

SERIES 6000 CHANNELS*

A. GENERAL

Series 6000 Channels are furnished for one-way program transmission in connection with loudspeakers and sound recording.

B. TERMS AND CONDITIONS

1. Explanation of Terms

a. Bridging Connection

A bridging connection is amplifying equipment and services required to connect a station, or an interexchange channel serving a station, at an intermediate point on an interexchange network, or to connect an additional station at a terminal point of an interexchange channel.

b. Distributing Center

A distributing center is amplifying and bridging equipment at Company premises where program transmission channels, used in connection with loudspeakers, are interconnected to form a network for distribution of program material to a number of loudspeaker locations.

c. Equalization

Equalization is a procedure applied to a program transmission channel so that the component frequencies of the program material transmitted have about the same relationship at the two ends of the channel.

d. Local Channel

A local channel is that portion of a Series 6000 Channel service furnished for audio transmission within an exchange area as follows.

- (1) When no distributing centers are required; between the studio and a station, between studios, or between a studio or station and the point of connection with an interexchange.
- (2) When one or more distributing centers are required; between the studio and the first distributing center, between distributing centers, between a distributing center and each station served therefrom, or between a studio or distributing center and the point of connection with an interexchange channel.

* Effective February 13, 2026, moves, changes, or modifications to this service will no longer be supported. Service modifications for customers with existing contracts are subject to the terms of their contracts. Effective October 31, 2014, Series 6000 Channels are grandfathered and no longer available to new customers. Term commitment plans will not be renewed. Moves, adds or changes to subscribers' existing service are permitted.

B. TERMS AND CONDITIONS (Cont'd)

1. Explanation of Terms (Cont'd)

e. Station Connection

A station connection is amplifying equipment and services which may be required when a program is transmitted to or received from an interexchange channel or network.

f. Studio

A studio is premises, under the customer's control and arranged so as to prevent access by unauthorized persons where program material originates or is received for transmission to a program transmission channel.

2. Interexchange Channels, Station and Bridging Connections

a. Type 6003

Provides for the continuous use of music distribution facilities, without special operation and supervision, for the transmission of audio within the approximate frequency range of 2000 to 3,500 Hertz (Hz). Transmission factors permit the satisfactory transmission of the above frequency range only over limited distances. Type 6003 covers the provision of interexchange channel facilities and services, including the necessary bridging connections.

b. Type 6005

Provides for the continuous use of music distribution facilities, with special operation and supervision, for the transmission of audio within the approximate frequency range of 1,000 to 5,000 Hz. Type 6005 covers the provision of interexchange channel facilities and services, including such station connections as may be required.

3. Local Channel Mileage Measurement

a. The local channel mileage is the airline distance in quarter miles, with fractional quarter miles being considered as full quarter miles, measured between points specified in 1.d. preceding.

b. For pricing purposes, each channel or segment of a network is measured separately and the mileage for the network is the sum of the mileages so determined, with the first quarter charge applying only once on a network.

* Effective February 13, 2026, moves, changes, or modifications to this service will no longer be supported. Service modifications for customers with existing contracts are subject to the terms of their contracts. Effective October 31, 2014, Series 6000 Channels are grandfathered and no longer available to new customers. Term commitment plans will not be renewed. Moves, adds or changes to subscribers' existing service are permitted.
