.032A The Sponsor must specifically name all sub-accounts in the application for Corporate Account Service. Further, orders which involve the start or discontinuance of service will be accepted by MCI only from the Sponsor and will be subject to all regulations in this Catalog Schedule.

.033A Each sub-account will be deemed to be a customer of MCI, and will be billed separately for its MCI service and will be responsible for payments to MCI. In the event that a sub-account fails to pay MCI the Sponsor shall be liable to MCI for all charges incurred as a result of such sub-account's use of MCI's service. Prior to initiation of service under Corporate Account Service, the Sponsor must submit to MCI a letter accepting the terms and conditions set forth herein.

.031B The customer electing this option shall be designated as the Sponsor and, as such, must accept financial responsibility for all sub-accounts included under the Corporate Account Service Plus arrangement, except that the Sponsor may, by contract, shift that responsibility to another entity which has a contract with MCI under which that entity has agreed to help market MCI's services to bill and collect all charges to the Sponsor's sub-accounts. In addition, the Sponsor is responsible for paying a monthly Corporate Account Service PLUS fee of $1,500. If, in any month, the total monthly usage charges for all sub-accounts, calculated as gross usage before discounts, but not including charges for calls made to directory assistance, equals or exceeds $15,000, the $1,500 fee for that month will be waived.*

* A grace period, consisting of the first three full billing months, will be extended to all new customers. During this period, the monthly minimum usage charge will not be billed.

Prior to initiation of service under the Corporate Account Service PLUS, the Sponsor must submit to MCI a Letter of Understanding accepting the terms and conditions set forth herein.

.04 Directory Assistance is available to customers of MCI's Metered Use Service Options. A charge of $1.99 per call will apply. One request may be made on each call to Directory Assistance. The Directory Assistance charge applies to each call regardless of whether the Directory Assistance Bureau is able to furnish the requested telephone number. In addition to the Directory Assistance charge, the following surcharges will apply: surcharges associated with Option B (Credit Card) and Option G (Prism Plus) calling card calls; and the surcharges associated with operator assisted calls. The Operator Dialed Surcharge will not apply to Directory Assistance calls made using an MCI Calling Card. Directory Assistance calls will not count toward, nor be calculated as part of, the Volume Discounts offered under the Metered Use Service Options referenced above.

A credit allowance for Directory Assistance will be provided if the customer: experiences poor transmission quality; receives an incorrect telephone number; or inadvertently misdials the intended Directory Assistance Number.

Residential Directory Assistance Call Completion
The customer may request that the Directory Assistance operator complete the calls made within the state for one of the numbers
provided under Section B-6.04. The customer will be charged an additional undiscountable surcharge of $0.35 per completed call. The customer will be charged the per-minute rate for switched originating direct dial usage for the MCI service to which the customer is pre-subscribed for completed calls. Call Completion is available to Residential Customers only. Call completion is not available to callers who are not pre-subscribed to any MCI service, or for calls to toll free, 500, 700, 900 and 976 numbers.

.05 Service furnished by MCI may be arranged for use by other common carriers for the purposes of resale subject to the following:

.051 Other Common Carriers will be responsible for all interaction and interface with their own subscribers or customers.

.06 Service furnished by MCI shall not be used:

.061 For any unlawful purpose.

.062 For any purpose for which any payment or other compensation is received by the customer, except when the customer is an entity which holds itself out as being a communications common carrier. This provision does not prohibit an agreement between the customer, authorized user or joint user to share the cost of the service as long as this arrangement generates no profit for anyone participating in a joint use or authorized use arrangement.

