2. Unbundled IOF Transport
2.1 Description

2.1.1	General	
A.	Unbundled dedicated IOF transport, which is offered subject to availability, provides a two point transmission path on a directly connected basis. Unbundled dedicated IOF transport is offered as an individual network element separate from bridging, multiplexing, testing or customer reconfiguration capabilities and functions.	
1.	For purposes of this Part B, Section 2, the terms "dedicated transport" and "dedicated IOF transport" are synonymous and are as defined in 47 C.F.R. § 51.319(e)(1) and the term "route" is as defined in 47 C.F.R. § 51.319(e) (introductory paragraph).	(N)
2.	For purposes of this Part B, Section 2, the terms "business line," "fiber-based collocator," and "wire center" shall have the meanings set forth in 47 C.F.R. § 51.5, as in effect on and after March 11, 2005.	(N)
3.	The Telephone Company does not offer unbundled SONET rings.	(T)
4.	Unbundled dedicated IOF transport is not provided with mid span meets.	(T)
5.	Unbundled common (shared) IOF transport is provided in conjunction with unbundled switching identified in this tariff under Part B, Section 6, but only to the extent unbundled local switching is required to be provided as an unbundled network element pursuant to 47 U.S.C. § 251(c)(3) and 47 C.F.R. Part 51.	(T) (N) (N)
6.	A CLEC's collocation arrangement must be equipped to handle the level of dedicated IOF transport being requested. If the collocation site is not so equipped, the CLEC must augment such arrangement with the proper cross connects before the CLEC submits its request for unbundled dedicated IOF transport.	(T)
7.	The Telephone Company is not required to construct new IOF transport facilities to meet specific CLEC point-to-point demand for facilities that the Telephone Company has not deployed for its own use.	(T)
B.	**DS1 Dedicated Transport** - This Part B, Section 2.1.1.B implements certain provisions of the *Order on Remand* issued by the Federal Communications Commission on February 4, 2005, in WC Docket No. 04-313 and CC Docket No. 01-338 (the "*Triennial Review Remand Order*"), and of the regulations promulgated by the FCC pursuant to that order.	(N)
1.	**Limitations on Unbundling Obligation -** Notwithstanding any other provision of this tariff, and subject to the transition plan set forth in Part B, Section 2.1.1.B.2 below, the Telephone Company will not provide unbundled access to DS1 dedicated transport, as defined in the introductory paragraph of 47 C.F.R. § 51.319(e)(2)(ii), to an extent beyond that required by 47 C.F.R. § 51.319(e)(2)(ii)(A), as in effect on and after March 11, 2005. Moreover, pursuant to 47 C.F.R. § 51.319(e)(2)(ii)(B) as in effect on an after such date, a requesting CLEC may not obtain more than 10 unbundled DS1 dedicated transport circuits on each route where DS1 dedicated transport is available on an unbundled basis.	(N)

