SUBURBAN CENTREX SERVICE* (C) (LA-2)

A. DESCRIPTION

Suburban Centrex Service is Centrex Service provided from a switching location within a Virginia Zone of the Washington Metropolitan Exchange Area (WMEA) as a part of a Centrex system having 10,000 or more Centrex lines provided from the Washington zone of the WMEA.

- B. REFERENCES (See Section 9 REFERENCES)
- C. REGULATIONS (LA-2)
 - 1. Suburban Centrex Service is subject to Limited Availability Classification LA-2.
 - 2. Suburban Centrex Service regulations and rates also apply for all Centrex systems of the same customer in the WMEA when at least one such Centrex system has 10,000 or more Centrex lines provided from the Washington zone of the WMEA.
 - Except as provided herein, the regulations and rates specified for Centrex I Service in Section 9 preceding, apply to Suburban Centrex Service.
 - 4. When Suburban Centrex Service is provided from a Virginia zone, there is a continuing minimum monthly charge which will be the charges for 100 Suburban Centrex Service lines of the customer's Centrex system within that zone.
 - 5. Suburban Centrex Service includes the facilities necessary for intercommunication with:
 - a. Centrex lines of other Centrex systems of the same customer within the WMEA.
 - b. Centrex lines of WMEA Centrex systems of one other customer having at least one Centrex system with 10,000 or more Centrex lines provided from the Washington zone of the WMEA.
 - 6. A Centrex subsidiary system arrangement is not offered in connection with Suburban Centrex Service.
 - 7. Same Premises Channel Service for Customers with Special Location Suburban Centrex Service

These facilities are used to provide a transmission path between points on the same premises when such facilities are routed through Telephone Company central office equipment located on the customer's premises.