.07 PIC Change Reimbursement

.071 (Reserved for future use)

.072 Small Business PIC Charge Reimbursement: From time to time, MCI will offer as an inducement to new and/or existing residential customers who subscribe and use new or additional MCI service in response to media advertising, direct mail materials, telemarketing promotions and/or personal sales presentations, which offer such an inducement, one of the following: A) reimbursement of the amount charged by the Local Exchange Carrier (LEC) to switch the new customer from his or her previous IntraLATA Interexchange Carrier (IXC) to MCI; B) up to $6.50 reimbursement of the amount charged by the LEC to switch the new customer from his or her previous IntraLATA IXC to MCI; C) $5.00 per line, up to five lines, reimbursement of the amount charged by the lEC to switch the new customer from his or her previous IntraLATA IXC to MCI. This reimbursement will be in the form of an invoice credit. In addition, if a LEC assesses such a charge directly to MCI on behalf of a LEC customer who requests to have his or her IXC switched to MCI, then MCI will pay the amount charged directly to the LEC on the customer's behalf.

.08 Payphone Use Charge

An undiscountable per call charge, as authorized by F.C.C. Docket No. 96-128, is applicable to calls that originate from any payphone within the state used to access MCI services as follows. This charge, which is in addition to standard tariffed usage charges and any applicable surcharges associated with MCI service, is applicable to toll free access (i.e., 800, 888, and 950) and dial around (i.e., 10-10-XXX) telephone calls from payphones, and applies for the use of the instrument used to access MCI service and is unrelated to the MCI service access from the payphone. Customers will be charged the Payphone Use Charge for each call placed from a payphone within the state using the products listed below.

The Payphone Use Charge does not apply to: calls using Telecommunications Relay Service; calls originated by customers with qualified hearing or speech impairment who are certified as described in Section C-2.02115; and calls placed from payphones at which the customer pays for service by inserting coins during the progress of the call.

A rate of $0.50 per call Payphone Use Charge will be applied to payphone calls made by customers of service under this Catalog Schedule.

A charge of two units per call Payphone Use Charge will be applied to payphone calls made by customers of Option P (MCI PrePaid) (This charge will apply for each completed call made from a domestic payphone and will not apply to calls placed to MCI PrePaid Customer Service. This charge will be levied as billing becomes available).

7. PAYMENT ARRANGEMENTS

.01 The customer is responsible for payment of all charges for services furnished to the customer. Charges for installation, physical or administrative changes, expedites, or for cancellation of orders are payable upon completion. If, because of any such activity a non-MCI carrier or supplier levies additional charges, these charges shall be passed on to the customer. Recurring charges are billed in advance.

.02 For residential service customers, a late payment charge of a maximum of 1.5% (excluding 900 type charges or non-regulated items) may be assessed on payments not received within 30 days from the invoice date, where capabilities exist. The late payment charge will be applied to the entire unpaid balance of the customer's monthly including taxes". The late payment charge will not be applied to any disputed portion of the unpaid balance unless the dispute is resolved against the customer. The late payment charge of a maximum of 1.5% (excluding 900 type charges or non-regulated items) is not applicable to subsequent rebilling of any amount to which a late payment charge has already been applied. Late charges are to be applied without discrimination.

.

.03 Applicants or customers whose financial condition is not acceptable to MCI, or is not a matter of general knowledge, may be required at any time to make a deposit not to exceed an amount equal to three times the average bill during the preceding six-month period for services at the customer's premises, or if such information is not available, up to an amount equalling the installation charges, if applicable, and/or up to two months' estimated charges for the service to be provided. In the case of a cash deposit, interest at the rate paid in that locality for escrow accounts will be paid for the period during which the deposit is held by MCI. Such deposit may be refunded or credited to the customer at any time after six months of good credit upon request of the customer prior to termination of service. Upon termination of service, the deposit, with accrued interest, shall be credited to the final bill, and any credit balance shall be returned promptly to the customer.

.04 The charges set forth in this Catalog Schedule for channel terminations contemplate installations made in normal locations and under normal working conditions. Any installations to be made under other circumstances are subject to additional charges.

.05 If notice of a dispute as to charges is not received, in writing, by MCI within two years after an invoice is rendered, such invoice shall be deemed to be correct and binding upon the customer.

