Charges for additional Authorization Codes and Accounting Codes will be waived for all Corporate Account Service customers. Customers who elect this billing option are subject to the following:

.031 The customer electing this option shall be designated as the Sponsor, and as such must accept financial responsibility for all sub-accounts included under the Corporate Account Service arrangement. Should the total monthly usage charges

for all sub-accounts fail to equal $2,500.00 in any month, the Sponsor is responsible for payment of the difference. (A grace period, consisting of the first three full billing months, will be extended to all new customers. During this period, the monthly minimum usage charge will not be billed.)

.032 The Sponsor must specifically name all sub-accounts in the application for Corporate Account Service. Further, orders which involve the start or discontinuance of service will be accepted by the Company only from the Sponsor and will be subject to all regulations in this Catalog Schedule.

.033 Each sub-account will be deemed to be a customer of the Company, and will be billed separately for its Company service and will be responsible for payments to the Company. In the event that a sub-account fails to pay the Company the Sponsor shall be liable to the Company for all charges incurred as a result of such sub-account's use of the Company's service. Prior to initiation of service under Corporate Account Service, the Sponsor must submit to the Company a letter accepting the terms and conditions set forth herein.

.034 A customer, at their option, may obtain Corporate Account Service (CAS) PLUS if it agrees to (1) place a single unified order for service for multiple business locations that the customer owns, franchises, manages, or directs; (2) subscribe to services furnished under the appropriate state tariff, Catalog Schedule, or equivalent as well as the terms and conditions set forth in this Catalog Schedule for one year; (3) pay a monthly fee of $1,500 for this service; and (4) be bound by the other terms and conditions set forth in B-6.03 contained herein. For the first three full months of service the monthly fee will not be filled for new customers. Thereafter, if a customer withdraws from this option, other than to convert to VNET service offered by the company not subject to this Catalog Schedule, the customer will be financially responsible for payment of the $1,500.00 monthly fee times the number of full months remaining in the initial one-year Corporate Account Service PLUS commitment. The term will be automatically renewed on a yearly basis, unless cancelled by the customer, in writing, on not less than 30 days' notice from the date of postmark on the letter cancelling service. A customer electing this variation of the Corporate Account Billing Arrangement will be given discounts and reduced monthly recurring charges as provided in this Catalog Schedule for itself and its sub-accounts for Dial "1" including Prime Credit Card and Prism Plus Services. Charges for additional Authorization Codes, Speed Numbers, and Accounting Codes for Dial "1", MCI Card, and Prism Plus will be waived for all Corporate Account Service PLUS customers. Subscribers of this service shall not be entitled to any other discount or promotion offered by the Company on charges arising from services furnished pursuant to this option. Customers who elect Corporate Account Service PLUS are subject to the following:

.0341 The customer electing this option shall be designated as the Sponsor and, as such, must accept financial responsibility for the $1,500.00 CAS Plus monthly fee. If service under this option is cancelled at any time after three full billing months, the Sponsor will be responsible for paying the Company the remaining balance for the remainder of the one-year service term as described in B-6.034. The term will be automatically renewed on a yearly basis, unless cancelled by the customer, in writing, on not less than 30 days' notice from the date of the postmark on the letter cancelling service.

.0342 Each sub-account will be deemed to be a customer of the Company, and will be billed separately for its Company service and will be responsible for

payment to the Company. In the event that a sub-account fails to pay the Company, the Sponsor shall be liable to the Company for all charges incurred as a result of the sub-account's use of the Company's service. Prior to initiation of service under the Corporate Account Service PLUS, the Sponsor must submit to the Company a Letter of Understanding accepting the terms and conditions set forth herein.

.04 Directory Assistance is available to customers of the Company's Metered Use Service Options. An undiscounted charge of $1.99 will be applied to each call each month for information as to any telephone number with the state, except for MCI PhoneCash and MCI PrePaid as described below.

Up to one request may be made on each directory assistance call. The Directory Assistance charge applies to each call regardless of whether the Directory Assistance Bureau is able to furnish the requested telephone number. In addition to the Directory Assistance charge listed above, the following surcharges also apply: Surcharges associated with Credit Card and Prism Plus calling card calls; and those surcharges associated with operator assisted calls. The Operator Dialed Surcharge will not apply to Directory Assistance calls made using a Company Calling Card. Directory Assistance calls will not count toward, nor be calculated as part of, the Volume Discounts offered under the Metered Use Service Options referenced above.