2. Unbundled IOF Transport
2.1 Description

2.1.1	General
B.	(Continued)
2.	**Transition Plan** - For a 12-month period beginning on March 11, 2005, any DS1 dedicated transport UNE that a CLEC leases from the Telephone Company as of that date, but which the Telephone Company is not obligated to unbundle pursuant to Part B, Section 2.1.1.B.1, above, shall be available for lease from the Telephone Company at a rate equal to the higher of (1) 115 percent of the rate the requesting CLEC paid for the dedicated transport element on June 15, 2004, or (2) 115 percent of the rate the Commission has established or establishes, if any, between June 16, 2004, and March 11, 2005, for that dedicated transport element. Where the Telephone Company is not required to provide unbundled DS1 transport pursuant to Part B, Section 2.1.1.B.1, above, requesting CLECs may not obtain new DS1 transport as unbundled network elements on or after March 11, 2005.
C.	**DS3 Dedicated Transport -** This Part B, Section 2.1.1.C implements certain provisions of the *Order on Remand* issued by the Federal Communications Commission on February 4, 2005, in WC Docket No. 04-313 and CC Docket No. 01-338 (the "*Triennial Review Remand Order")*, and of the regulations promulgated by the FCC pursuant to that order.
1.	**Limitations on Unbundling Obligation -** Notwithstanding any other provision of this tariff, and subject to the transition plan set forth in Part B, Section 2.1.1.C.2 below, the Telephone Company will not provide unbundled access to DS3 dedicated transport, as defined in the introductory paragraph of 47 C.F.R. § 51.319(e)(2)(iii), to an extent beyond that required by 47 C.F.R. § 51.319(e)(2)(iii)(A), as in effect on and after March 11, 2005. Moreover, pursuant to 47 C.F.R. § 51.319(e)(2)(iii)(B) as in effect on and after such date, a requesting CLEC may not obtain more than 12 unbundled DS3 dedicated transport circuits on each route where DS3 dedicated transport is available on an unbundled basis.
2.	**Transition Plan -** For a 12-month period beginning on March 11, 2005, any DS3 dedicated transport UNE that a CLEC leases from the Telephone Company as of that date, but which the Telephone Company is not obligated to unbundle pursuant to Part B, Section 2.1.1.C.1, above, shall be available for lease from the Telephone Company at a rate equal to the higher of (1) 115 percent of the rate the requesting CLEC paid for the dedicated transport element on June 15, 2004, or (2) 115 percent of the rate the Commission has established or establishes, if any, between June 16, 2004, and March 11, 2005, for that dedicated transport element. Where the Telephone Company is not required to provide unbundled DS3 transport pursuant to Part B, Section 2.1.1.C.1, above, requesting CLECs may not obtain new DS3 transport as unbundled network elements on or after March 11, 2005.
D.	**Post-transition Arrangements -** CLECs that have unbundled UNE dedicated transport arrangements in place at the end of the transition periods described in Part B, Sections 2.1.1.B.2 and 2.1.1.C.2, above, must discontinue such arrangements or convert them to alternative serving arrangements, where such alternative arrangements are available from the Telephone Company. Orders for such discontinuance or conversion should be placed early enough, in light of the applicable provisioning intervals, to ensure that the orders can be fulfilled by the end of the transition period. If the CLEC places the order for conversion of such UNE dedicated transport arrangements prior to the end of the transition period, and the Telephone Company is not able to complete the order before the end of the transition period, the Telephone Company will continue to provide the service beyond the transition period until the order is completed at the applicable rates for analogous non-UNE services. If the TC does not place orders before the end of the transition period to discontinue or convert any such unbundled dedicated transport arrangements, the arrangements will be disconnected at the end of the transition period. (T) (N) (T) (N)

2. Unbundled IOF Transport
2.1 Description

2.1.1	General
D.	(Continued)
1.	As an alternative to disconnection at the end of the transition period of any remaining DS1 or DS3 dedicated transport arrangements which would not be available on an unbundled basis pursuant to Part B, Sections 2.1.1.B.1 or 2.1.1.C.1, above, the Telephone Company may, in its sole discretion, elect to convert such arrangements as of the end of the transition period to the non-UNE (*i.e.*, tariffed interstate special access) arrangements that the Telephone Company, in its sole discretion, determines to be analogous to the discontinued DS1 and DS3 Dedicated Transport arrangements, and the applicable rates (i.e., month-to-month rate, unless a different rate applies under an applicable interstate special access term/volume plan or other applicable interstate special access tariff arrangement in which the TC is already enrolled), terms, and conditions of such tariffed interstate special access arrangements shall apply effective as of the end of the transition period. If the Telephone Company does not complete the actual conversion as of the end date of the transition period, then as of that date and during any period prior to completion of the actual conversion, the Telephone Company, in its sole discretion, may re-price the discontinued DS1 and DS3 dedicated transport arrangements by application of the rates (i.e., month-to-month rate, unless a different rate applies under an applicable interstate special access term/volume plan or other applicable interstate special access tariff arrangement in which the TC is already enrolled), that apply to the tariffed interstate special access arrangement that the Telephone Company, in its sole discretion, determines to be analogous to the discontinued arrangements. Under no circumstances will the Telephone Company be required to elect the above options, and it reserves its right to disconnect any such remaining DS1 or DS3 dedicated transport arrangements at the end of the transition period. (N) (N)
E.	Pursuant to the *Order on Remand* issued by the Federal Communications Commission on February 4, 2005, in WC Docket No. 04-313 and CC Docket No. 01-338 (the "*Triennial Review Remand Order*"), and the regulations promulgated by the FCC pursuant to that order, a CLEC's submission to the Telephone Company of an order for unbundled DS1 or DS3 dedicated transport shall constitute a certification that, to the best of the CLEC's knowledge based on diligent inquiry, the order is consistent with the restrictions set forth in Part B, Sections 2.1.1.B.1 and 2.1.1.C.1, above, and that the CLEC is entitled to unbundled access to the network element or elements ordered. Such diligent inquiry shall include review of lists to be provided by the Telephone Company on its wholesale web site of the wire centers that meet specified criteria relating to the number of business lines that are served and the number of fiber-based collocators that are present. If the Telephone Company challenges such certification, and if it is determined, after completion of the applicable dispute resolution process, that the CLEC was not entitled to unbundled access to such element or elements, then the CLEC will be backbilled to the date on which the element was first provisioned, in the amount of the difference between the rate applicable to unbundled access to the network element in question and the rate that would be otherwise charged for the use of that element.
1.	Part B, Section 13 of this tariff identifies central offices in the Telephone Company's service area that as of the effective date of this tariff are either "Tier 1" or "Tier 2" wire centers, as defined in the *Triennial Review Remand Order*. Notwithstanding any other provision of this tariff, the Telephone Company is not required to provide, and will not process: (1) orders for unbundled DS1 dedicated transport between wire centers each of which is marked "Yes" in the Tier 1 column contained in Part B, Section 13 of this tariff; and (2) orders for unbundled DS3 dedicated transport between any wire center that is marked "Yes" in either the Tier 1 column or the Tier 2 column contained in Part B, Section 13 of this tariff, and any other wire center that is marked "Yes" in either of such columns.

