09. RESERVED FOR FUTURE USE

10. Effective February 1, 2009, the Company will no longer offer presubscribed long distance service to new residential and small business customers. Residential and small business customers currently subscribed to Company long distance service will no longer be able to move, add to, or change the service to which they are subscribed, except that customers may switch to a different Company service for which they are eligible if they wish, and customers of local/long distance integrated service may cancel local features on their service if they wish. All residential and small business end users will continue to be able to access the Company network and will be subject to this catalog on a non-presubscribed basis, e.g. collect calling, “dial around” services, or where their local exchange carrier installs the Company as the long distance PIC without the customer directly signing up with the Company for any calling plan.

SECTION B - RULES AND REGULATIONS

7. PAYMENT ARRANGEMENTS

.01 The customer is responsible for payment of all charges for services furnished to the customer. Charges for installation, physical or administrative changes, expedites, or for cancellation of orders are payable upon completion. If, because of any such activity a non-MCI carrier or supplier levies additional charges, these charges shall be passed on to the customer. Recurring charges are billed in advance. If a member of a Friends & Family Calling Circle discontinues his or her MCI service, only those eligible calls which were made while he or she was a Friends & Family member will receive the Friends & Family discount.

.02 Applicants or customers whose financial condition is not acceptable to MCI, or is not a matter of general knowledge, may be required at any time to make a deposit not to exceed an amount equal to three times the average bill during the preceding six-month period for services at the customer's premises, or if such information is not available, up to an amount equaling the installation charges, if applicable, and/or up to three months estimated charges for the service to be provided. In the case of a cash deposit, interest at the rate paid in that locality for escrow accounts will be paid for the period during which the deposit is held by MCI. Such deposit may be refunded or credited to the customer at any time after six months of good credit upon request of the customer prior to termination of service. Upon termination of service, the deposit, with accrued interest, shall be credited to the final bill, and any credit balance shall be returned promptly to the customer.

.03 The charges set forth in this catalog for channel terminations contemplate installations made in normal locations and under normal working conditions. Any installations to be made under either circumstances are subject to additional charges.

.04 If notice of a dispute as to charges is not received, in writing, by MCI within two years after an invoice is rendered, such invoice shall be deemed to be correct and binding upon the customer.

.05 MCI will cease billing the Special Access Surcharge upon receipt of the Exemption Certification (as defined herein). If the status of the private line facility was changed prior to receipt of the exemption certification, MCI will credit the customer's account, not to exceed three months, based on the effective date of the change specified by the customer in the letter of certification.

Upon the effective date of the Special Access Surcharge, MCI will bill such surcharges for private line facilities presently in-service. Customers who provide exemption certification within the first three months following the surcharge effective date, will be given credit for the surcharge to the surcharge effective date.

.06 The Gross Receipts Tax Surcharge 1/ set forth below is applicable to all intrastate telecommunications services provided in Pennsylvania and is established to recover Pennsylvania gross receipts taxes imposed on interexchange telecommunications carriers services. Whenever the Commonwealth charges the gross receipts tax rate, MCI will make a corresponding change in the Gross Receipts Tax Surcharge.

Surcharge Amount: 5%

This surcharge is imposed pursuant to House Bill 868 (Amending the Act of March 4, 1971 (P.L.6, No. 2).

7. PAYMENT ARRANGEMENTS (Con't)

.08 Recovery of Collection Costs

.081 Non-Residential Service: If the Company incurs any fees or expenses, including attorney's fees, in collecting, or attempting to collect, any charges owed the Company by a non-Residential Service customer, the customer will be liable to the Company for the payment of all such fees and expenses reasonably incurred.

.082 Residential Service: If the Company hires a collection agency to collect, or attempt to collect, any charges owed the Company by a Residential Service customer, the customer will be liable to the Company for an additional payment equal to 35 percent of the charges owed, where permitted by applicable law. If the Company incurs any fees or expenses, including attorneys' fees, in collecting, or attempting to collect, any charges owed the Company other than by hiring a collection agency, the customer will be liable to the Company for the payment of all such fees and expenses reasonably incurred.

.09 For residential and small business customers, a late payment charge of 1.20% may be assessed on payments not received within 30 days from the invoice date, where capabilities exist. The late payment charge will be applied to the entire unpaid balance of the customer's monthly invoice, including taxes. The late payment charge will not be applied to any disputed portion of the unpaid balance unless the dispute is resolved against the customer. The late payment charge of 1.20% is not applicable to subsequent rebilling of any amount to which a late payment charge has already been applied. Late charges are to be applied without discrimination.