MCI PhoneCash	1 Unit
MCI PrePaid	4 units

.041 A credit allowance will be given, or the charge that would otherwise apply will be waived, when (1) the customer experiences poor transmission or is cut-off. During the call to Directory Assistance, (2) the customer is given an incorrect telephone number by the Directory Assistance operator, or (3) the customer has inadvertently misdialed and has reached Directory Assistance for the wrong area code. To obtain such a credit/waiver, the customer must promptly notify his or her Customer Service Representative.

Customers who have been certified in writing as unable to access or use a manual directory because of a visual or other physical impairment are eligible to receive a credit which will be applied against the per-call charge and any applicable operator-assistance surcharges for domestic Directory Assistance as specified in this Catalog Schedule. This certification must be made by a licensed physician, optometrist, appropriate federal or state agency, or appropriate private agency. Upon request, MCI Customer Service will furnish applicants with a certification form.

The written certification of visual or other physical impairment must be provided to an MCI Customer Service Center or, at MCI's election, proof of certification, as defined above, may be provided to, and maintained on file with, the customer's Local Exchange Carrier.

Credits may be used by: 1) the visually or otherwise physically impaired customer; 2) an organization established specifically for the purpose of assisting the visually or otherwise physically impaired; or 3) a business where all owner(s) and/or employees of the business on the premises at which a call originates have been certified as visually or otherwise physically impaired. Credits will apply only to directory assistance calls, including any operator-assistance surcharges necessary to complete those calls, that originate from and are billed to the telephone number of the certified visually or otherwise physically impaired person or organization. Only one telephone number per location is entitled to this credit. A maximum of fifty directory assistance calls, including operator-assistance surcharges, per monthly billing period will be eligible for the credit. The actual credit for any one call to directory assistance (including operator-assistance surcharges) shall not exceed $5.

.042 Directory Assistance Call Completion
The customer may request that the Directory Assistance operator complete the calls made within the state for one of the numbers provided under Section B-6.04. The customer will be charged an additional undiscountable surcharge of $0.35 per completed call. The customer will be charged the per-minute rate for switched originating direct dial usage for the Company service to which the customer is pre-subscribed for completed calls. Call Completion is available to Residential Customers only. Call completion is not available to callers who are not pre-subscribed to any Company service, or for calls to toll free, 500, 700, 900 and 976 numbers.

.05 Service furnished by Company may be arranged for use by other common carriers for the purposes of resale subject to the following:

.051 Other Common Carriers will be responsible for all interaction and interface with their own subscribers or customers.

.06 Service furnished by the Company shall not be used:

.061 For any unlawful purpose.

.062 For any purpose for which any payment or other compensation is received by the customer, except when the customer is an entity which holds itself out as being a communications common carrier. This provision does not prohibit an agreement between the customer, authorized user or joint user to share the cost of the service as long as this arrangement generates no profit for anyone participating in a joint use or authorized use arrangement.

.07 Payphone Use Charge
An undiscountable per call charge of $0.55 is applicable to calls that originate from any payphone within the state used to access the Company services as follows. This charge, which is in addition to standard Catalog Schedule usage charges and any applicable surcharges associated with Company service, applies for the use of the instrument used to access Company service and is unrelated to the Company service access from the payphone. Customers will be charged the Payphone Use Charge for each call placed from a payphone within the state. The Payphone Use Charge does not apply to: calls using Telecommunications Relay Service; calls originated by customers with qualified hearing or speech impairment who are certified; and calls placed from payphones at which the customer pays for service by inserting coins during the progress of the call.

A two unit per call Payphone Use Charge will be applied to payphone calls made by customers of: MCI PrePaid. This charge will apply for each completed call made from a domestic payphone and will not apply to calls placed to Company PrePaid Customer Service. This charge will be levied as billing becomes available.

.08 [Reserved for Future Use.]

7. PAYMENT ARRANGEMENTS

.01 The customer is responsible for payment of all charges for services furnished to the customer or its joint or authorized users. This responsibility is not changed, by virtue of any use, misuse, or abuse of the customer's service or customer-provided systems, equipment, facilities, or services interconnected to the customer's service, which use, misuse, or abuse may be occasioned by third parties, including, without limitation, the customer's employees or other members of the public. Non-recurring charges are payable when the service for which they are specified have been performed. If an entity other than MCI (e.g., another

carrier or supplier) imposes charges on MCI, in addition to its own internal costs, in connection with a service for which an MCI non-recurring charge is specified, those charges will be passed on to the customer. Recurring charges which are fixed in amount and not dependent on usage are billed in advance. Usage charges are billed after each usage cycle. For customers of Dial One/Direct Dial, Credit Card, Prism Plus, Preferred, and Commercial Dial-1 Service, except for usage charges, the rate or volume discount level in effect at the end of the monthly billing period applicable to the customer for the particular service or services shall be the rate or volume discount level in effect at the end of the monthly billing period applicable to the customer for the particular service or services. If a member of a Friends & Family Calling Circle discontinues his or her MCI service, only those eligible calls which were made while he or she was a Friends & Family member will receive the Friends & Family discount.