2. Unbundled IOF Transport
2.1 Description

2.1.1	General	
F.	Unbundled dedicated IOF transport provides a transmission path within a LATA between the following locations. In addition, Intrastate-InterLATA unbundled dedicated IOF transport will be provided when all circuit end points are within the same local exchange calling area as defined in PUC RI No. 15.	(X)
1.	CLEC designated TC central office premises	
2.	CLEC designated collocation arrangements established within Telephone Company central offices	
3.	A CLEC designated TC central office premises and a collocation arrangement established within a Telephone Company central office.	
G.	The following digital connections which are provided through unbundled dedicated IOF transport are differentiated by bit rate and are offered with an electrical interface.	
1.	**Unbundled Dedicated DS1 IOF Transport—** A high capacity channel for the transmission of digital data at the rate of 1.544 Mbps.	
2.	**Unbundled Dedicated DS3 IOF Transport—** A high capacity channel for the transmission of digital data at the rate of 44.736 Mbps.	(X)
H.	In accordance with the Federal Communication Commission's Report and Order and Order on Remand and Further Notice of Proposed Rulemaking released on August 21, 2003 in CC Docket Nos. 01-338, 96-98, and 98-147 (the "Triennial Review Order"), beginning on April 29, 2004 the Telephone Company will no longer provision new orders for OC3 or OC12 IOF transport as unbundled network elements under the terms and conditions of this tariff except as otherwise required under an effective interconnection agreement between the Telephone Company and the TC.	
	Existing OC3 or OC12 IOF transport facilities will be discontinued on April 29, 2004, except as otherwise required under an effective interconnection agreement between the Telephone Company and the TC.	
	The following optical connections which are provided through unbundled dedicated IOF transport are differentiated by bit rate and are offered with an optical interface.	
1.	**Unbundled Dedicated OC-3 IOF Transport—** Provides for the simultaneous two-way transmission of digital signals using STS format at a rate of 155.52 Mbps.	
2.	**Unbundled Dedicated OC-12 IOF Transport—** Provides for the simultaneous two-way transmission of digital signals using STS format at a rate of 622.08 Mbps.	
I.	In accordance with the Federal Communication Commission's Report and Order and Order on Remand and Further Notice of Proposed Rulemaking released on August 21, 2003 in CC Docket Nos. 01-338, 96-98, and 98-147 (the "Triennial Review Order"), beginning on April 29, 2004 the Telephone Company will no longer accept new orders for STS1 IOF transport as an unbundled network element under the terms and conditions of this tariff except as otherwise required under an effective interconnection agreement between the Telephone Company and the TC.	
	Existing STS1 IOF transport facilities will be discontinued on April 29, 2004, except as otherwise required under an effective interconnection agreement between the Telephone Company and the TC.	
	The following connection is provided through unbundled dedicated IOF transport and is offered with a metallic-based electrical interface.	
1.	**Synchronous Transport Signal - Level 1 (STS-1)—** Provides a total bandwidth of 51.84 Mbps, including both overhead and payload. The interface must conform with GR-253–CORE which defines SONET requirements.	

