

INTERCONNECTION

5. Operation, Maintenance, and Engineering

The Company and the Co-provider are each individually responsible for the installation, operation, maintenance of the equipment and facilities on their own respective networks. The Company and the Co-provider will perform functions for each other which are reasonably necessary to engineer, install, maintain, and administer the facilities subject to this arrangement.

Issued under authority of M.P.S.C. Opinion and Order dated February 23, 1995, Case No. U-10647.

Issued: July 28, 2021

Effective: August 1, 2021