.02 (Reserved for Future Use)

.03 The Company's bills are payable upon receipt, unless the Company indicates on the invoice or a billing insert that the sum shown as due need not be paid, because of the smallness of the amount, until the balance reaches some specified amount; or MCI may deal with customers whose accounts show very small balances by withholding the issuance of an invoice until the amount due from the customer reaches a level which, in the Company's sole discretion, is deemed large enough to justify initiating the billing and collection process; or the Company may invoice low usage customers every other month unless a customer invoiced in such a manner requests monthly billing. When a bill is issued, amounts not paid within 30 days after the date of invoice will be considered past due. If the Company becomes concerned at any time about the ability of a customer to pay its bill, the Company may require that customer to pay its bills within a specified number of days and to make such payments in cash or the equivalent of cash.

For residential service customers and Small Business customers, a late payment charge of 1.5% may be assessed on payments not received within 30 days from the invoice date, where capabilities exist. The late payment charge will be applied to the entire unpaid balance of the customer's monthly invoice including taxes. The late payment charge will not be applied to any disputed portion of the unpaid balance unless the dispute is resolved against the customer. The late payment charge of 1.5% is not applicable to subsequent rebilling of any amount to which a late payment charge has already been applied. Late charges are to be applied without discrimination.

The late payment charge will not be applied to any disputed portion of the unpaid balance unless the dispute is resolved against the customer.

.04 Applicants for service or existing customers whose financial condition is not acceptable to the Company, or is not a matter of general knowledge, may be required at any time to provide the Company with a security deposit. For residential customers the deposit will be in cash or the equivalent of cash, up to an amount equal to the applicable installation charges, if any, and/or up to three months' estimated usage charges based upon the Company's experience with residential customers whose service has been discontinued for non-payment of their first three Company invoices. For customers other than residential, the deposit requested will be in cash or the equivalent of cash, up to an amount equal to the applicable installation charges, if any, and/or up to three months' actual or estimated usage charges for service to be provided. Any applicant or customer may also be required, at any time, whether before or after the commencement of service, to provide such other assurances, of or security for, the payment of the Company's charges for its services as the Company may deem necessary, including, without limitation, advance payments for service, third party guarantees of payment, pledges or other grants of security interests in the customer's assets, and similar arrangements. (Except in situations where the Company directly seeks a deposit from the customer pursuant to this paragraph, in which case the security deposit provisions of this Catalog Schedule control, when billing and

collection for Dial One/Direct Dial and Credit Card service is performed on the Company's behalf by a local exchange carrier, the security deposit requirements, and late payment provisions set forth in the local tariff or tariff equivalent of the local exchange carrier will apply to the customer's Company service, the former in lieu of the provisions contained in this Catalog Schedule. In addition, where a Local Exchange Carrier as set forth in the local tariff or tariff equivalent of the Local Exchange Carrier will apply to the customer's Company service, as represented by the purchased receivables). The Company may also establish toll usage limits for applicants for service or existing customers whose financial condition cannot be verified or is otherwise unacceptable to the Company. Any required deposit or toll usage limits may be increased or decreased by the Company as it deems appropriate in the light of changing conditions. In addition, the Company shall be entitled to require such an applicant or customer to pay all its bills within a specified period of time, and to make such payments in cash or the equivalent of cash. In the case of a cash deposit, interest at the rate paid in that locality for escrow accounts will be paid for the period during which the deposit is held by MCI. Such deposit may be refunded or credited to the customer at any time after six months of good credit upon request of the customer prior to termination of service. Upon termination of service, the deposit, with accrued interest, shall be credited to the final bill, and any credit balance shall be returned promptly to the customer.

.05 If a customer does not give the Company written notice of dispute with respect to the Company's charges within six months from the date the invoice is rendered, such invoice shall be deemed to be correct and binding upon the customer.

.06 Reserved for future use.

.07 Reserved for future use.

