RATES AND CHARGES

18.1 CONNECTIONS OF CUSTOMER PROVIDED EQUIPMENT AND CERTAIN FACILITIES

A. CONNECTIONS OF CUSTOMER-PROVIDED TERMINAL EQUIPMENT AND COMMUNICATIONS SYSTEMS

]

(D)

]

CONNECTORS FOR SUBSCRIBER-OWNED TELEPHOTOGRAPH EQUIPMENT

Installation of new connecting arrangements for customer-provided terminal equipment will not be made after July 1, 1979. Treatment with respect to grandfathered installations which include such connecting arrangements is covered in Part B, Section 1 of this Product Guide.

	Monthly Rate	Connection Charge	USOC
Permanent connector equipment	$6.79	$44.18	367
Jacks for portable connector, each	None	44.18	

Charges based on cost apply where special arrangements are furnished or unusual costs are incurred.

B. CONNECTIONS OF CUSTOMER–PROVIDED NON-KEY EQUIPMENT

	Monthly Rental	Installation Charge	USOC
Standard Network Interface	-	$18.21	NW1
Network Interface	-	13.24	NW2

RATES AND CHARGES

18.2 EXCHANGE SERVICES (C)

A. EXCHANGE SERVICE (C)

1. Additional Charges for Foreign Exchange Service

Local Exchange Service Accessed by Interstate Lines or Trunks (where the subscriber's normal central office is not in New York State):

An Exchange System Access Line Terminal Charge of **$36.58** per month applies for service accessed by each line or trunk. *

2. Four- Wire Service Terminating Arrangement for Foreign Exchange Lines (FX)

The following rates and charges are for the Four-Wire Service Terminating Arrangement only and are in addition to the applicable rates and charges for the associated FX line and mileage facilities with which it is associated.

	Monthly Rate	Installation Charge	USOC
Four Wire Service Terminating Arrangement, each			
When installed coincident with line with which associated	$12.98	$168.59	4WF
When installed subsequent to the line with which associated	12.98	194.55	4WF

* The Exchange System Access Line Terminal Charge also applies (in addition to the local service charge) to local exchange service accessed by each line or trunk terminating in the switching equipment of a switched interstate private line network to permit off-network exchange connections. The switching equipment (Common Control Switching Arrangement) and the private lines associated therewith are furnished under interstate Tariff F.C.C No. 11. The Exchange System Line Terminal Charge also applies to Verizon New York Inc. local exchange service accessed by each line and trunk associated with foreign exchange service provided by Other Common Carriers and to each local exchange service connection in Verizon New York Inc. central offices from switched interstate networks provided by Other Common Carriers.

RATES AND CHARGES

18.2 EXCHANGE SERVICES (Cont'd)

C. CUSTOM CALLING SERVICES
(Certain CCS features have been grandfathered – see Section 2 of this Part B of the Product Guide.)

The following rates and charges are in addition to all other applicable rates and charges for the facilities and service furnished. Each line equipped, including all stations on the line:

	Monthly Rate		Connection	
	Residence	Business	Charge*	USOC
(1) Speed Dialing-8-number cap.**,#	$11.99	$ 7.70		ESL
(2) Speed Dialing-30-number cap.**,#	11.25	11.62	Service Connection Charge as specified in Section 18.12 of this Part B of the Product Guide.	ESF
(3) Three-way Calling**	11.99	16.70 (I)		ESC
(4) Call Forwarding**	11.99	16.98 (I)		ESM
(5) Call Waiting**	12.75	21.85 (I)		ESX

- Speed Dialing is no longer available to residential customers. Existing residential customers may retain the feature at existing locations.

* Only one connection charge applies to the connection of one or more Custom Calling Service features on one or more lines at the same time and on the same service of the subscriber. No connection charge applies to the connection of one or more Custom Calling Service features when the work is ordered for completion coincident with other work in connection with the same service of the subscriber, when such other work is subject to service connection, move or substitution charges. No Service Order Charge applies if a Custom Calling feature is ordered by a small business customer (1-12 lines) within 90 days of the installation date of a new service access line.