.06 A surcharge may be imposed on all charges for outbound service originating at, or inbound service terminating at, addresses in the state or any jurisdiction within the state that levies or asserts a claim of right to levy:

(1) a gross receipts tax, a license tax, or other tax-like charge on MCI's operations in any such jurisdiction; or,

(2) a tax on access charges incurred by MCI for access to telephone exchanges in that jurisdiction; or,

(3) an ad valorem tax on MCI's property located in that jurisdiction.

This surcharge is based, respectively, on MCI's:
(1) gross receipts, revenues or operations in that jurisdiction; and/or,
(2) payment of access charges in that jurisdiction; and/or,
(3) property located in that jurisdiction and used by MCI to provide telephone service. 1/
The surcharge is derived by using a ratio of the revenue in that jurisdiction to total revenue, multiplied by total ad valorem taxes imposed in that jurisdiction during the current calendar year.

1/ Pending the conclusion of any challenge to a non-federal jurisdiction's right to impose a gross receipts tax, a license tax, a tax-like charge, a tax on interstate access service, or an ad valorem tax, MCI may elect to impose and collect a surcharge covering such taxes, unless otherwise constrained by court order or direction, or it may elect not to impose and collect the surcharge. If it has collected a surcharge and the challenged tax is found to have been invalid and unenforceable, MCI, in its sole discretion, will either reduce service rates for a fixed period of time in the future in order to flow-through to customers an amount equivalent to the funds collected or it will credit or refund such amounts to affected customers (less its reasonable administrative costs), if the funds collected were retained by MCI or if they were delivered over to the taxing non-federal jurisdiction and returned to MCI, or negotiate an arrangement with the taxing non-federal jurisdiction that benefits customers in the non-federal jurisdiction in the future.

8. CHANGE IN SERVICE ARRANGEMENT

When a change in service arrangement involves the continued use by the customer of channels furnished by MCI, installation charges do not apply to the channels continued in use. The minimum service period for the channels continued in use is determined from the date of the initial acceptance thereof.

9. RESTORATION OF SERVICE

The use and restoration of service in emergencies shall be in accordance with Part 64, Subpart D of the Federal Communications Commission's Rules and Regulations, which specifies the priority system for such activities.

10. INSPECTION

MCI may, upon reasonable notice, make such tests and inspections as may be necessary to determine that the requirements of this Catalog Schedule are being complied with in the installation, operation or maintenance of the customer or MCI equipment. MCI may interrupt the service at any time, without penalty to MCI, because of departure from any of these requirements.

11. CANCELLATION FOR CAUSE BY MCI (See Section B,5 for Cancellation by Customer)

.01 Upon nonpayment of any sum owing to MCI, or upon a violation of any of the provisions governing the furnishing of service under this Catalog Schedule, MCI may, upon written notification to the customer, without incurring any liability, immediately discontinue the furnishing of such service.

.02 Upon 14 days written notification, MCI will discontinue furnishing service to a subscriber to Option A (Execunet) of Metered Use Service who has not used the service for a period of 90 days and who appears, after investigation to have left the community or who advises MCI that he or she does not desire to continue to be carried as a customer.

12. TESTING AND ADJUSTING

Upon reasonable notice, the channels provided by MCI shall be made available to MCI for such tests and adjustments as may be necessary to maintain them in satisfactory condition; no interruption allowance will be granted for the time during which such tests and adjustments are made.

13. TERMINAL EQUIPMENT

.01 Terminal equipment, such as teleprinters, handsets or data sets at the premises of the customer and connecting local channels between such premises and the MCI terminals, shall be furnished by and maintained at the expense of the customer, except as otherwise provided.

.02 The characteristics of equipment at either end of the channel shall be such that its connection to the channel complies with the minimum protection criteria set forth below, and does not interfere with services furnished to other customers. Additional protective equipment, where required, shall be at the customer's expense.