7. PAYMENT ARRANGEMENTS (Con't)

.11 Instate Access Recovery Fee

Customers will be exempt from this charge during any monthly billing period when MCI spending is less than $1.00.

Monthly Charge: $0.26

SECTION B - RULES AND REGULATIONS

8. CHANGE IN SERVICE ARRANGEMENT

When a change in service arrangement involves the continued use by the customer of channels furnished by MCI, installation charges do not apply to the channels continued in use. The minimum service period for the channels continued in use is determined from the date of the initial acceptance thereof.

9. RESTORATION OF SERVICE

The use and restoration of service in emergencies shall be in accordance with Part 64, Subpart D of the Federal Communications Commission's
Rules and Regulations, which specifies the priority system for such activities.

10. INSPECTION

MCI may, upon notice, make such tests and inspections as may be necessary to determine that the requirements of this catalog are being complied with in the installation, operation or maintenance of the customer or MCI equipment. MCI may interrupt the service at any time, without penalty to MCI, because of departure from any of these requirements.

11. CANCELLATION FOR CAUSE BY MCI (See Section B,5 for Cancellation by Customer)

.01 Upon nonpayment of any sum owing to MCI, or upon a violation of any of the provisions governing the furnishing of service under this catalog, MCI may, upon written notification to the customer, without incurring any liability, immediately discontinue the furnishing of such service.

.02 Where a subscriber to Metered Use Service Option A (Execunet) has not used the service for some period of time, MCI will send a written notification urging the customer to use the service and stating that if there is no usage for an additional 30 days, the customer's service will be canceled -- unless the customer, within 30 days of the date of said written notification, calls a number designated therein and indicates a desire to continue to be carried as customer. This provision does not apply to customers who have subscribed to MCI Dial "1" Long Distance Service in central offices where equal exchange access is available.

12. TESTING AND ADJUSTMENT

Upon reasonable notice, the channels provided by MCI shall be made available to MCI for such tests and adjustments as may be necessary to maintain them in satisfactory condition; no interruption allowance will be granted for the time during which such tests and adjustments are made.

SECTION B - RULES AND REGULATIONS

13. TERMINAL EQUIPMENT

.01 Terminal equipment, such as teleprinters, handsets or data sets at the premises of the customer and connecting local channels between such premises and the MCI terminals, shall be furnished by and maintained at the expense of the customer, except as otherwise provided.

.02 The characteristics of equipment at either end of the channel shall be such that its connection to the channel complies with the minimum protection criteria set forth below, and does not interfere with services furnished to other customers. Additional protective equipment, where required, shall be at the customer's expense.

.03 When services using Bell voice grade facilities are terminated in customer-provided terminal equipment, channel derivation devices, or communications systems, the customer shall comply with the minimum protective criteria set forth below:

.031 When the facilities furnished under this catalog are used in common with Bell System services, it is necessary in order to prevent excessive noise and crosstalk that the power of the signal applied to Bell lines be limited. A single valued limit for all applications cannot be specified. Therefore, the power of the signal in the band above 300 Hertz which may be applied by the customer-provided equipment at the point of termination will be specified by MCI for each application, to be consistent with the signal power allowed on the telecommunications network.

.032 To protect the telecommunications services from interference at frequencies which are about the band of service provided, MCI will specify the acceptable signal power in the following bands to be applied by the customer-provided equipment or communications system at the point of termination to insure that the input to Bell facilities does not exceed the limits indicated:

-- the power in the band from 3,995 Hertz to 4,005 Hertz shall be at least 18 Db below the power of the signal as specified in Section 13.031 preceding.

-- the power in the band from 4,000 Hertz to 10,000 Hertz shall not exceed 16 Db below one milliwatt.

-- the power in the band from 10,000 Hertz to 25,000 Hertz shall not exceed 24 Db below one milliwatt.

-- the power in the band from 25,000 Hertz to 40,000 Hertz shall not exceed 36 Db below one milliwatt.

-- the power in the band above 40,000 Hertz shall not exceed 50 Db below one milliwatt.