** When a subscriber with a Custom Calling Service requests the addition of one or more features to accomplish a combination of features as specified in C.(6), the monthly rate is increased to conform with the rate specified in C.(6) and the connection charge applies as specified herein.

	Monthly Rate	Nonrecurring Charge #	USOC
a. Remote Call Forwarding, Each path*			RCA, RCFVE, RCFVL, RCFVN,
- Business	$42.00 (I)	$30.00	RCFVS, RCFWE
- Residence	20.25	25.00	RCFWS, RCFML RCFMS, RCFME, RCFMN, RCFVQ

b. Rearrangement and Changes

(1)	Change of telephone number To which calls are forwarded, per occasion	Nonrecurring Charge
(2)	Change of Directory Listing, Per occasion	Record Order Charge

The nonrecurring charge does not apply if Remote Call Forwarding is ordered by small business customer (1-12 lines) within 90days of the installation date of a new service access line.

* In addition, the subscriber to Remote Call Forwarding is responsible for dial type (DDD) station-to-station local and toll charges applicable to calls transferred from the forwarding location to the terminating location. The charge applies for each call answered, including person-to-person and collect calls which are refused at the terminating location. For calls transferred within the same local calling area, the message rate schedule for business service in the RCF central office applies. In exchanges where only flat rate service is furnished, the charge for each local call transferred is a Rate Band 1 (A) charge. No allowance for local calls is included in the RCF monthly rate.

RATES AND CHARGES

18.2 EXCHANGE SERVICES (Cont'd) (C)

EXPLANATION OF ENDNOTES:

(1) In addition, a Service Charge as specified in Section 18.12 of this Part B of the Product Guide applies to business customers. The Service Order Charge does not apply if 1) one or more PHONESMART Services are provided concurrent with the installation of the line, and 2) if PHONESMART Services are ordered by a small business customer (1 - 12 lines) within 90 days of the installation date of the line. Moreover, the nonrecurring charge for the initial request is waived for a period not to extend beyond 90 days from the date the feature becomes available in the customer's serving central office. The Service Order Charge associated with the provision of Anonymous Call Rejection feature for customers who do not subscribe to either Caller ID - Number Only, Caller ID, Call Waiting ID, Call Waiting ID With Name, Call Waiting ID Deluxe - Number Only, or Call Waiting ID Deluxe will be waived for a period not to exceed beyond 90 days from the date the feature becomes available in the customer's serving central office.

(2) A per activation charge is offered as an alternative to the monthly subscription charge, at the customer's option. Per activation customers are charged upon announcement of the telephone number associated with the last incoming call. The charge applies regardless of whether the customer attempts to return the call by dialing "1" and regardless of whether the announced number identifies the calling party or can be used to return the call automatically or by manual dial back.
Activation charges are not to exceed the monthly maximum for each feature as specified in 18.2O.7 preceding. No charges apply if the last incoming call is out-of-area or if delivery of the calling number is blocked. Service connection charges as stated in Section 18.12 of this Part B of the Product Guide do not apply. Additional charges associated with calls returned using *69 will apply.

(3) Anonymous Call Rejection is provided automatically on all lines equipped with Caller ID - Number Only, Caller ID, Call Waiting ID, Call Waiting ID With Name, Call Waiting ID Deluxe - Number Only, and Call Waiting ID Deluxe. (USOC AYW).

(4) Charge applies for successful activation only.

(5) Customers subscribing to Call Waiting ID, Call Waiting ID With Name, Call Waiting ID Deluxe - Number Only, or Call Waiting ID Deluxe must subscribe separately to Call Waiting to take full advantage of these services, and thus will be subject to the applicable rates for Call Waiting Service shown in Section 2 of this Part B of the Product Guide. The Service Charge for the connection of these features will be included in the Service Order Charge Waiver in Section 18.12 of this Part B of the Product Guide.

* The signal grade rate applies only to signal grade lines as defined in Section 14 of this Part B of the Product Guide.

\# In addition, feature function rate elements (Para. D.3.i.) apply to all "other than signal grade" Central Office and Block Loops.

\# \# When connected to an interconnector's multiplexing node under Part B, Section 10 of this Product Guide a Universal Service Element Charge and a Service Access Charge will apply as specified in PSC No. 15, Section 14.6.