.03 When services using Bell voice grade facilities are terminated in customer-provided terminal equipment, channel derivation devices, or communications systems, the customer shall comply with the minimum protective criteria set forth below:

.031 When the facilities furnished under this Catalog Schedule are used in common with Bell System services, it is necessary in order to prevent excessive noise and crosstalk that the power of the signal applied to Bell lines be limited. A single valued limit for all applications cannot be specified. Therefore, the power of the signal in the band above 300 Hertz which may be applied by the customer-provided equipment at the point of termination will be specified by MCI for each application, to be consistent with the signal power allowed on the telecommunications network.

.032 To protect the telecommunications services from interference at frequencies which are about the band of service provided, MCI will specify the acceptable signal power in the following bands to be applied by the customer-provided equipment or communications system at the point of termination to insure that the input to Bell facilities does not exceed the limits indicated:

- the power in the band from 3,995 Hertz to 4,005 Hertz shall be at least 18 dB below the power of the signal as specified in Section 13.031 preceding.

- the power in the band from 4,000 Hertz to 10,000 Hertz shall not exceed 16 dB below one milliwatt.

- the power in the band from 10,000 Hertz to 25,000 Hertz shall not exceed 24 dB below one milliwatt.

- the power in the band from 25,000 Hertz to 40,000 Hertz shall not exceed 36 dB below one milliwatt.

- the power in the band above 40,000 Hertz shall not exceed 50 dB below one milliwatt.

.033 Where there is connection via customer-provided terminal equipment or communications system to a Message Telecommunications Service or a WATS service to prevent the interruption or disconnection of all call, or interference with network control signaling, it is necessary that the signal applied by the customer-provided equipment to the interface at no time has engergy solely in the 2450 to 2750 Hertz band. If signal power is in the 2450 to 2750 Hertz band, it must not exceed the power present at the same time in the 800 to 2450 Hertz band.

.034 Where such customer-provided equipment or communications system applies signals having components in the frequency spectrum below 300 Hertz, excluding ringing signals, the currents and voltages (including all harmonics and spurious signals) at the inter-face shall not exceed the limits indicated in .0341 through .0344 following:

.0341 The maximum rms (root-mean-square) value, including dc and ac components, of the current per conductor will not exceed 0.35 ampere.

.0342 The magnitude of the peak of the conductor or ground voltage shall not exceed 70 volts.

.0343 The conductor voltage shall be such that the conductor to ground voltage limit in .0342 preceding is not exceeded. If the signal source is not grounded, the voltage limit in .0342 preceding applies to the conductor to conductor voltage.

.0344 The total weighted rms voltage within the band from 50 Hertz to 300 Hertz shall not exceed 100 volts. The total weighted rms voltage is the square root of the sum of the products times the square of the rms voltage of the individual frequency components. The weighting factors are as indicated:

for frequencies between	weighting factor
50 Hertz and 100 Hertz	$f^2/10^4$
100 Hertz and 300 Hertz	$f^{3.3}/10^{6.6}$

where f is the numerical value of the frequency, in Hertz, of the frequency component being weighted.

.04 The customer is responsible for all costs, which may include the expenses of customer personnel, electrical power, etc. at his premises in the provision of the service described herein.

14. ALLOWANCE FOR INTERRUPTIONS

.01 Credit allowance for interruptions of service which are not due to MCI testing and adjusting, negligence of the customer, or the failure of channels, equipment and/or communications systems provided by the customer, are subject to the general liability provisions set forth in Section B-4 preceding. When the service provided by MCI is interrupted for a period of two consecutive hours or more, credit is allowed for that portion of the service which is affected, in accordance with the following formula:

$$\text{Credit} = \frac{T}{24} \text{ times } C$$

"T" is outage time in hours
"C" is total daily charge for the affected facility

.02 For the purpose of determining the amount of allowance, every month is considered to have 30 days. Only those segments of service actually affected by the interruption shall be considered in determining the amount of allowance.

.03 The length of an interruption shall be measured from the time the customer notifies MCI of the interruption, or from the time a major outage is known to MCI.

.04 As used in Section B.14 herein, the term "service" means the circuits or equipment provided by MCI, and/or a participating international carrier, or an overseas administration connecting with such international carrier.