.08 A surcharge is imposed on all charges for outbound services originating at, or inbound service terminating at, addresses in states which levy, or assert a claim of right to levy, a gross receipts tax on the Company's operations in any such state, or a tax on interstate access charges incurred by the Company for originating access to telephone exchanges in that state. (Pending the conclusion of any challenge to a jurisdiction's right to impose a gross receipts tax, the Company may elect to impose and collect a surcharge covering such taxes, unless otherwise constrained by court order or direction, or it may elect not to impose and collect the surcharge. If it has collected a surcharge and the challenged tax is found to have been invalid and unenforceable, the Company, in its sole discretion, will either reduce service rates for a fixed period of time in the future in order to flow-through to customers an amount equivalent to the funds collected, credit or refund such amounts to affected customers (less its reasonable administrative costs), if the funds collected were retained by the Company or if they were delivered over to the taxing jurisdiction and returned to the Company, or negotiate an arrangement with the taxing jurisdiction that benefits customers in the jurisdiction in the future.) This surcharge is based on particular states' states receipts tax and other state and/or payment of interstate access charges in that state. The surcharge will be shown as a separate line item on the customer's invoice.

.09 In the event the Company incurs fees or expenses, including attorney's fees, in collecting, or attempting to collect, any charges owed the Company, the customer will be liable to the Company for the payment of all such fees and expenses reasonably incurred.

.10 If a customer whose account has been closed has a credit balance showing, the Company will transfer the credit to another account of the customer, if there is one, or will mail a check for the balance to the customer if it believes it has a valid address. If the Company is not certain it has a valid address, it will include a notice with the final invoice, which will be mailed to the customer's last known address, asking the customer to verify the address so that it can make a refund, or it will contact the customer at that address and request

verification. Such verification can be made by calling a designated telephone number or by writing to a specified address. Upon receiving verification, a check for the balance will be mailed. If the final invoice or the notification letter is returned by the post office as undeliverable, or if no response is received within thirty days of mailing, the Company will begin applying a closed account maintenance charge of $2.50 per month in the second monthly billing period following the month in which the account was closed, and will continue to apply that charge until the customer requests a refund or the balance is exhausted.

.11 Promotional and other credits offered by the Company in marketing of its services cannot be assigned, but must be used by the person to whom they were offered and who earned them in strict accordance with the terms of the offer.

.12 All charges for services are exclusive of applicable federal, state, and local taxes, and tax-related surcharges.

.13 Arbitration of disputes is pursuant to the rules and regulations described in the Company's FCC Tariff No. 1.

.14 In the event that a customer has been awarded a promotion credit for subscribing to Company service and does not use the service within 12 months following the date of the customer's service order, the Company will cancel the credit from the customer's account and collect the sum involved from the customer.

.15 From time to time, the Company will grant credits against usage or recurring monthly charges in an amount not to exceed $1,000.00 per customer or account, per monthly billing period, whenever the Company determines, in its sole discretion, that such a credit is warranted due to considerations involving the delivery of past service to the customer or account receiving the credit.

.16 No provision for payment of a sum upon termination of a service arrangement prior to the end of a committed term (whether the sum is called a termination charge, termination liability, or is otherwise designated), where termination is by the customer in the absence of a material breach by the Company of (1) its obligations under this Catalog Schedule or (2) by the Company where permitted by this Catalog Schedule, shall be construed as an alternative performance or in any other manner a grant to the customer, of permission or of a right to terminate prior to the end of the committed term. Any such early termination shall be deemed to be a material breach by the customer or its contractual obligations to the Company.

.17 In lieu of the customer receiving volume discounts on a monthly invoice, the Company may, in its sole discretion, utilize other forms of payment.

.18 In the event payment is made by check and the customer's check is not honored by the institution on which it was drawn, the Company will impose, and the customer will be required to pay, a $10.00 fee, in addition to other remedies available to the Company under this Catalog Schedule.

8. CHANGE IN SERVICE ARRANGEMENT

When a change in service arrangement involves the continued use by the customer of channels furnished by the Company, installation charges do not apply to the channels continued in use. The minimum service period for the channels continued in use is determined from the date of the initial acceptance thereof.

9. TELECOMMUNICATIONS SERVICE PRIORITY PROVISIONING RESTORATION OF SERVICE

The provisioning and restoration of service in emergencies shall be in accordance with Part 64, Subpart D, Appendix A of the Federal Communications Commission's Rules and Regulations, which specifies the priority system for such activities.