** As of June 30, 2022, this service is not provided to new customers. Existing customers may retain the service; however, changes additions, and/or rearrangements are not permitted. (N) (N)

RATES AND CHARGES

18.5 MILEAGE (Cont'd)
C. MILEAGE ON LINES BETWEEN LOCATIONS (Cont'd)
3. Mileage Components (Cont'd)

a. Leased Channels for Alarm Signaling Purposes and segments of Access Channels.

All applicable rates and charges specified in this section apply except as follows:

(1) Multi-Loop Charge

This charge applies only to segments of leased channels used for alarm purposes when more than 50 such segments are furnished between the same premises of the subscriber and the normal central office or between the same premises of the patron of the subscriber and the patron's normal central office.

This charge will also apply, at an Interexchange carrier's request, to the segments of Access Channels from the IC point of termination to its serving wiring center.

	Monthly Rate Per Loop			
	2-Wire	USOC	4-Wire	USOC
(a) First fifty (50) Multi Loop Charge, ea.				
1/4 mile or less	$12.60	ML3	$25.19	MG3
1/4 to 1/2 mile	12.60	ML5	25.19	MG5
over 1/2 mile	12.60	ML6	25.19	MG6
(b) Segments in excess of 50, each				
1/4 mile or less	5.23	ML3	10.46	MG3
1/4 to 1/2 mile	6.36	ML5	12.73	MG5
over 1/2 mile	8.54	ML6	17.06	MG6

(2) Where duplex operation (requiring 4-wire facilities) or a 4-wire facilities are requested by the subscriber or required by his equipment, the appropriate 4-wire mileage component rate applies.

b. Interoffice Mileage – See Part B, Section 5.C of this Product Guide.

RATES AND CHARGES

18.5 MILEAGE (Cont'd)
C. MILEAGE ON LINES BETWEEN LOCATIONS (Cont'd)
3. Mileage Components (Cont'd)

b. Installation Charges

An installation charge applies for the initial termination of each mileage circuit on subscriber's premises or each alarm signaling circuit terminating on the patron's premises.

	Rate	USOC
Where Central Office Loop, Block Loop, or, at the premises of a patron, Multi-Loop Charges apply to the circuit (This charge will also apply for each Direct Inward Dial loop installed.)	$174.90	NRCCO
For all other mileage circuits	144.10	NRCLF

These charges are not applicable to Foreign Exchange Lines, Centrex Off-Premises Primary Station Lines, Intercept Lines, Group Channels, termination of an alarm circuit on the premises of an Alarm Company Central Station.

c. Channel Connection Charge

A channel connection charge applies for the interoffice segment of a mileage circuit as follows:

	Channel Connection	USOC
For Signal Grade Circuits		
Per interoffice segment of 12 miles or less	$298.75	SEMSL
Per interoffice segment of more than 12 miles	305.13	SEMSM
For Other than Signal Grade Circuits'		
Per interoffice segment of 12 miles or less	520.65	SEMVL
Per interoffice segment of greater than 12 miles but not more than 25 miles	612.11	SEMVM
Per interoffice segment greater than 25 miles	782.99	SEMVG

These charges are not applicable to Group Channels or Superpath services (See Part B, Section 10.E and 10.F.)

RATES AND CHARGES

18.5 MILEAGE (Cont'd)
C. MILEAGE ON LINES BETWEEN LOCATIONS(Cont'd)
3. Mileage Components(Cont'd)

d. Circuit Rearrangement Charges

A Circuit Rearrangement Charge will apply where a customer requests a rearrangement of his service which does not require a physical change in interoffice facilities, however a redesign of the total facility is required.

The charge will apply to the interoffice segment of a circuit when there is a move of a termination of that circuit to another location within the same central office building area; or if the interoffice facilities associated with an existing circuit are reused in place for a new circuit of the same type for the same subscriber.

	Charge	USOC
- Signal Grade Circuits	$150.07	CRACS
- Other than Signal Grade Circuits	163.74	CRACO

When more than a 600 pair cable is required to serve a building, the monthly rate is 1/12 of 25% of the estimated investment. The Company's investment as of the original date of cable construction is estimated for the cable between the PBX switchboard frame or other comparable originating point and the wire or house cable distributing center in the building to which the cable extends. The estimate includes facilities for termination of the cable or the cost of splicing into the house cable system.