.05 MCI will, at customer request and expense, attempt to make arrangements for redundancy on the customer's service.

15. INTERCONNECTION WITH OTHER CARRIERS

.01 Service furnished by MCI may be connected with services or facilities of another participating carrier. Such interconnection may be made at an MCI Terminal or entrance site, at a terminal of another participating carrier, or at the premises of a customer, joint user, or authorized user. Service furnished by MCI is not part of a joint undertaking with such other carriers.

.02 Any special interface equipment or facilities necessary to achieve compatability between the facilities of MCI and other participating carriers shall be provided at the customer's expense. Upon customer request and acting as his authorized agent, MCI will attempt to make the necessary arrangements for such interconnection.

.03 Service furnished by MCI may be connected with the facilities or services of other participating carriers under the terms and conditions of the other participating carriers' tariffs applicable to such connections.

.04 Intercarrier connection is offered between MCI and the following carriers, in accordance with the indicated tariffs. If no tariff is referenced MCI maintains a contractual arrangement with that company.

Carrier	Tariff
American Telephone & Telegraph Co.	FCC Tariff #259, 260
Southern Bell Telephone Co.	FCC Tariff #55

The Company may refuse to accept calling or credit card, collect calling and/or third number calls which it determines are or may be fraudulent, or it may limit the use of these billing options to or from certain countries or areas, including all or part of the United States, Puerto Rico, and the U.S. Virgin Islands.

500 Personal Number Service is an inbound voice-grade telecommunications service that permits calling from stations in diverse geographical service areas within the state of South Carolina to a station at one location, or to a set of stations at more than one location based upon pre-established priorities.

For any 500 Personal Number Service call, there are two customers: the "Subscriber" (i.e., the party at whose designated location(s) the 500 Personal Number Service call terminates) and the "Calling Party" (i.e., the party who places the call). Each party is fully and equally subject to all applicable provisions in this Catalog Schedule which pertain to customers. The Calling Party has three billing options available for this service: Calling Party ANI billing, local exchange carrier calling card, and commercial credit card.

The following types of calls are not permitted using this service: collect; third party billed; and person-to-person.

All 500 Personal Number Service calls are subject to a 60-second minimum duration, with 60-second additional increments. If the computed charge for any call includes a fraction of a cent, the fraction is rounded to the nearest whole cent.

Neither the Subscriber nor the Calling Party is required to designate MCI as his or her Primary Interexchange Carrier (PIC). Each 500 Personal Number Service call will include a recorded or live operator announcement to the Calling Party indicating that MCI is the provider of the service.

Users of 500 Personal Number Service may have access to non-tariffed enhancements (e.g., information services) provided by MCI. Terms and conditions will be applied in accordance with the last filed version of the CompanyI's F.C.C. Tariff No. 1.

- Multiple Numbers[1]: Permits Subscribers to pre-establish in priority up to three telephone numbers in the state of South Carolina for the completion of calls placed by Calling Parties to the Subscriber. Numbers will successively be attempted if a busy-signal or answering machine is detected or if the call does not complete after four rings.

- Final Message[1]: If calls are not completed at any of the three alternate numbers, the call will be sent to a Final Message. The Subscriber may choose among various options for the final message, including a closing message which informs the caller that the Subscriber is not available.

- Alternate Number[1]: A Subscriber may temporarily override the pre-established priority sequence by designating an alternate number without having to change any of his or her Multiple Numbers. If there is no answer at the alternate number, the call will be forwarded to the Final Message. This feature can be activated and deactivated by the Subscriber.

[1] For these features, calls may not be forwarded to: service numbers (e.g., numbers beginning with 500, 700, or 800); 911; numbers with a 555 prefix; or pay-per-call numbers (e.g., numbers with a 976 prefix).

- Call Screening: Call Screening allows a Subscriber to screen calls by prompting the Calling Party to state his or her name, and allowing the Subscriber to accept or redirect the call. This feature can be activated and deactivated by the Subscriber.