10. INSPECTION

The Company may, upon reasonable notice, make such tests and inspections as may be necessary to determine that the requirements of this Catalog Schedule are being complied with in the installation, operation or maintenance of the customer or Company equipment. The Company may interrupt the service at any time, without penalty to the Company, because of departure from any of these requirements.

11. CANCELLATION FOR CAUSE BY COMPANY

.01 The Company may discontinue the furnishing of service(s) to a customer, without incurring any liability:

.011 Immediately and without notice if the Company deems that such action is necessary to prevent or to protect against fraud or to otherwise protect its personnel, agents, facilities, or services, the Company may discontinue service pursuant to this subsection B-11.011 if:

.0111 the customer refuses to furnish information to the Company regarding the customer's creditworthiness, its past or current use of common carrier communications services or its planned use of service(s);

.0112 the customer provides false information to the Company regarding the customer's identity, address, creditworthiness, past or current use of common carrier communications services, or its planned use of Company service(s);

.0113 the customer states that it will not comply with a request of the Company for security for the payment for service(s) in accordance with Section B-7.04;

.0114 The customer has been given written notice by the Company of any past due amount, which remains unpaid in whole or in part, for any of the Company's other common carrier communications services to which the customer either subscribes or had subscribed or used; or

.0115 The customer either (1) accesses Company service by dialing 10222,or any other Company carrier identification code, or (2) having presubscribed to the Company's Dial 1 Long Distance Service, has had its account(s) cancelled and has been removed from the Company's billing system and is being billed for its subsequent use of Company service(s) or (3) indicates to the Company or its billing entity that it will not pay for Company services(s) used by it; or

.0116 A subscriber to Dial "1" who accesses the service by use of an authorization code has not used the service, with the exception of calls to Directory Assistance, for 90 days. In such case, the Company will deactivate his or her code to reduce the danger of abusive use. If he or she wishes to renew usage of the service, e.g. upon returning to a vacation home, the Company will promptly supply a new code. This provision does not apply to customers of Company Dial "1" Long

Distance Service in central offices where equal exchange access is available; or

.0117 The customer uses service to transmit a message; locate a person or otherwise give or obtain information without payment for the service; or

.0118 The customer uses, or attempts to use, service with the intent to avoid payment, either in whole or in part, other charges for the service stated in this Catalog Schedule

.01181 Using or attempting to use the service by rearranging, tampering with, or making connections to Company service not authorized by this Catalog Schedule, or

.01182 Using tricks, schemes, false or invalid numbers, false credit devices, electronic devices; or

.01183 Any other fraudulent means or devices;

.012 Immediately upon written notice to the customer of any sum thirty (30) days past due; or

.013 Immediately upon written notice to the customer, after failure of the customer to comply with a request by the Company for security for the payment of service in accordance with Section B-7.04; or

.014 Thirty (30) days after sending the customer written notice of noncompliance with any other provision of this Catalog Schedule if the noncompliance is not corrected within the thirty (30) day period.

The discontinuance of service(s) by Company pursuant to this Section does not relieve the customer of any obligation to pay the Company for charges due and owing for service(s) furnished up to the time of discontinuance.

12. TESTING AND ADJUSTING

Upon reasonable notice, the channels provided by the Company shall be made available to the Company for such tests and adjustments as may be necessary to maintain them in satisfactory condition; no interruption allowance will be granted for the time during which such tests and adjustments are made.

13. TERMINAL EQUIPMENT

.01 Terminal equipment, such as teleprinters, handsets or data sets at the premises of the customer and connecting local channels between such premises and the Company terminals, shall be furnished by and maintained at the expense of the customer, except as otherwise provided.

.02 The characteristics of equipment at either end of the channel shall be such that its connection to the channel complies with the minimum protection criteria set forth below, and does not interfere with services furnished to other customers. Additional protective equipment, where required, shall be at the customer's expense.

.03 When services using Bell voice grade facilities are terminated in customer-provided terminal equipment, channel derivation devices, or communications systems, the customer shall comply with the minimum protective criteria set forth below:

.031 When the facilities furnished under this Catalog Schedule are used in common with Bell System services, it is necessary in order to prevent excessive noise and crosstalk that the power of the signal applied to Bell lines is limited. A single valued limit for all applications cannot be specified. Therefore, the power of the signal in the band above 300 Hertz which may be applied by the customer-provided equipment at the point of termination will be specified by the Company for each application, to be consistent with the signal power allowed on the telecommunications network.

