As used in conjunction with the Friends of the Firm Program, a Calling Circle is a group of up to twenty (20) U.S. telephone numbers and which numbers are presubscribed to MCI, plus the Subscriber's own telephone number or numbers.

Verizon Prepaid Phone Cards represent a prepaid calling card service that allows consumers to acquire and use cards to originate outbound direct dial calls via Company-provided 800 numbers. Verizon Prepaid Phone Cards can be used for both interstate and intrastate (intraLATA and interLATA) calls and are classified as either MCI Branded Phone Cards, or Verizon Branded Phone Cards, or cards co-branded with a third party (typically a distributor) (hereinafter "Verizon Branded Phone Cards") where the calling service is provided by MCI Communications Services **LLC** d/b/a Verizon Business Services ("MCI")

There are two methods of providing Verizon Prepaid Phone Card services to consumers, as follows:

- Physical format which includes a preprinted phone number and a Personal Identification Number, hereinafter referred to as a "PIN", delivered on a plastic card typically measuring 3-1/2" x 2-1/4"; or,

Consumers can purchase Verizon Prepaid Phone Cards as follows:

- Verizon Branded Phone Cards directly from distributors.
- Verizon Branded Phone Cards via the World Wide Web or via a toll-free telephone number.

When sold through a distributor, prices for Verizon Branded Phone Cards and recharge minutes are established by the distributor. When sold by the Company, prices for Verizon Branded Phone Cards recharge minutes are established by the Company.

This catalog provides terms and conditions applicable to in-state calls made using Verizon Prepaid Phone Cards. The terms and conditions set forth herein for such calls made with Verizon Prepaid Phone Cards supplements the terms and conditions applicable to the sale and use of such cards as set forth in the Consumer Service Agreement located at http://prepaid.Verizon.com/ecommerce/service_agreement.jsp.

1. Card Values: Verizon Prepaid Phone Cards are available under two options, the Minute/Unit based cards and the Dollar based cards, as follows:

- Minute/Unit based cards display the initial number of minutes/units available for interstate calls to the card user at the time of card purchase. Minute/Unit based cards deduct the applicable charge for a call or other service in minutes/units.
- Dollar based cards display the initial dollar value of the card and a per minute rate for interstate calls, or the initial number of minutes available for interstate calls at the time of purchase. Dollar based cards deduct the applicable charge for a call or other service in dollars and cents.

2. Features

Operator Assistance and Customer Service: Operator Assistance for call dialing is available as specified on some cards, at no charge to the consumer. Customer service is available on all cards at no charge to the consumer.

Consumers may request up to two listings per call. The Directory Assistance charge will be announced to the caller prior to connecting the call.

Enhanced Directory Service: Golden Retriever, an Enhanced Directory Service, is available through Verizon Prepaid Phone Cards and provides consumers with instant access to information including weather, reverse phone number look-up, phone number look-up and category search. Consumers may request up to three pieces of information per call to Enhanced Directory Service. Each such call is charged at a flat rate and is not subject to a per minute rate. The maximum charge for Golden Retriever is \$1.50 per call on dollar based cards and 30 interstate minutes/units on Minute/Unit based cards.

3. Rates and Charges:

Verizon Prepaid Phone Cards are provided in various minute/unit and dollar based denominations by MCI or through its distributors with a stated interstate per minute/unit value not to exceed \$0.35. One unit equals one minute (or fraction thereof) of interstate calling.

For completed in-state calls using a Verizon Prepaid Phone Card, the value of a Verizon Prepaid Phone Card may be decremented up to 3 times the interstate minute/unit value described above. The value of each in-state minute/unit equals 3 times the current interstate minute/unit value as described in this service. Other charges or surcharges may apply to card use. Partial minutes used are billed as full minutes.

Certain Verizon Branded Dollar based phone cards have a maximum per minute interstate rate of \$0.35 plus a surcharge assessed for each completed call. Those cards and their associated surcharge are listed below:

4. Recharging: Verizon Prepaid Phone Cards are rechargeable, meaning that additional value may be added to a card, subject to a maximum allowed value per card, unless the card has expired or as otherwise expressly stated on the card, card packaging, or in the Service Agreement. Such additional minutes/units will be charged at the prevailing per minute/unit rate as of the date of recharging. A minimum of ten dollars (\$10.00) and up to a specified maximum amount may be added to the card per each recharge.

In addition to the foregoing, rechargeable cards are also subject to the following terms and conditions:

- Upon recharge, a recharge fee of up to a maximum of fifteen percent (15%) of the recharge value may be assessed.
- Recharge may be accomplished in any of the following manners:
 - i. By direct payment at selected distributors' locations.
 - ii. By credit or debit card using the toll free access number printed on the card and following the audio prompts.
 - iii. By registering the card for "auto-recharge," an expedited recharge process that alerts the consumer when their calling card balance falls below a certain level and offers the option of an automatic recharge in the same dollar amount of the customer's previous recharge.

Recharge methods and availability may be based on distributor's preference. Recharge minutes/units or dollars of service purchased via the toll free access number or through auto-recharge must be paid for with a verified valid credit or debit card.