.033 Where there is connection via customer-provided terminal equipment or communications system to a Message Telecommunications Service or a WATS service to prevent the interruption or disconnection of all call, or interference with network control signaling, it is necessary that the signal applied by the customer-provided equipment to the interface at no time has energy solely in the 2450 to 2750 Hertz band. If signal power is in the 2450 to 2750 Hertz band, it must not exceed the power present at the same time in the 800 to 2450 Hertz band.

13. TERMINAL EQUIPMENT

.034 Where such customer-provided equipment or communications system applies signals having components in the frequency spectrum below 300 Hertz, excluding ringing signals, the currents and voltages (including all harmonics and spurious signals) at the interface shall not exceed the limits indicated in .0341 through .0344 following:

.0341 The maximum rms (root-mean-square) value, including dc and ac components, of the current per conductor will not exceed 0.35 ampere.

.0342 The magnitude of the peak of the conductor or ground voltage shall not exceed 70 volts.

.0343 The conductor voltage shall be such that the conductor to ground voltage limit in .0342 preceding is not exceeded. If the signal source is not grounded, the voltage limit in .0342 preceding applies to the conductor to conductor voltage.

.0344 The total weighted rms voltage within the band from 50 Hertz to 300 Hertz shall not exceed 100 volts. The total weighted rms voltage is the square root of the sum of the products times the square of the rms voltage of the individual frequency components. The weighting factors are as indicated:

for frequencies between	weighting factor
50 Hertz and 100 Hertz	$f^2/10^4$
100 Hertz and 300 Hertz	$f^{3.3}f/10^{6.6}$

where f is the numerical value of the frequency, in Hertz, of the frequency component being weighted.

.04 The customer is responsible for all costs, which may include the expenses of customer personnel, electrical power, etc. at his premises in the provision of the service described herein.

14. ALLOWANCE FOR INTERRUPTIONS

.01 Credit allowance for interruptions of service which are not due to MCI testing and adjusting, negligence of the customer, or the failure of channels, equipment and/or communications systems provided by the customer, are subject to the general liability provisions set forth in Section B-4 preceding. When the service provided by MCI is interrupted for a period of two consecutive hours or more, credit is allowed for that portion of the service which is affected, in accordance with the following formula:

$$\text{Credit} = \frac{T}{24} \text{ times } C$$

"T" is outage time in hours
"C" is total daily charge for the affected facility

.02 For the purpose of determining the amount of allowance, every month is considered to have 30 days. Only those segments of service actually affected by the interruption shall be considered in determining the amount of allowance.

.03 The length of an interruption shall be measured from the time the customer notifies MCI of the interruption, or from the time a major outage is known to MCI.

.04 As used in Section B.14 herein, the term "service" means the circuits or equipment provided by MCI, and/or a participating international carrier, or an overseas administration connecting with such international carrier.

.05 MCI will, at customer request and expense, attempt to make arrangements for redundancy on the customer's service.

15. INTERCONNECTION WITH OTHER CARRIERS

.01 Service furnished by MCI may be connected with services or facilities of another participating carrier. Such interconnection may be made at an MCI Terminal or entrance site, at a terminal of another participating carrier, or at the premises of a customer, joint user, or authorized user. Service furnished by MCI is not part of a joint undertaking with such other carriers.

.02 Any special interface equipment or facilities necessary to achieve compatibility between the facilities of MCI and other participating carriers shall be provided at the customer's expense. Upon customer request and acting as his authorized agent, MCI will attempt to make the necessary arrangements for such interconnection.

.03 Service furnished by MCI may be connected with the facilities or services of other participating carriers under the terms and conditions of the other participating carriers' tariffs applicable to such connections.

15. INTERCONNECTION WITH OTHER CARRIERS (CONT.)

.04 Intercarrier connection is offered between MCI and the following carriers, in accordance with the indicated tariffs. If no tariff is referenced MCI maintains a contractual arrangement with that company.

Carrier	Tariff
American Telephone & Telegraph Co.	FCC Tariff #259, 260
American Telephone & Telegraph Co.	PUC Tariff #1, 2, 2A, 3

Certain Metered Use Service Offerings may involve a recurring monthly minimum charge for intercity facility usage or an initiation of service fee. A monthly listing of each call and its duration is available as a standard feature. At additional cost, certain Metered Use Service options offer a customer the ability to: (1) identify the users and allocate the cost of his long distance facilities through the use of additional authorization codes, (2) reduce the amount of dialed digits through the use of speed numbers, and (3) receive their call records on magnetic tape.