Construction charges apply as provided in Section 18.12 of this Part B.

RATES AND CHARGES

18.6 STATION EQUIPMENT

A. REGISTRATION JACKS

1. Indoor and Outdoor Jacks - Flush or non-flush jacks are furnished for use with any class of service.

C. CONNECTION WITH SUBSCRIBER-PROVIDED VOICE TRANSMITTING AND RECEIVING TERMINAL EQUIPMENT

1. Direct Electrical Connections

a. Protective Connecting Arrangements

	Monthly Rate	Installation Charge	USOC
(1) Automatic connecting arrangement for use with subscriber-provided single or multi-line terminal equipment			
Per central office line equipped	$18.01	$107.03	STC
*Per central office line equipped	17.32	97.83	STP

NOTE: Rewire charges specified in Section 18.13 of this Part B apply for the re-termination of central office lines.

(2) Connecting arrangement for use with subscriber-provided call duration equipment, used in conjunction with a network control signaling unit			
Per line equipped	22.27	76.43	RC1

This connecting arrangement transmits a tone to the local station user only, for timing calls. The initiation of the tone is under the control of the subscriber-provided equipment. The tone is repeated at approximately 15 second intervals. The connecting arrangement includes a power supply and a receptacle to connect leads to the subscriber's equipment. This equipment is furnished for use with central office and PBX station lines terminating in station equipment, and with lines terminating in Centrex attendant positions arranged for manual use only.

* These connecting arrangements consist of the automatic equipment and include a connection point where the subscriber's equipment is connected by the subscriber to telephone facilities. Where the automatic equipment and the connection point are either not in the same or adjacent rooms on the same floor or separated by more than 50 feet, special charges based on cost apply for the installation and maintenance of the additional cable.

2. Leased Channels For Data Transmission (Cont'd)

	Monthly Rate	Installation Charge	USOC
Type C4 -- the envelope delay distortion shall not exceed: between 1000 and 2600 Hertz, a maximum difference of 300 mcs. between 800 and 2800 Hertz, a maximum difference of 500 mcs. between 600 and 3000 Hertz, a maximum difference of 1500 mcs. between 500 and 3000 Hertz, a maximum difference of 3000 mcs. -- the loss deviation with frequency (from 1000 Hertz reference) shall not exceed: between 500 and 3000 Hertz, -2db to +3db; between 300 and 3200 Hertz, -2db to +6db (+ means more loss) For each terminal	$12.23	$187.17	9LA
Type C6 -- See Paragraph C.1			

RATES AND CHARGES

18.10 LEASED CHANNELS(Cont'd)
C. Rates and Charges (Cont'd)
2. Leased Channels For Data Transmission (Cont'd)

	Monthly Rate	Installation Charge	USOC
Type D1 -- for a two-point channel or access channel not arranged for switching: --signal to C-notched noise ratio, -28db. --nonlinear distortion: signal to second order distortion, -35db. --signal to third order distortion, -40db.			
For each termination	$12.23	$139.50	O1D
(5) Bridging Arrangement in central office to provide Multi-Point Data Schedule 4 Leased Channels.			
Each bridging arrangement has a capacity of 6 terminations			
--Initial bridging arrangement	103.82	$519.46*	G7U
--Additional bridging arrangements on same multi-point channel, each (limit of 2 additional)	103.82	519.46*	G7T
(6) Hub facilities for providing multi-point service for Data Schedule 1, 2, 3 or 3A (up to 150 baud) channels.	Rates and charges specified in Section 18.9		

*The installation charge includes the connection of channels to the bridging arrangement at the time the bridging arrangement is installed. A charge of $44.19 per channel applies for a subsequent connection or rearrangement of channels connected to the bridging arrangement.

