass Branded Phone Cards and recharge minutes are established by MCI.

This Catalog Schedule provides terms and conditions applicable to in-state calls made using MinutePass Branded Phone Cards. The terms and conditions set forth herein for such calls made with MinutePass Branded Phone Cards supplements the terms and conditions applicable to the sale and use of such cards as set forth in the Service Agreement located at <http://www.minutepass.com/ServiceAgreement.asp>.

After the number of the called party is dialed, but before the call is completed, the available balance of talk time based upon the telephone number of the called party will be announced to the caller. A MinutePass Branded Phone Card call will be interrupted with an announcement when the available balance on the card drops to one minute, based on the originating/terminating phone numbers of the call. Once the balance on the card is insufficient to continue, the call will terminate.

Credit allowances for interruptions: MinutePass Branded Phone Cards will credit one minute on a consumer's MinutePass Branded Phone Card in the event of poor call transmission or call cut off caused by MCI. To receive a credit, the consumer must promptly notify MinutePass Customer Service of the service problem by calling the Customer Service number printed on the card. Credit will not be given when interruptions are caused by the failure of systems not provided by MCI, by the failure of other MCI services connected to the MinutePass Branded Phone Card, for wrong telephone numbers or other causes outside the control of MCI.

Activated MinutePass Branded Phone Cards are non-refundable. Once activated, and subject to applicable terms and condition, a MinutePass Branded Phone Card may be used to originate direct dialed calls until the available card balance is depleted or the card expires, whichever first occurs. Card expiration dates will be specified on the card or the card packaging.