  The Subscriber will be charged $1.00 per month per 500 Personal Number Service number for the Basic Service Package. (This charge will be waived through December 31, 1995.) Consumers can purchase Verizon Prepaid Phone Cards as follows:

- Verizon Branded Phone Cards directly from distributors.
- Verizon Branded Phone Cards via the World Wide Web or via a toll-free telephone number.

When sold through a distributor, prices for Verizon Branded Phone Cards and recharge minutes are established by the distributor. When sold by the Company, prices for Verizon Branded Phone Cards recharge minutes are established by the Company.

1. Card Values: Verizon Prepaid Phone Cards are available under two options, the Minute/Unit based cards and the Dollar based cards, as follows:

   - Minute/Unit based cards display the initial number of minutes/units available for interstate calls to the card user at the time of card purchase. Minute/Unit based cards deduct the applicable charge for a call or other service in minutes/units.

   - Dollar based cards display the initial dollar value of the card and a per minute rate for interstate calls, or the initial number of minutes available for interstate calls at the time of purchase. Dollar based cards deduct the applicable charge for a call or other service in dollars and cents.

2. Features

The maximum charge for Golden Retriever is $1.50 per call on dollar based cards and 30 interstate minutes/units on Minute/Unit based cards.

3. Rates and Charges:

The value of each in-state minute/unit equals 1 times the current interstate minute/unit value as described in this service. Other charges or surcharges may apply to card use. Partial minutes used are billed as full minutes.

Such additional minutes/units will be charged at the prevailing per minute/unit rate as of the date of recharging. A minimum of ten dollars ($10.00) and up to a specified maximum amount may be added to the card per each recharge.

In addition to the foregoing, rechargeable cards are also subject to the following terms and conditions:

- Upon recharge, a recharge fee of up to a maximum of fifteen percent (15%) of the recharge value may be assessed.

- Recharge may be accomplished in any of the following manners:

  i. By direct payment at selected distributors' locations.

  ii. By credit or debit card using the toll free access number printed on the card and following the audio prompts.

  iii. By registering the card for "auto-recharge," an expedited recharge process that alerts the consumer when their calling card balance falls below a certain level and offers the option of an automatic recharge in the same dollar amount of the customer's previous recharge.

Recharge methods and availability may be based on distributor's preference. Recharge minutes/units or dollars of service purchased via the toll free access number or through auto-recharge must be paid for with a verified valid credit or debit card.

5. Exclusions: Verizon Prepaid Phone Cards cannot be used for calls to 700-, 900-, or 976 services or for certain operator assisted, third party billed or collect calls. Any unused balance on a Verizon Prepaid Phone Card cannot be transferred to or combined with one or more other Verizon Prepaid Phone Cards.

6. Availability of Service: There are no times of day or day of year restrictions for use of Verizon Prepaid Phone Cards.

7. Regulations: Use of Verizon Prepaid Phone Cards is available by calling the Company toll free number printed on the card.

- A completed call may only be charged to a Verizon Prepaid Phone Card that has a balance sufficient to cover the charges assessed for the call. The Verizon Prepaid Phone Card balance will be reduced by the appropriate minutes/units or dollars charged for the completed call.

- After the number of the called party is dialed, but before the call is completed, the available balance of talk time based upon the telephone number of the called party will be announced to the caller. A Verizon Prepaid Phone Card call will be interrupted with an announcement when the available balance on the card drops to one minute/unit, based on the originating/terminating phone numbers of the call. Once the balance on the card is insufficient to continue, the call will terminate.

- Credit allowances for interruptions – MCI will credit one minute/unit on a consumer's Verizon Prepaid Phone Card in the event of poor call transmission or call cut off caused by MCI. To receive a credit, the consumer must promptly notify MCI Customer Service of the service problem by calling the Customer Service number printed on the card. Credit will not be given when interruptions are caused by the failure of systems not provided by MCI, by the failure of other MCI services connected to the Verizon Prepaid Phone Card, for wrong telephone numbers or other causes outside the control of MCI.