2. Leased Channels For Data Transmission (Cont'd)

	Monthly Rate	Installation Charge	USOC
(7) Equipment to Provide Alternate Voice Use and/or Dial Back-up Features for 4-Wire Data Schedule 4 Leased Channels (Cont'd)			
-- Common Equipment to allow switching of up to 23 data sets to two attended dial back up features			
Switching Arrangement for up to four data sets	12.81	18.11	DMQ
Multiple Station Arrangements#			
-- Dial Back-Up Feature			
Switching arrangement for up to four data sets	See DMQ above		DMQ

In addition, the charge for a multiple data set cabinet as specified in Part B, Section 6 of this Product Guide applies.

RATES AND CHARGES

18.10 LEASED CHANNELS(Cont'd)
C. Rates and Charges (Cont'd)

	Monthly Rate	Installation Charge	USOC
3. Protective Equipment Option 1 (All rates are applied per termination)			
a. Neutralizing Transformers*			
2,000 volt capacity, each	$32.78	-	PL2
4,000 volt capacity, each	65.62	-	PL4
8,000 volt capacity, each	98.34	-	PL7
b. Class A protection or Drainage Coils**, per circuit	35.50	$ 859.00	PZ2
c. High Voltage Interface Service Establishment/ Equipment*:			
- initial **3** card capacity preconfigured high voltage isolation cabinet and high dielectric stub#.	32.78	12,616.00	PL2
- initial **5** card capacity preconfigured high voltage isolation cabinet and high dielectric stub.	65.62	14,333.00	PL4
- initial **8** card capacity preconfigured high voltage isolation cabinet and high dielectric stub.	98.34	17,302.00	PL7

4. Ground Connections

A charge of $29.91 applies when a ground connection is furnished at a terminal of a leased channel for remote metering, supervisory control and alarm signaling purposes. Ground connections are furnished only for use in creating additional channels. Subscribers, if they prefer, may provide their own ground connections for this purpose, subject to the provisions specified in Part B, Section 10.B of this Product Guide.

* Neutralizing Transformers will be maintained on installations, but no new installations will be made. Further, additions, rearrangements, and moves of service involving Neutralizing Transformers will not be permitted. AHigh Voltage Interface Service Establishment areoffered in place of Neutralizing Transformers.

** Drainage Coils will be maintained on installations, but no new installations will be made. Further, additions, rearrangements, and moves of service involving Drainage Coils will not be permitted. Class A Protection will be offered in place of Drainage Coils.

A high dielectric stub is a high dielectric strength dedicated cable that serves only the power utility and which runs from the power station High Voltage Interface (HVI) to a junction point Remote Drainage Location (RDL) designated by the electrical protection engineers where it joins a general use cable

RATES AND CHARGES

18.10 LEASED CHANNELS(Cont'd)

D. VOICE CHANNELS FOR USE WITH SUBSCRIBER-PROVIDED INTERCOMMUNICATING EQUIPMENT

	Monthly Rate	Connection Charges	USOC
Voice channels for use with subscriber-provided intercommunicating equipment	Mileage Rate (See Sec. 18.5 of this Part B.	See Sec. 18.12 and Sec. 18.5 of this Part B.	
*E and M signaling arrangement for use with dial repeating tie lines or on leased channels in a dial repeating mode (SLM)			
Per Signaling Arrangement	$18.20	$61.31	
Arrangement used for signal conversion from Contact Closure to DX Signaling modes on Leased Channel facilities when both ends terminate on customer-provided communications systems. (SLL)			
Per Signaling Arrangement	18.20	61.31	

Where a signaling arrangement and the interface point are either not in the same or adjacent rooms on the same floor or separated by more than 50 feet, special charges based on cost apply.

Conversion of existing CDQ to SLM or SLL with no change in the associated equipment.	No charge

* See Part B, Section 3 of this Product Guide, for rates, charges and provisions for leased channels used as dial repeating tie lines.

(3) Central Office Line or Port Charge	39.00		(T)
Business			
- 1 to 99 Lines or Ports Connected, each Line or Port	-	63.00	
- Each Line or Port over 99 Lines or Ports, each	-	38.00	
Line or Port Change Charge	26.05	27.50	
(4) Network Interface Jack			
Installation Charge	See Part B, Section 18.6.A of this Product Guide		
Standard Network Interface	See Part B, Section 18.1.B of this Product Guide		
Network Interface	See Part B, Section 18.1.B of this Product Guide		

4. Connection Charge Assistance Plan@

- No Premises Visit Required	$5.00	-
- Premises Visit Required	5.00	-

* See Part B, Section 12.A.4 and A.5 of this Product Guide.