Under each of the above service options, the individual customer's total monthly charges for their use of the intercity communication facilities are based upon the total time the customer (account) utilizes such facilities. In that regard, individual intercity facilities usage charges, as well as other specific charges, discounts and/or features are applicable to each individual service option. When a metered use service call is established in one time-of-day rate application period and ends in another, the rate in effect in each rate application period applies to the portion of the call occurring within that rate application period. A specific description of each of the Metered Use Service options and its recurring and non-recurring charges, features, applicable discounts and service availability is contained in Sections C.3.02-C.3.121 following.

[Effective May 1, 2011, this service is no longer available to new customers.] [New cards are not available after April 17, 2012, and recharge requests on existing cards will not be processed after that date.]

MinutePass Phone Cards is a prepaid calling card service that allows consumers to use cards to originate outbound direct dial calls via MCI provided 800 numbers. MinutePass Phone Cards can be used for both interstate and intrastate (intraLATA and interLATA) calls and are classified as MinutePass Branded Phone Cards where the calling service is provided by MCI (hereinafter “MinutePass Branded Phone Cards”).

There are two methods of providing MinutePass Branded Phone Card services to consumers as follows:

- Physical format which includes a preprinted phone number and a Personal Identification Number, hereinafter referred to as a “PIN”, delivered on a plastic card typically measuring 3-1/2″ x 2-1/4”; or,

- Virtual format, which is delivered as a PIN when purchased via the World Wide Web.

Prices for MinutePass Branded Phone Cards and recharge minutes are established by MCI.

This catalog provides terms and conditions applicable to in-state calls made using MinutePass Branded Phone Cards. The terms and conditions set forth herein for such calls made with MinutePass Branded Phone Cards supplements the terms and conditions applicable to the sale and use of such cards as set forth in the Service Agreement located at http://www.minutepass.com/ServiceAgreement.asp.

1. Card Values: MinutePass Branded Phone Cards are available as Dollar based cards, and display the initial dollar value of the card and a per minute rate for interstate calls.

2. Features:

   Operator Assistance and Customer Service: Operator Assistance for call dialing is available at no charge to the consumer. Customer service is available on all cards at no charge to the consumer.

   Directory Assistance: Domestic Directory Assistance is available through the MinutePass Branded Phone Card. Directory Assistance requests will have a maximum charge of not greater than $1.50 per call. Consumers may request up to two listings per call. The Directory Assistance charge will be announced to the caller prior to connecting the call.

   Enhanced Directory Service: Golden Retriever, an Enhanced Directory Service, is available through MinutePass Branded Phone Cards and provides consumers with instant access to information including weather, reverse phone number look-up, phone number look-up and category search. Consumers may request up to three pieces of information per call to Enhanced Directory Service. Each such call is charged at a flat rate and is not subject to a per minute rate. The maximum charge for Golden Retriever is $1.50 per call.

3. Rates and Charges:
   MinutePass Branded Prepaid Phone Cards are provided in various dollar based denominations by MCI with a stated interstate per minute value not to exceed $0.35.

   For completed in-state calls using a MinutePass Branded Phone Card, the value of a MinutePass Branded Phone Card may be decremented up to 5 times the interstate minute described above. The value of each in-state minute equals 5 times the current interstate minute value as described in this service. Other charges or surcharges may apply to card use. Partial minutes used are billed as full minutes.

4. Exclusions: MinutePass Branded Phone Cards cannot be used for calls to 700-, 900-, or 976 services or for certain operator assisted, third party billed or collect calls. Any unused balance on a MinutePass Branded Phone Card cannot be transferred to or combined with one or more other MinutePass Branded Phone Cards.

5. Availability of Service: There are no time of day or day of year restrictions for use of MinutePass Branded Phone Cards.

6. Regulations: Use of MinutePass Branded Phone Cards is available by calling the MinutePass toll free number printed on the card.

   - A completed call may only be charged to a MinutePass Branded Phone Card that has a balance sufficient to cover the charges assessed for the

call. The MinutePass Branded Phone Card balance will be reduced by the appropriate minutes or dollars charged for the completed call.

- After the number of the called party is dialed, but before the call is completed, the available balance of talk time based upon the telephone number of the called party will be announced to the caller. A MinutePass Branded Phone Card call will be interrupted with an announcement when the available balance on the card drops to one minute, based on the originating/terminating phone numbers of the call. Once the balance on the card is insufficient to continue, the call will terminate.