.032 To protect the telecommunications services from interference at frequencies which are about the band of service provided, the Company will specify the acceptable signal power in the following bands to be applied by the customer-provided equipment or communications system at the point of termination to insure that the input to Bell facilities does not exceed the limits indicated:

- the power in the band from 3,995 Hertz to 4,005 Hertz shall be at least 18 dB below the power of the signal as specified in Section 13.031 preceding.

- the power in the band from 4,000 Hertz to 10,000 Hertz shall not exceed 16 dB below one milliwatt.

- the power in the band from 10,000 Hertz to 25,000 Hertz shall not exceed 24 dB below one milliwatt.

- the power in the band from 25,000 Hertz to 40,000 Hertz shall not exceed 36 dB below one milliwatt.

- the power in the band above 40,000 Hertz shall not exceed 50 dB below one milliwatt.

.033 Where there is connection via customer-provided terminal equipment or communications system to a Message Telecommunications Service to prevent the interruption or disconnection of all call, or interference with network control signaling, it is necessary that the signal applied by the customer-provided equipment to the interface at no time has energy solely in the 2450 to 2750 Hertz band. If signal power is in the 2450 to 2750 Hertz band, it must not exceed the power present at the same time in the 800 to 2450 Hertz band.

.034 Where such customer-provided equipment or communications system applies signals having components in the frequency spectrum below 300 Hertz, excluding ringing signals, the currents and voltages (including all harmonics and spurious signals) at the inter-face shall not exceed the limits indicated in .0341 through .0344 following:

.0341 The maximum rms (root-mean-square) value, including dc and ac components, of the current per conductor will not exceed 0.35 ampere.

.0342 The magnitude of the peak of the conductor or ground voltage shall not exceed 70 volts.

.0343 The conductor voltage shall be such that the conductor to ground voltage limit in .0342 preceding is not exceeded. If the signal source is not grounded, the voltage limit in .0342 preceding applies to the conductor to conductor voltage.

.0344 The total weighted rms voltage within the band from 50 Hertz to 300 Hertz shall not exceed 100 volts. The total weighted rms voltage is the square root of the sum of the products times the square of the rms voltage of the individual frequency components. The weighting factors are as indicated:

for frequencies between	weighting factor
50 Hertz and 100 Hertz	$f^2/10^4$
100 Hertz and 300 Hertz	$f^{3.3}/10^{6.6}$

where f is the numerical value of the frequency, in Hertz, of the frequency component being weighted.

.04 The customer is responsible for all costs, which may include the expenses of customer personnel, electrical power, etc. at his premises in the provision of the service described herein.

14. ALLOWANCE FOR INTERRUPTIONS

Except as provided for in Sections B-6.04 in this Catalog Schedule which pertain to Directory Assistance and except as provided in Section B-14 below, the following credit allowances for interruptions of Company services will be made:

.01 For all of Company's services for which charges are specified on the basis of per minute of use, or on usage of a fraction of a minute, and in which there may be interruption of an individual call, due to a condition in Company's shared interexchange facilities or in shared access or termination facilities provided by other carriers, which can be remedied by redialing the call (Dial "1", Credit Card, Prism Plus, Payphone, and LEC Calling Card services):

.011 A credit allowance will be made for that portion of a call which is interrupted due to poor transmission (e.g. noisy circuit), one-way transmission (one party is unable to hear the other), or involuntary disconnection caused by deficiencies in MCI's service. A customer may also be granted credit for reaching a wrong number. To receive a credit, the customer must notify their Customer Service Representative and furnish information, including the called number, the service subscribed to, the difficulty experienced, and the approximate time the call was placed. Credit allowances will not be made for (1) interruptions not reported to the Company, or (2) interruptions that are due to the failure of power, equipment, systems, or services not provided by the Company. If the customer elects to use another means of communications after one of the above interruptions, or during a period when they are unable to place a call over the Company, the customer must pay the charges for the alternative service used.

.012 Where a call has been disconnected, the customer will be given a credit allowance equivalent to the charge for the initial minute of the call made to reestablish communications with the other party. Where a call has been interrupted by poor transmission or one-way transmission, the customer will be given a credit allowance up to an amount equivalent to the charge to the charge for the initial minute of the call to the wrong number if they report the situation promptly to a Customer Service Representative.

.02 Reserved for Future Use.

.03 The Company will, at customer request and expense, attempt to make arrangements for redundancy on the customer's service.

.04 As used in Section B.14 herein, the term "service" means the circuits or equipment provided by the Company, and/or a participating international carrier, or an overseas administration connecting with such international carrier.