** The residence service connection charge schedule applies for the connection of intercept lines to Answering Bureaus.

Service Order Change may also be referred to as Service Charge in this Product Guide.

This discount applies for lines ordered to be connected at one time on the same premises for the same customer, and when such lines terminate in different buildings.

@ The Connection Charge Assistant Plan is provided only to subscribers living on tribal lands.

RATES AND CHARGES

18.12 CONNECTION, RESTORAL, AND CONSTRUCTION CHARGES(Cont'd)

D. RESTORAL CHARGES

Residence	$36.00	
Business	$86.90	(I)
Lifeline (for subscribers living on tribal lands)	Connection Charge Assistance Plan* charge specified in Section 18.12, Paragraph A. preceding.	

* The Connection Charge Assistant Plan is provided only to subscribers living on tribal lands.

RATES AND CHARGES

18.12 CONNECTION, RESTORAL, AND CONSTRUCTION CHARGES(Cont'd)

E. CONSTRUCTION CHARGES

3. POLE LINE CONSTRUCTION ON PRIVATE PROPERTY

Construction required for private line service, leased channels and extension lines, PBX station lines, turret lines and tie lines are furnished at charges based on cost.
Poles required for main exchange service are furnished at a charge of $3.70 per month for a term of five years for each 1/20 mile or fraction thereof route distance of construction in excess of two poles or 500 feet route distance for connection to the principal location of each subscriber served on a full year basis. No allowance applies to service to be furnished for only a part of a year.

An applicant who wishes to prepay all monthly payments or the balance of the monthly payments at any time during the five-year term may do so by paying the total of the monthly payments for the unexpired term less 10%. A subscriber paying the construction charges on the monthly payment basis who discontinues service within the five-year term is required to pay a termination charge equal to the total of the monthly payments for the unexpired term less 10%.

4. POLE ATTACHMENTS

Annual Pole Attachment Fee per Attachment per Pole

	Implementation Date 7-1-23	Implementation Date 1-1-24
CATV	$7.37 (R)	$8.59 (I)
Other (non-CATV) Licenses	7.37 (R)	8.59 (I)
Municipalities	7.37 (R)	8.59 (I)
Wireless	7.37 (R) per vertical foot*	8.59 (I) per vertical foot*
Municipalities – Public Safety Only	5.19	

5. CONDUIT OCCUPANCY

Annual Conduit Occupancy per Foot

Full Duct	$1.50
Half Duct	0.75
Third Duct	0.50
Quarter Duct	0.37

Microducts installed through microtrenching, as described in Part B, Section 12.E.5 of this Product Guide:

1/29/2014 through 1/28/2018: 50% of the standard per-duct rate set forth above.

* The charge for each piece of equipment attached shall be computed as the product of: (i) the per-foot rate listed above; and (ii) the overall length of the equipment and mounting hardware (excluding conduit and cable risers installed vertically on a pole, and electrical meters), plus six inches, rounded up to the next whole foot. Thus, equipment with a total length of three feet and six inches would be deemed to occupy four feet of space for rental purposes, while equipment with a total length of three feet eight inches would be deemed to occupy five feet of space for rental purposes. This methodology will apply to equipment attachments regardless of the equipment installed and the authorized area of the pole the attachment occupies; provided, however, that for wireless pole top attachments, the charge will be the per-foot rate listed above. (C) (C) (C)

RATES AND CHARGES

18.12 CONNECTION, RESTORAL, AND CONSTRUCTION CHARGES(Cont'd)

F. NETWORK TERMINATING WIRING

3. FIRE RETARDANT WIRING CABLE

c. Charges

	Nonrecurring Charge	USOC
Fire Retardant Cable		
2 pair per 25 ft. or fraction	$ 13.00	TEWO2
4 pair per 25 ft. or fraction	15.00	TEWO4
25 pair per 25 ft. or fraction	60.00	TEW25
50 pair per 25 ft. or fraction	300.00	TEW5O
75 pair per 25 ft. or fraction	300.00	TEW75
100 pair per 25 ft. or fraction	250.00	TEWAX

When the Company determines that existing Fire Retardant Cable must be replaced coincident with the move of that cable, the appropriate non-recurring charge will apply for the new Fire Retardant Cable.