2. Unbundled IOF Transport
2.1 Description

2.1.1	General	
J.	Implementation of the DS1/DS3 Transport Forbearance Order	(N)
1.	This paragraph 2.1.1.J implements the actions taken by the FCC in WC Docket 16-143, et al., Business Data Services in an Internet Protocol Environment, et al., Report and Order on Remand and Memorandum Opinion and Order (rel. July 12, 2019), with respect to DS1 and DS3 dedicated transport.	
2.	The terms "DS1 dedicated transport," and "DS3 dedicated transport," as used in this paragraph 2.1.1.J and in paragraph 2.1.1.K, below, mean unbundled Verizon transmission facilities, within a LATA, between Verizon wire centers or switches (as identified in the LERG), that are dedicated to particular customers or carriers and that provide, respectively, transmission at DS1 or DS3 levels: (a) whether provided or utilized as stand-alone UNEs, in combination with another UNEs, or commingled with non-UNE services or other arrangements; and (b) whether originally ordered as UNEs or created through the conversion of private line or special access circuits or other services of arrangements.	
3.	For purposes of this paragraph: (a) a "Tier 1" wire center is a Verizon wire center identified as such (by a "Yes" in the column headed "Tier 1") in Part B, Section 13; (b)a "Tier 2" wire center is a Verizon wire center identified as such (by a "Yes" in the column headed "Tier 2") in Part B, Section 13; (c) a "Tier 3" wire center is a Verizon wire center not identified as a Tier 1 or a Tier 2 wire center in Part B, Section 13, including a Verizon wire center not listed in Part B, Section 13; (d) a dedicated transport "route" is as defined in 47 CFR § 319(d); (e) the two Verizon wire centers at either end of a dedicated transport route are the "endpoints" of the route; (f) the "DS3 triggering endpoint(s)" for a DS3 dedicated transport route are those endpoints of the route that are Tier 3 wire centers; and (g) the "DS1 triggering endpoint(s)" for a DS1 dedicated transport route are those endpoints that are either Tier 2 or Tier 3 wire centers. Pursuant to Sections 2.1.1B, 2.1.1.C and 2.1.1.E of this Tariff, above, dedicated DS1 transport is not available on an unbundled basis on any route neither of whose endpoints is a DS1 triggering endpoint, and dedicated DS3 transport is not available on an unbundled basis on any route neither of whose endpoints is a DS3 triggering endpoint.	
4.	Notwithstanding any other provisions in this Tariff, including the preceding provisions of section 2.1.1, but subject to the transitional provisions set forth in subparagraphs (5) and (6), below, DS1 dedicated transport along a route is not available from Verizon where competitive fiber is present within one-half mile of each DS1 triggering endpoint of the route; and DS3 dedicated transport along a route is not available from Verizon where competitive fiber is present within one-half mile of each DS3 triggering endpoint of the route. For purposes of this paragraph, the wire centers for which competitive fiber is available within one-half mile are those listed in an August 1, 2019 Public Release of the FCC's Wireline Competition Bureau in WC Docket 18-141 (including any subsequent additions or modifications made to such list). For ready reference, the Verizon Rhode Island wire centers in Rhode Island listed in such Public Release are the following:	(N)

2. Unbundled IOF Transport
2.1 Description

2.1.1 General (N)

J. (Cont'd)

4.	ASTNRIAN	ASWYRIYB	CNTYRIST	CRLNRIMA
	EGRNRICH	EPRVRINB	GLCSRIWG	HPVYRIMA
	JMTWRINA	LTCMRIWE	NKTWRIPH	NPRVRIMS
	NRGNRIMA	NWPTRIBU	PSCGRIPA	PTMORIEM
	RVSDRISO	SCTTRISI	TVTNRIHA	WKPGRIWA
	WRLYRIMA	WRRNRIEV	WWWKRIMA	

5. New purchases of or conversions to DS1 or DS3 dedicated transport that would be precluded under subparagraph 4, above, but that would otherwise be available under this Tariff, may be made through January 12, 2020, but may not be made after such date.