5. Exclusions: Verizon Prepaid Phone Cards cannot be used for calls to 700-, 900-, or 976 services or for certain operator assisted, third party billed or collect calls. Any unused balance on a Verizon Prepaid Phone Card cannot be transferred to or combined with one or more other Verizon Prepaid Phone Cards.
6. Availability of Service: There are no times of day or day of year restrictions for use of Verizon Prepaid Phone Cards.

7. Regulations: Use of Verizon Prepaid Phone Cards is available by calling the Company toll free number printed on the card.
- A completed call may only be charged to a Verizon Prepaid Phone Card that has a balance sufficient to cover the charges assessed for the call. The Verizon Prepaid Phone Card balance will be reduced by the appropriate minutes/units or dollars charged for the completed call.
 - After the number of the called party is dialed, but before the call is completed, the available balance of talk time based upon the telephone number of the called party will be announced to the caller. A Verizon Prepaid Phone Card call will be interrupted with an announcement when the available balance on the card drops to one minute/unit, based on the originating/terminating phone numbers of the call. Once the balance on the card is insufficient to continue, the call will terminate.
 - Credit allowances for interruptions – MCI will credit one minute/unit on a consumer's Verizon Prepaid Phone Card in the event of poor call transmission or call cut off caused by MCI. To receive a credit, the consumer must promptly notify MCI Customer Service of the service problem by calling the Customer Service number printed on the card. Credit will not be given when interruptions are caused by the failure of systems not provided by MCI, by the failure of other MCI services connected to the Verizon Prepaid Phone Card, for wrong telephone numbers or other causes outside the control of MCI.
 - Activated Verizon Prepaid Phone Cards are non-refundable. Once activated, and subject to applicable terms and condition, a Verizon Prepaid Phone Card may be used to originate direct dialed calls until the available card balance is depleted or the card expires, whichever first occurs. Card expiration dates will be specified on the card or the card packaging.
8. Other Conditions of Service:
- The U.S. Public Payphone Surcharge applies when a Verizon Prepaid Phone Card is used to place a call from a U.S. public or semi-public payphone.

- * Alternate Number³: A Subscriber may temporarily override the pre-established priority sequence by designating an alternate number without having to change any of his or her Multiple Numbers. If there is no answer at the alternate number, the call will be forwarded to the Final Message. This feature can be activated and deactivated by the Subscriber.

5. RATE & MILEAGE TABLE

METHOD FOR CALCULATION FOR AIRLINE MILEAGE

.01 Method of Calculation

The airline mileage between two MCI serving rate centers can be calculated using the Vertical (V) and Horizontal (H) Coordinates as obtained by reference to AT&T's Tariff F.C.C. No. 10 according to the following:

- (1) Obtain the "V" and "H" coordinates for each MCI rate center.
- (2) Obtain the difference between the "V" coordinates of the two rate centers. Obtain the difference between the "H" coordinates.

Note: The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.

- (3) Divide each of the differences obtained in (2) by three, rounding each quotient to the nearer integer.
- (4) Square these two integers and add the two squares. If the sum of the squares is greater than 1777, divide the integers obtained in (3) by three, and repeat step (4). Repeat this process until the sum of the squares obtained in (4) is less than 1778.
- (5) The number or successive divisions by three in steps (3) and (4) determines the value of "N". Multiply the final sum of the two squares obtained in step (4) by the multiplier specified in the following table for the value of "N" preceding:

<u>N</u>	<u>Multiplier</u>	<u>Minimum Rate Mileage</u>
1	0.9	-
2	8.1	41
3	72.9	121
4	656.1	361
5	5,904.9	1,081
6	53,144.1	3,241

- (6) Obtain square root of product in (5) and, with any resulting fraction, round up to next higher integer. This is the rate mileage except that when the mileage so obtained is less than the minimum rate mileage shown in (5), preceding, the minimum rate mileage corresponding to the "N" value is

Effective July 1, 2020

applicable.

EXAMPLE:

The rate mileage between Camden and Newark is calculated as follows:

		<u>V</u>	<u>H</u>	
(a)	Camden		5249	1453
	Newark	<u>5015</u>	<u>1430</u>	
(b)	difference		234	23

(c1) divide each difference by three and rounding to nearer integer = 78 and 8

(d1) square integers and add, $78 \times 78 = 6084$
 $8 \times 8 = \underline{64}$
sum of squared integers 6148

sum of squared integers is greater than 1777, so divide integers in (c1) by three and repeat (d1)

(c2) divide integers in (c1) by three and rounding = 26 and 3

(d2) square integers and add, $26 \times 26 = 676$
 $3 \times 3 = \underline{9}$
sum of square integers 685

This sum of square integers is less than 1778 and was obtained after two successive divisions by three, therefore, "N" = 2.

(e) Multiply final sum or squared integers by factor 8.1 $\frac{685}{\times 8.1}$
(corresponding to "N" = 2) 5548.5

(f) Square root of 5548.5 = 74 and a fraction, which is rounded up to 75 miles (fractional miles are considered full miles). The 75 miles is larger than the minimum of 41 miles applicable when "N" = 2, so the rate mileage is 75 miles.