When the Company determines that additional Fire Retardant Cable is required coincident with a move, the appropriate non-recurring charge will apply for the additional length of wire required.

G. PREMIUM INSTALLATION SERVICE

4. Rates and Charges

The following nonrecurring charges are applied per two-point circuit for each day by which the standard interval is shortened at the customer's request. Each segment of a multi-point circuit is considered a two-point circuit for the application of these charges.

	PREMIUM INSTALLATION CHARGE PER DIEM, PER CIRCUIT
Digipath Digital Service	
- All terminations	$25.96
Voice and Data	
- Interoffice	103.82
- Intraoffice	57.10

Note: The premium installation charge applies in addition to all standard installation and service connection charges.

RATES AND CHARGES

18.13 MOVES AND CHANGES

B. MOVES

2. CHARGES

Cable or a portion of a cable with or without cross connection or terminal boxes, on the premises of the subscriber or user, moved at the subscriber's request	
Where the cable contains less than 25 pairs	None
Where the cable contains 25 to 101 pairs	$72.50
Where the cable contains over 101 pairs	Charges based on cost not to exceed the service connection charge for the lines working in the cable for the subscriber. (Minimum charge $72.50)

No move charge applies to the rerouting of cable or to the move of a cross connection or terminal box required by the move of associated equipment.

See Section 14.13.C for applicable rewire charges.

For moves of Fire Retardant Cable, see Section 14.12.F of this Product Guide.

Low Speed Current Voltage Converter	50% of installation charge specified in Part B of the Product Guide.
Apartment House Service Lobby telephone	Charges based on cost
Manual data access arrangement, for use with subscriber-provided data transmitting and receiving equipment which condition data signals, each	$26.84
Manual connecting arrangement for use with subscriber-provided voice transmitting and receiving terminal equipment, each	
Data Schedule 4 channels Channel conditioning equipment	50% of installation charge specified in Part B of the Product Guide.

g. Nonrecurring Charges*

Nonrecurring Charges apply for the preparation and entry of translations that activate initially or subsequent change or rearrange features. The following charges apply in addition to other applicable nonrecurring charges and one or more may apply at the same time.

Service Connection Charges apply for Month-to-Month (M/M) ISDN Primary Service as specified in Section 18.12 of this Part B.

	Nonrecurring Charges	USOC
1. Service Establishment Charge£		
a. Initial	$250.00	SEP1A
OR		
b. Change from FLEXPATH ISDN Primary Rate Service	225.00	SEP1B
2. Changes to ISDN Primary Service	200.00	REA1L
3. Changes to Channel Configuration or Flexible Service Selection, per Trunk group or call type	200.00	REA1M

End User Common Line charges apply as specified in Tariff FCC No. 11.

* Appropriate nonrecurring charges apply for initial and each additional installation of ports, DTFs, and other features ordered by a subscriber for installation on the same premises at the same time. Nonrecurring charges apply to customers selecting a Month-to-Month (M/M) option only. Customers selecting an ISDN Primary Service contract are not required to pay nonrecurring PRI port and DTF charges unless service is terminated prior to the minimum service period (twelve months). Nonrecurring charges for Intercom Capability, Calling Line ID with Name, Two "B" Channel Transfer, Redirecting Number and Optional Feature Package do not apply to customers selecting an ISDN Primary Contract.

£ The Service Establishment Charge applies when a subscriber initially establishes service at a location, when the subscriber establishes service at an additional location and when the subscriber establishes services from an additional central office at a location where the ISDN primary Service is already provided.

** Effective September 3, 2025, Integrated Services Digital Network (ISDN) Primary Service Term & Volume II Package Plan 1 and 3-year term plans will no longer be available to new customers. Existing customers may continue their Integrated Services Digital Network (ISDN) Primary PRI service until the end of the contract term. At the end of all Integrated Services Digital Network (ISDN) Primary Service contracts, unless another qualifying term plan is selected, the service rates will revert to the Month-to-Month rates.
