3. METERED USE SERVICE [1], (Cont'd.) (T)

.01 General Description

Metered Use Service offers the use of intrastate communications facilities shared among multiple users, and is provided on the basis of the service options listed below. Depending on the option(s) chosen the customer may select the manner in which calls are originated and terminated, may obtain one-way or two-way service, may enjoy point-to-point or multipoint service, or may originate calls in multiple cities.

Under each of the service options, the individual customer's total monthly charges for their use of the intrastate communications facilities are based upon the total time the customer (account) utilizes such facilities. In that regard, individual intrastate facilities usage charges, as well as other specific charges, discounts and/or features are applicable to each individual service option. When a metered use service call is established in one time-of-day rate application period and ends in another, the rate in effect in each rate application period applies to the portion of the call occurring within that rate application period. A specific description of each of the Metered Use Services is contained in Sections C.3.02-C.3.23 following.

[1] Effective March 1, 2011, for all residential customers of Metered Use Service, all Calling Card service and Toll Free / 800 service will no longer be available to new customers. (N) (N)

For any 500 Personal Number Service call, there are two customers: the Subscriber" (i.e., the party at whose designated location(s) the 500 Personal Number Service call terminates) and the "Calling Party" (i.e., the party who places the call). Each party is fully and equally subject to all applicable provisions in this tariff which pertains to customers. The Calling Party has three billing options available for this service: Calling Party ANI billing, local exchange carrier calling card, and commercial credit card.

The following types of calls are not permitted when using this service: collect; Original party billed; and person-to-person.

All 500 Personal Number Service calls are subject to a 60-Original minimum duration, with 60-Original additional increments. If the computed charge for any call includes a fraction of a cent, the fraction is rounded to the nearest whole cent.

Neither the Subscriber nor the Calling Party is required to designate the Company as his or her Primary Interexchange Carrier (PIC). Each 500 Personal Number Service call will include a recorded or live operator announcement to the Calling Party indicating that the Company is the provider of the service.