15. INTERCONNECTION WITH OTHER CARRIERS

.01 Service furnished by the Company may be connected with services or facilities of another participating carrier. Such interconnection may be made at a Company Terminal or entrance site, at a terminal of another participating carrier, or at the premises of a customer, joint user, or authorized user. Service furnished by the Company is not part of a joint undertaking with such other carriers.

.02 Any special interface equipment or facilities necessary to achieve compatibility between the facilities of the Company and other participating carriers shall be provided at the customer's expense. Upon customer request and acting as his authorized agent, the Company will attempt to make the necessary arrangements for such interconnection.

.03 Service furnished by the Company may be connected with the facilities or services of other participating carriers under the terms and conditions of the other participating carriers' tariffs or agreements applicable to such connections.

SECTION C - SERVICE DESCRIPTIONS AND RATES

1. GENERAL DESCRIPTION OF INTERCITY TELECOMMUNICATION SERVICES

.01 Interexchange Telecommunication Services is offered to subscribers on a full-time monthly basis, or on a Metered Use Basis.

.02 All services shall remain in effect for a minimum of thirty (30) days.

.03 A customer may provide his own dedicated facilities to access the Company's terminal where such dedicated facilities are required.

.04 The Company offers its services subject to the availability of the necessary facilities and/or equipment. the Company reserves the right to refuse to provide service to or from any location where the necessary facilities and/or equipment are not available (see Section B.2).

2. RESERVED FOR FUTURE USE

3. METERED USE SERVICE "Effective March 21, 2011, for all residential customers of Metered Use Service, all Calling Card service and Toll Free / 800 service will no longer be available to new customers."

.01 General Description
Metered Use Service offers the use of intercity communications facilities shared among multiple users, and is provided on the basis of the service options detailed in this section. Depending upon the option(s) chosen the customer may select the manner in which calls are originated and terminated, may obtain one-way or two-way service, may enjoy point-to-point or multipoint service, or may originate calls in multiple cities.

Certain Metered Use Service Offerings may involve a monthly subscription fee, a recurring monthly minimum charge for interexchange facility usage, or a one time initiation of service charge. A monthly listing of each call and its duration is available as a standard feature. At additional cost, certain Metered Use Service options offer a customer the ability to: (1) identify the users and allocate the cost of his long distance facilities through the use of additional authorization codes, (2) reduce the amount of dialed digits through the use of speed numbers, and (3) receive his call records on magnetic tape.

Under each of the above service options, the individual customer's total monthly charges for use of the intercity communication facilities are based upon the total time the customer (account) utilizes such facilities. In that regard, individual intercity facilities usage charges, as well as other specific charges, discounts and/or features are applicable to each individual service option. .21 500 Personal Number Service

Effective April 28, 1999, this service will no longer be available to new subscribers. 500 Personal Number Service is an inbound voice-grade telecommunications service that permits calling from stations in diverse geographical service areas within the state of Nevada to a station at one location, or to a set of stations at more than one location based upon pre-established priorities.

For any 500 Personal Number Service call, there are two customers: the "Subscriber" (i.e., the party at whose designated location(s) the 500 Personal Number Service call terminates) and the "Calling Party" (i.e., the party who places the call). Each party is fully and equally subject to all applicable provisions in this Catalog Schedule which pertain to customers. The Calling Party has three billing options available for this service: Calling Party ANI billing, local exchange carrier calling card, and commercial credit card.

The following types of calls are not permitted using this service: collect; third party billed; and person-to-person.

All 500 Personal Number Service calls are subject to a 60-second minimum duration, with 60-second additional increments. If the computed charge for any call includes a fraction of a cent, the fraction is rounded to the nearest whole cent.

Neither the Subscriber nor the Calling Party is required to designate Company as his or her Primary Interexchange Carrier (PIC). Each 500 Personal Number Service call will include a recorded or live operator announcement to the Calling Party indicating that Company is the provider of the service.

Users of 500 Personal Number Service may have access to non-catalog enhancements (e.g., information services) provided by the Company.

.211 Basic Service Package

The Basic Service Package, which all 500 Personal Number Service Subscribers receive, includes the following:

- Friends & Family 500 Number: Each Subscriber is assigned a 500 number.

- Passcode: Each 500 Personal Number Service number is assigned a 6-digit passcode which can be used by the Subscriber to manage service features.