6. Any DS1 or DS3 dedicated transport purchased as such or created by conversion on or before January 12, 2020 will continue to be provisioned through July 12, 2022 at the rates set forth in this Tariff, unless such transport is discontinued by the customer or terminated by Verizon for any reason authorized by this Tariff or by general regulations applicable to this Tariff (such as non-payment). After such date, Verizon will no longer provide or maintain any DS1 or DS3 dedicated transport precluded by subparagraph 4, above.

7. Nothing in this paragraph 2.1.1J is intended to expand the availability of DS1 or DS3 transport or to make such transport available if it would not be available but for this paragraph.

K. Replacement Arrangements

1. Where any DS1 dedicated transport, or DS3 dedicated transport (each of the foregoing, a "Discontinued UNE") are no longer available under the terms of paragraph 2.1.1.J above, and the customer previously purchasing such Discontinued UNE has not submitted to Verizon a Local Service Request ("LSR"), Access Service Request ("ASR"), or other authorized form of order requesting disconnection of the product, and has not separately secured from Verizon an available alternative arrangement to replace the product, then Verizon may disconnect the subject Discontinued UNE without further notice to the customer.

2. In lieu of disconnecting the subject Discontinued UNE in the circumstances set forth in subparagraph 2.1.1.K.1, above, Verizon, in its sole discretion, may elect, with at least 30 days advance notice to the customer, to: (a) convert the subject Discontinued UNE to a resale arrangement, to an arrangement available under another Verizon tariff or product guide (in which case month-to-month rates shall apply unless Verizon determines that the circuit is eligible for a different plan to which the customer then subscribes), or to some other commercial arrangement; or (b) in lieu of such a conversion, reprice the subject Discontinued UNE by application of a new rate (or, in Verizon's sole discretion, by application of a surcharge to an existing rate) to be equivalent to the price that would apply in (a) preceding. Verizon may disconnect the subject Discontinued UNE (or the replacement service to which the Discontinued UNE has been converted) if the customer fails to pay when due any applicable new rate or surcharge billed by Verizon. The customer shall cooperate with Verizon in implementing the requirements of this paragraph 2.1.1.K and shall promptly submit any LSR or ASR and take such other action that may be needed to implement such requirements. (N)

2. Unbundled IOF Transport
2.1 Description

2.1.1	General	(N)
L.	Implementation of the 2020 UNE/Resale Order	
1.	General	
a.	This paragraph 2.1.1.L. implements the actions taken by the FCC in WC Docket No. 19-308, Modernizing Unbundling and Resale Requirements in an Era of Next-Generation Networks and Services, Report and Order (rel. October 28, 2020) (the "Report and Order"), related to unbundled access to network elements.	
b.	For purposes of this paragraph 2.1.1.L., "Effective Date" means the date on which the Report and Order takes effect.	
c.	Nothing in this paragraph 2.1.1.L. is intended to expand the availability of any unbundled network element, or to make such elements available if they would not be available but for this paragraph. For the avoidance of any doubt, other paragraphs of this Tariff have previously discontinued the availability of certain unbundled network elements that are referenced in this paragraph, or limited their availability based on certain criteria, and nothing in this paragraph is intended to alter any such discontinuations or limitations.	
d.	The definitions of various discontinued unbundled network elements in this paragraph 2.1.1.L are intended to apply to all network elements described by those definitions, regardless of the names used to refer to them in other sections of this Tariff. By way of example and not limitation, the term "UNE Loop" includes network elements referred to as "links" in certain portions of this Tariff.	
2.	UNE Dark Fiber Transport	
a.	For purposes of this subparagraph 2.1.1.L.2.:	
i.	The term "UNE Dark Fiber Transport" means unactivated optical interoffice transmission facilities that are provided on an unbundled basis, and, for avoidance of doubt, includes "IOF Dark Fiber" as the term is used in other sections of this Tariff.	
ii.	"Tier 3 wire center" is as defined in §2.1.1.J.3. of this Tariff.	
iii.	A "Listed Wire Center" is a wire center that is within a half mile of an alternative source of fiber, as listed in an August 1, 2019 Public Release of the FCC's Wireline Competition Bureau in WC Docket 18-141 (including any subsequent additions or modifications made to such list from time to time).	
b.	Notwithstanding any other provisions in this Tariff, including the preceding provisions of this §2.1.1., but subject to the transitional provisions set forth in subparagraph c, below, UNE Dark Fiber Transport will not be available from Verizon on or after the Effective Date unless at least one end of the transport route is a Tier 3 wire center that is not a Listed Wire Center.	
c.	Any UNE Dark Fiber Transport purchased before the Effective Date will continue to be provisioned through the date eight years after the Effective Date at the rates set forth in this Tariff, unless discontinued by the customer or terminated by Verizon for any reason authorized by this Tariff or by general regulations applicable to this Tariff (such as non-payment). After such date, Verizon will no longer provide or maintain any UNE Dark Fiber Transport.	(N)