- Credit allowances for interruptions – MinutePass Branded Phone Cards will credit one minute on a consumer's MinutePass Branded Phone Card in the event of poor call transmission or call cut off caused by MCI . To receive a credit, the consumer must promptly notify MinutePass Customer Service of the service problem by calling the Customer Service number printed on the card. Credit will not be given when interruptions are caused by the failure of systems not provided by MCI, by the failure of other MCI services connected to the MinutePass Branded Phone Card, for wrong telephone numbers or other causes outside the control of MCI.

- Activated MinutePass Branded Phone Cards are non-refundable. Once activated, and subject to applicable terms and condition, a MinutePass Branded Phone Card may be used to originate direct dialed calls until the available card balance is depleted or the card expires, whichever first occurs. Card expiration dates will be specified on the card or the card packaging.

7. Other Conditions of Service:

- The U.S. Public Payphone Surcharge applies when a MinutePass Branded Phone Card is used to place a call from a U.S. public or semi-public payphone.

6. RATE & MILEAGE TABLES

METHOD FOR CALCULATION FOR AIRLINE MILEAGE

.01 RESERVED FOR FUTURE USE

.02 Metered Use Service [For customers of Metered Use Service Option B (Credit Card) who access via an MCI-provided 800 number other than (800) 950-1022, mileage is calculated by V and H coordinates from the originating ANI to the terminating ANI, only when the originating ANI is available.]

The airline mileage between two cities can be calculated using the Vertical (V) and Horizontal (H) Coordinates as obtained by reference to AT&T's Tariff FCC No. 10 according to the following formula:

(1) Obtain the "V" and "H" coordinates of the two cities.
(2) Obtain the difference between the "V" coordinates and the "H" coordinates.
NOTE: The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.
(3) Divide each of the differences obtained in (2) by three, rounding each quotient to the nearer integer.
(4) Square these two integers and add the two squares. If the sum of the squares is greater than 1777, divide the integers obtained in (3) by three, and repeat step (4). Repeat this process until the sum of the squares obtained in (4) is less than 1778.

6. RATE & MILEAGE TABLES (Cont.)

METHOD FOR CALCULATION FOR AIRLINE MILEAGE

.02 Metered Use Services (Cont.)

(5) The number of successive divisions by three in steps (3) and (4) determines the value of "N". Multiply the final sum of the two squares obtained in step (4) by the multiplier specified in the following table for the value of "N" preceding:

N	Multiplier	Minimum Rate Mileage
1	0.9	-
2	8.1	41
3	72.9	121
4	656.1	361
5	5,904.9	1,081
6	53,144.1	3,241

(6) Obtain the square root of product in (5) and, with any resulting fraction, round up to the next higher integer. This is the rate mileage except that when the mileage so obtained is less than the minimum rate mileage shown in (5), preceding, the minimum rate mileage corresponding to the "N" value is applicable.

EXAMPLE:

The rate mileage between Philadelphia and Pittsburg is calculated as follows:

		V	H
(a)	Pittsburg	5621	2185
	Philadelphia	5251	1458
(b)	difference	370	727

(c1) divide each difference by three and rounding to nearer integer = 123 and 242

(d1) square integers and add,

123 x 123 = 15129
242 x 242 = 58564
sum of squared integers 73693

sum of squared integers is greater than 1777, so divide integers in (c1) by three and repeat (d1)

(c2) divide integers in (c1) by three and rounding = 41 and 81

(d2) square integers and add,

41 x 41 = 1681
81 x 81 = 6561
sum of squared integers 8242

sum of squared integers is greater than 1777, so divide integers in (c2) by three and repeat (d2)

(c3) divide integers in (c2) by three and rounding = 14 and 27

(d3) square integers and add,

14 x 14 = 196
27 x 27 = 729
sum of squared integers 925

This sum of squared integers is less than 1778 and was obtained after three successive divisions by three, therefore "N" = 3.

(e) Mulitply final sum or squared integers by factor 72.9 (corresponding to "N" = 3)

925
x 72.9
67432.5

(f) Square root of 67432.5 = 259.6 and a fraction, which is rounded up to 260 miles (fractional miles are considered full miles). The 260 miles is greater than the minimum of 121 miles applicable when "N" = 3, so the rate mileage is 260 miles.