- Multiple Numbers: Permits Subscribers to pre-establish in priority up to three telephone numbers in the United States, Puerto Rico, the U.S. Virgin Islands, and/or international locations for the completion of calls placed by Calling Parties to the Subscriber. Numbers will successively be attempted if a busy-signal or answering machine is detected or if the call does not complete after four rings.

- Final Message: If calls are not completed at any of the three alternate numbers, the call will be sent to a Final Message. The Subscriber may choose among various options for the final message, including a closing message which informs the caller that the Subscriber is not available.

- Alternate Number: A Subscriber may temporarily override the pre-established priority sequence by designating an alternate number without having to change any of his or her Multiple Numbers. If there is no answer at the alternate number, the call will be forwarded to the Final Message. This feature can be activated and deactivated by the Subscriber.

  (Note: For the Multiple Numbers, Final Message, and Alternate Number features, calls may not be forwarded to: service numbers (e.g., numbers beginning with 500, 700, 800, or 900); 911; numbers with a 555 prefix; or pay-per-call numbers (e.g., numbers with a 976 prefix))

* Call Screening: Call Screening allows a Subscriber to screen calls by prompting the Calling Party to state his or her name, and allowing the Subscriber to accept or redirect the call. This feature can be activated and deactivated by the Subscriber.

The Subscriber will be charged $1.00 per month per 500 Personal Number Service number for the Basic Service Package. (This charge will be waived through December 31, 1995.) The Calling Party is not subject to any monthly recurring charges but will be obligated to pay usage charges associated with calls he or she places.

Activated Verizon Prepaid Phone Cards are non-refundable. Once activated, and subject to applicable terms and conditions, a Verizon Prepaid Phone Card may be used to originate direct dialed calls until the available card balance is depleted or the card expires, whichever first occurs. 5. RATE & MILEAGE TABLES

METHOD FOR CALCULATION FOR AIRLINE MILEAGE

.01 Method of Calculation
To determine the mileage between any two cities proceed as follows:

1. Obtain the "V" and "H" coordinates for each city.
2. Obtain the difference between the "V" coordinates of the two cities. Obtain the difference between the "H" coordinates. (Note: The difference is always obtained by subtracting the smaller Coordinate from the larger Coordinate.)
3. Divide each of the differences obtained in 2. by three, rounding each quotient to the nearer integer.
4. Square these two integers and add the two squares. If the sum of the squares is greater than 1777, divide the integers obtained in 3. by three, and repeat step 4. Repeat this process until the sum of the squares obtained in 4. is less than 1775.
5. The number of successive divisions by three in steps 3. and 4. determines the value of "N". Multiply the final sum of the two squares obtained in step 4. by the multiplier specified in the following table for this value of "N" preceding:

N	Multiplier	Minimum Rate Mileage
1	0.9	41
2	8.1	121
3	72.9	361
4	656.1	
5	5,904.9	1,081
6	53,144.1	3,241

6. Obtain square root of product in 5. and, with any resulting fraction, round up to next higher integer. This is the rate mileage except that when the mileage so obtained is less than the minimum rate mileage shown in 5. preceding, the minimum rate mileage

corresponding to the "N" value is applicable.

Example:

The rate mileage between Las Vegas and Reno is calculated as follows:

		V	H
(a)	Las Vegas	8665	7411
	Reno	8064	8323
(b)	difference	601	912

(c1) divide each difference by three and rounding to the nearer integer = 200 and 304

(d1) square integers and add sum of squared integers:

200 x 200 = 40,000
304 x 304 = 92,416
132,416

Sum of squared integers is greater than 1777, so divide integers in (c1) by three and repeat (a1)

(c2) divide integers in (c1) by three and rounding = 67 and 101

(d2) square integers and add sum of squared integers:

67 x 67 = 4,489
101 x 101 = 10,201
14,690

Sum of squared integers is greater than 1777, so divide integers in (c2) by three and repeat (d2)

(c3) divide integers in (c2) by three and rounding = 22 and 34

(d3) square integers and add sum of squared integers:

22 x 22 = 484
34 x 34 = 1,156
1,640

This sum of squared integers is less than 1778 and was obtained after three successive divisions by three, therefore, "N" = 3.

(e) Multiply final sum of squared integers by factor 72.9 (corresponding to "N" = 3):

1,640 x 74.9 = 119,556

(f) Square root of 119,556 = 345 and a fraction, which is rounded UP to 346 miles (fractional miles are considered full miles). The 346 miles is larger than the minimum of 121 miles applicable when "N" = 3, so the rate mileage is 346 miles.