- Activated Verizon Prepaid Phone Cards are non-refundable. Once activated, and subject to applicable terms and condition, a Verizon Prepaid Phone Card may be used to originate direct dialed calls until the available card balance is depleted or the card expires, whichever first occurs. Card expiration dates will be specified on the card or the card packaging.

- After the number of the called party is dialed, but before the call is completed, the available balance of talk time based upon the telephone number of the called party will be announced to the caller. A MinutePass Branded Phone Card call will be interrupted with an announcement when the available balance on the card drops to one minute, based on the originating/terminating phone numbers of the call. Once the balance on the card is insufficient to continue, the call will terminate.

- Credit allowances for interruptions – MinutePass Branded Phone Cards will credit one minute on a consumer's MinutePass Branded Phone Card in the event of poor call transmission or call cut off caused by MCI . To receive a credit, the consumer must promptly notify MinutePass Customer Service of the service problem by calling the Customer Service number printed on the card. Credit will not be given when interruptions are caused by the failure of systems not provided by MCI, by the failure of other MCI services connected to the MinutePass Branded Phone Card, for wrong telephone numbers or other causes outside the control of MCI.

- Activated MinutePass Branded Phone Cards are non-refundable. Once activated, and subject to applicable terms and condition, a MinutePass Branded Phone Card may be used to originate direct dialed calls until the available card balance is depleted or the card expires, whichever first occurs. SECTION D: METHOD FOR CALCULATION FOR AIRLINE MILEAGE

.01 Method of Calculation

The airline mileage between two cities can be calculated using the Vertical (V) and Horizontal (H) Coordinates as obtained by reference to AT&T's Tariff F.C.C. No. 274 according to the following formula:

02. METERED USE SERVICE

To determine the mileage between any two cities proceed as follows:

1. Obtain the "V" and "H" coordinates for each city.
2. Obtain the difference between the "V" coordinates of the two cities. Obtain the difference between the "H" coordinates.

Note: The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.

3. Divide each of the differences obtained in 2 by three, rounding each quotient to the nearer integer.
4. Square these two integers and add the two squares. If the sum of the squares is greater than 1,777, divide the integers obtained in 3 by three, and repeat step 4. Repeat this process until the sum of the squares obtained in 4 is less than 1778.
5. The number of successive divisions by three in steps 3 and 4 determines the value of "N". Multiply the final sum of the two squares obtained in step 4 by the multiplier specified in the following table for this value of "N" proceding:

N	MULTIPLIER	MINIMUM RATE MILEAGE
1	0.9	-
2	8.1	41
3	72.9	121
4	656.1	361
5	5,904.9	1,081
6	53,144.1	3,241

6. Obtain square root of product in 5 and with any resulting fraction, round up to next higher integer. This is the rate mileage except that when the mileage so obtained is less than the minimum rate mileage shown in 3. proceding, the minimum rate mileage corresponding to the "N" value is applicable.

Example:

The rate mileage between Charleston and Columbia is calculated as follows:

		V		H	
(a)	CHARLESTON	7021		1281	
	COLUMBIA	6901		1589	
(b)	difference		120		308

(c1) divide each difference by three and rounding to nearer integer = 40 and 103

(d1) square integer and add, 40 x 40 = 1600
103 x 103 = 10609
sum of squared integers 12209

sum of squared integers is greater than 1,777, so divide integers in (c1) by three and repeat (d1)

(c2) divide integers in (c1) by three and rounding = 13 and 34

(d2) square integer and add, 13 x 13 = 169
34 x 34 = 1156
sum of squared integers 1325

This sum of squared integers is less than 1778 and was obtained after four successive divisions by three, therefore, "N" = 2

(e) Multiply final sum of squared integers factor 8.1 (corresponding to "N" = 2)
1325
x 8.1
10732.5

(f) Square root of 10732.5 = 103 and a fraction, which is rounded up to 104 miles (fractional miles are considered full miles). The 104 miles is larger than the minimum of 41 miles applicable when "N" = 2 so the rate mileage is 104 miles.
