ACCESS SERVICE

12. Specialized Service or Arrangements

12.1 General

Specialized Service or Arrangements may be provided by the Telephone Company, at the request of a customer, on an individual case basis if such service or arrangements meet the following criteria.

(A) The requested service or arrangements are not offered under other sections of this Tariff.

(B) The facilities utilized to provided the requested service or arrangements are of a type normally used by the Telephone Company in furnishing its other services.

(C) The requested service or arrangements are provided within a LATA.

(D) The requested service or arrangements are compatible with other Telephone Company services, facilities, and its engineering and maintenance practices.

(E) This offering is subject to the availability of the necessary Telephone Company personnel and capital resources.

12.2 Move Charges

(A) When service without a maximum termination liability charge associated with it is moved to a different building, the nonrecurring charge applies; when moved to a new location in the same building, a charge of one-half the nonrecurring charge applies.

(B) When service with a maximum termination liability charge associated with it is moved and is reinstalled at a new location, the customer may elect:

- to pay the unexpired portion of the maximum termination liability charge for the service, if any, with the application of a nonrecurring charge and the establishment of a new maximum termination liability charge for such service at the new location, or

- to continue service subject to the unexpired portion of the maximum termination liability charge, if any, and pay the estimated costs of moving such service, provided that the customer requests these charges be quoted prior to ordering the service move. Charges for moving such service will be based on estimated costs attributable to the move.

National Broadcasting Company, Inc.

Provision of an analog matrix video switching arrangement. The switch is to be located in the Telephone Company Audio/Video Operations Center (AVOC) at 730 12th Street, NW, Washington, DC. The arrangement will consist of a 128 x 128 frame that will be initialized as a 96 x 80 matrix switch. Included in the initial arrangement is 12 control interface ports; one for the Telephone Company's administration and maintenance activity, and eleven for NBC. NBC shall provide for control circuits between the AVOC and NBC's 30 Rockefeller Plaza, New York location.

In addition to the initial matrix, the video switch may be expanded in increments of 16 ports to its full capacity of 128 X 128. Additional control interface ports, up to a maximum of 50, may also be ordered.

NBC will be credited 50% of the monthly rate for the full arrangement, the initial order and any in service expansion, whenever there is a service outage/service interruption of thirty or more consecutive minutes. Total monthly credits will not exceed the monthly charge.

The contract period for this arrangement is 120 months and is subject to early termination liability. The maximum termination liability charge, MTL, for the 96 x 80 matrix arrangement is $160,200.00. The MTL is applicable for the first twenty-four months of this service arrangement and will decrease by 1/96th per month ($1,670.00/mo) for each subsequent month this arrangement remains in service. Termination liability is not applicable for an upgrade in capacity or functionality of the switch.

The voice grade data control circuit(s) and video transmissions are not a part of this arrangement. They are to be supplied by the customer and may be purchased from the Telephone Company at the rates specified in Section 7 of this tariff. Case No. 1922-95B.

CRESTAR BANK

Description

Provision of a specialized arrangement for a private network. This arrangement will be composed of Newbridge multiplexers, associated cards, and transmission links between customer locations in the Washington metropolitan area and to the customer's interexchange carrier.

Terms and Conditions

The contract period for this special arrangement is five years and commences on the effective date of this tariff.

Monthly charges will be assessed for each multiplexer, its associated cards (the circuit boards used to configure the network) and for each transmissions link.

Monthly charges cover recurring and nonrecurring costs and are divided into two rate tiers. Tier A rates, those associated with capital cost recovery, are stabilized throughout the contract period. Tier B rates, which cover costs for ongoing maintenance and administration of the network, are subject to annual CPI adjustments with a maximum adjustment of 5% per year.

The customer may order additional contract services through the first half of year 5 of the contract period. These services will be assessed the applicable rates for the given year of the contract period; i.e., all facilities placed in service during year 2 will be billed rates applicable for the second year of the contract.

A nonrecurring case preparation charge is assessed when the service is activated.

In the event that service is terminated before the end of the 5-year contract period an Early Termination Provision (ETP) applies. ETP is assessed as follows:

- For any multiplexing service, including associated cards, terminated prior to the end of the contract period, Crestar will be liable for the Tier A charges for the months remaining in the contract period.

- For Transmission Links terminated before the end of the contract period, Crestar will be liable for twenty-five percent (25%) of the total monthly charges remaining in the contract period.
