11. Collocation at Remote Terminal Equipment Enclosures (CRTEE)

11.1 General

Unless otherwise specified herein, general regulations contained in Part A, Sections 1 through 4 and Part E, Sections 1 through 3 and 9 apply in addition to the regulations contained in this Section. Rates and charges for service explained herein are contained in Part M, Section 5.11.

11.1.1	Description
A.	CRTEE provides an arrangement in which CLEC equipment can be placed in Telephone Company remote terminal equipment enclosures (RTEEs).
1.	CRTEE is available with physical and virtual collocation.
2.	RTEEs include controlled environment vaults, huts, cabinets and remote terminals in buildings not owned by the Telephone Company.
3.	CRTEE is provided on a first-come, first-served basis subject to availability of space and right of way and building owner approval, as applicable.
B.	The Telephone Company will not renegotiate leases or easements or create new RTEE space in order to meet CLEC demand for CRTEE.
C.	Subject to the availability of space and conduit, the CLEC will arrange for the Telephone Company to perform all work activities inside the RTEE except as described in 11.1.4D.
D.	**Demarcation Point—** The following demarcation points apply to CRTEE arrangements.
1.	**DS1, DS3 and Optical Services—** For a physical CRTEE arrangement, the demarcation point will be at a cross connect panel mounted in the CLEC's equipment bay or relay rack.
2.	**Twisted Pair Connections—** When a cross connect field is not located in the RTEE, the demarcation point will be at a cross connect panel mounted in the CLEC's equipment bay or relay rack located in the RTEE. Where the CLEC elects to collocate equipment in the RTEE but installs its cross connect panel external to the RTEE, the demarcation point will be at the CLEC's cross connect panel external to the RTEE. (C) (C)

11. Collocation at Remote Terminal Equipment Enclosures (CRTEE)
11.1 General

11.1.2	Ordering Service	
A.	**Remote Terminal Serving Address Inquiry—** Upon request of the CLEC, the Telephone Company will make available to the CLEC the identify of the FDIs that subtend the RTEE and a range of customer addresses served by those FDIs.	
B.	**Preliminary Engineering Records Review—** Upon request of the CLEC, the Telephone Company will conduct a search of its records and identify the following information about a RTEE location.	
1.	Type of enclosure	
2.	Whether site is on private or public property	
a.	If the site is on private property, the Telephone Company will inform the CLEC whether the Telephone Company's rights under its easement for that location can be assigned to the CLEC for the purposes of the application request.	
C.	**Site Survey for Space Availability Inquiry—** Upon request of the CLEC, the Telephone Company will conduct a survey of the remote terminal to determine if there is adequate space to accommodate the collocation application.	
D.	The CLEC must request CRTEE through its Telephone Company point of contact. Completed applications for CRTEE arrangements must be sent directly to the Telephone Company at the following address.	
1.	Collocation Applications Manager-Verizon, 50 Post Office Square, Suite 301, Boston, MA 02110 or Email to Collocation.applications@verizon.com.	(T)
E.	Where the Remote Terminal Serving Address Inquiry, Preliminary Engineering Records Review or Site Survey for Space Availability Inquiry has been specified on the application, the CLEC will be notified of the results of these inquiries before the Telephone Company processes the rest of the application. The CLEC will be given the option of canceling the application based on the results of these inquiries.	

11.1.3	Responsibility of the Telephone Company
A.	The Telephone Company will furnish and place any cabling between the CLEC-provided demarcation point and any Telephone Company-owned cross-connect points except where the CLEC installs its cross connect panel in a RTEE and the Telephone Company's cross connect field is external to the RTEE.
B.	The Telephone Company will place the CLEC-provided interconnect cable between the CLEC's cross connect panel located in the RTEE and the Telephone Company's cross connect field located external to the RTEE.

11. Collocation at Remote Terminal Equipment Enclosures (CRTEE)
11.1 General

11.1.4	Responsibility of the CLEC	
A.	The CLEC is responsible for obtaining any rights of way necessary to implement the provisions of this tariff.	
B.	The CLEC is responsible for the cost of any conditioning of the RTEE such as building new conduit, additional power and HVAC. The conditioning must be allowed under an existing easement or right of way. The cost of such conditioning will be recovered in the Site Preparation Fee.	(X)
C.	CLEC-provided equipment must conform with the Telephone Company's technical engineering specifications and NEBS requirements.	
D.	The CLEC is responsible for maintenance of its physically collocated equipment installed within the RTEE.	(C)
E.	The CLEC shall furnish the interconnect cable when it locates its cross connect panel in the RTEE but the Telephone Company's cross connect field is located external to the RTEE.	(N) (N)
F.	The CLEC shall furnish and install all cables between its collocated equipment and its cross connect panel outside the RTEE.	(C) (X) (C) (X)

11.1.5	Security	
A.	Safety and security measures described in Part E, Sections 2 , 3 and 9 shall apply to remote terminal collocation.	(C) (C)
B.	All costs associated with installing, operating, and maintaining such reasonable security measures shall be borne by the CLEC.	(N) (N)

11. Collocation at Remote Terminal Equipment Enclosures (CRTEE)
11.2 Application of Rates and Charges

11.2.1	Nonrecurring Charges	
A.	The following NRCs will apply.	
1.	**Remote Terminal Serving Address Inquiry—** Applies per request.	
2.	**Preliminary Engineering Records Review—** Applies per request.	
3.	**Site Survey for Space Availability Inquiry—** Applies per request.	
4.	**Application Fee—** Applies per CRTEE arrangement request.	
5.	**Engineering and Implementation Fee—** Applies per CRTEE arrangement request.	
6.	**Site Preparation Fee—** Applies per CRTEE arrangement request, as required. Where appropriate, a TC will be charged only its pro rata share of site preparation costs to the extent space at an RTEE is prepared for more than one collocator.	(C) | (C)

11.2.2	Monthly Rates
A.	**Equipment Support—** Geographically deaveraged rate applies per half rack or portion thereof (associated with the footprint of the equipment bay). Refer to Part M, Section 5.3.9.
B.	**DC Power—** Geographically deaveraged rate applies, per load amp based on the total number of load amps ordered on each feed, when CLEC equipment is located within the RTEE (less than or equal to 60 amps). Refer to Part M, Section 5.3.8.
C.	**Conduit and Space—** Applies per foot, per cable, for cabling and cable support between the demarcation point and any Telephone Company-owned cross-connect points. Refer to Part M, Section 5.2.7.

11.2.3	Other	
A.	For physical CRTEE arrangements, the SAC Cable and Frame Termination will apply (refer to Part E, Section 2.6.4).	
B.	For virtual CRTEE arrangements, the IAC rates and charges will apply (refer to Part E, Section 3.5.5).	
C.	**Escorting—** Refer to Part E, Section 2.6.6 and Section 3.5.14.	
D.	**Security—** ICB charges shall apply as appropriate. Where appropriate, a TC will be charged only its pro rata share of security costs based on its share of the total assignable collocation space available.	(C) | (C)
E.	**Miscellaneous Collocation Power Service Charge—** The miscellaneous collocation power service charge (NRC) specified for physical collocation applies.
