4. PIC Verification Service:

PIC Verification Service enables an interexchange carrier (IC) to obtain verification of its End User's Primary Interexchange Carrier (PIC) selection manually. A manual request may be initiated by the IC providing the telephone number that requires verification to the Company by means of a written request.

An IC may request verification of the following information:

Carrier Identification Code (CIC)
End User Customer's name
End User Customer's address
Working Telephone Number (WTN)
Billing Telephone Number (BTN)
Number of Customers who are subscribed to Company service that have selected a particular IC for either interLATA or intraLATA service.

Any information received through PIC Verification Service shall:

not be resold or otherwise provided to another person, corporation, partnership or entity;

be used only for establishing and maintaining IC service for end users who have requested service; and,

not be used for marketing purposes.

Charge: A $0.75 charge will apply for each successful PIC verification.