2. Unbundled IOF Transport
2.1 Description

2.1.1 General		(N)
L.	(Cont'd)	
3.	Operations Support Systems Functions	
a.	For purposes of this subparagraph 2.1.1.L.3., the term "Operations Support System Functions" means pre-ordering, ordering, provisioning, maintenance and repair, and billing functions supported by Verizon's databases and information.	
b.	Notwithstanding any other provisions in this Tariff, including the preceding provisions of this §2.1.1., but subject to the transitional provisions set forth in subparagraph c, below, unbundled access to Operations Support Systems Functions will not be available from Verizon on or after the Effective Date, except when such functions are used to manage other unbundled network elements, local interconnection, or local number portability.	
c.	Any unbundled access to Operations Support System Functions eliminated pursuant to subparagraph b, above, will continue to be provisioned for the period in which unbundled access is available to the network elements managed through the use of such functions, but not after such period.	
4.	Discontinued UNEs and Replacement Arrangements	
a.	For purposes of this subparagraph 2.1.1.L.4., a "Discontinued UNE" is a network element, access to which is or will be no longer available on an unbundled basis under the terms of this paragraph 2.1.1.L. The date after which Verizon will no longer continue to provision a Discontinued UNE is the End Date.	
b.	Where the customer previously purchasing such Discontinued UNE has not submitted to Verizon a Local Service Request ("LSR"), Access Service Request ("ASR"), or other authorized form of order requesting disconnection of the product on or before the End Date, and has not separately secured from Verizon an available alternative arrangement to replace the product on or before the End Date, then Verizon may disconnect the subject Discontinued UNE on the End Date without further notice to the customer.	
c.	In lieu of disconnecting the subject Discontinued UNE on the End Date in the circumstances set forth in subparagraph b, above, Verizon, in its sole discretion, may elect, with at least 30 days advance notice to the customer, to: (i) convert the subject Discontinued UNE to a resale arrangement, to an arrangement available under another Verizon tariff or product guide (in which case month-to-month rates shall apply unless Verizon determines that the circuit is eligible for a different plan to which the customer then subscribes), or to some other commercial arrangement; or (ii) in lieu of such a conversion, reprice the subject Discontinued UNE by application of a new rate (or, in Verizon's sole discretion, by application of a surcharge to an existing rate) to be equivalent to the price that would apply in (i) preceding. Verizon may disconnect the subject Discontinued UNE (or the replacement service to which the Discontinued UNE has been converted) if the customer fails to pay when due any applicable new rate or surcharge billed by Verizon. The customer shall cooperate with Verizon in implementing the requirements of this paragraph 2.1.1.L.4. and shall promptly submit any LSR or ASR and take such other action that may be needed to implement such requirements.	(N)

2. Unbundled IOF Transport
2.2 Application of Rates and Charges

2.2.1	Channel Mileage
A.	Channel mileage provides for the transmission facility between the two termination points, (either the TC central office designated by the CLEC or the collocation node established within a Telephone Company central office).
1.	Rates associated with channel mileage apply monthly on a fixed and per mile basis.

2.2.2	NRCs
A.	The following NRCs apply (refer to Part A, Section 3).
1.	Service Order (on a standard basis or an expedited basis, as appropriate).
2.	Service Connection-Central Office Wiring (on a standard basis or an expedited basis, as appropriate).
3.	Service Connection-Other (on a standard basis or an expedited basis, as appropriate).
4.	Customer Misdirect-In (on a standard basis or an expedited basis, as appropriate)
5.	Customer Misdirect-Out (on a standard basis or an expedited basis, as appropriate)

2.2.3	Other Charges
A.	When accessing unbundled dedicated IOF transport from a collocation arrangement, appropriate collocation cross connect charges will apply.
B.	Service access charge and interconnection access charge elements described in Part E (collocation) also apply.
