ORDERING OPTIONS FOR FIA

3.1 General

This section sets forth the regulations and order related charges for FIA Orders to provide the customer with FIA. These order charges are in addition to other applicable charges as set forth in other sections of this tariff.

3.1.1 Ordering Conditions

(A) A customer may order any amount of FIA (Switched or Special) of the same interface type, same Feature Group, same BSA or same Special Access between the same locations for installation on the same date on a single FIA ASR. A customer may order shared use of Switched Access and Special Access over the same Special Access high capacity facility, however, separate FIA ASRs are required. Shared use (i.e., Switched Access Services provided over an analog or digital Special Access High Capacity facility is allowed as set forth in 5.6.7 following. Shared use of Switched Access facilities (i.e., Special Access Services provided over Switched Access facilities) is not allowed ASRs for FGA or BSA-A must be in number of lines required. ASRs for FGB, FGC, FGD, BSA-B, BSA-C, BSA-D and Service Access Code (SAC) Access Service may be in trunks or Busy Hour Minutes of Capacity (BHMC). Additional ASR requirements for Switched Access Service are described in 4.2.1, 4.2.5(V) and 4.3.2. (C)

(B) The customer shall supply all details necessary to complete an order. The details that must be supplied include the service date, customer name, customer designated location, end office, Access Connection Interface, type of Switched Access or Special Access, Supplemental Features, End Office Services and Signaling Interface, Limited Access Optional Arrangements desired, and originating and terminating capacity required. The customer may also be required to provide end user name and location, end user contact person, and end user access hours to complete an order for Special Access.

When a customer orders mixed interstate and intrastate Switched Access, the customer is required to provide an estimate of the percent of traffic which will be interstate. If the customer fails to provide this estimate, the order will not be processed until such time as the customer provides this estimate.

For Packet Switching Network Service, the packet carrier must provide a Percent of Interstate usage (PIU) in the Main Remarks section of the ASR when service is initially ordered. This PIU will be used as the basis for prorating the packet usage charges to the interstate and intrastate jurisdictions. The packet switching carrier may submit an updated PIU report in writing at any time following one full month's billing. The updated report will become effective on the first day of the next monthly billing period which begins at least 15 business days after the date the revised report is received by the Telephone Company.

(C) When the Alternate Traffic Routing Optional Arrangement is ordered, more than one CDL will be supplied and the number of trunks or BHMC for FGB, FGC and FGD to each CDL shall be specified.

When the Alternate Traffic Routing Basic Serving Element (BSE) is ordered, more than one CDL will be supplied and the number of trunks or BHMC for BSA-B, BSA-C, and BSA-D to each CDL shall be specified.

(D) The customer shall order SAC Access Service, as described in 4.2.1(E), in the same manner as ordering FGD or BSA-D with the following exceptions. For 500 SAC Access Service or 900 SAC Access Service, customers may request direct connections to only those offices designated by the Telephone Company as 500 SAC Access Service or 900 SAC Access Service screening offices. All 500 NXX or 900 NXX code assignments and administration shall be in accordance with the North American Numbering Plan (NANP). Toll Free* SAC Access Service is offered only in conjunction with the Toll Free* Customer Identification Function as described in 4.2.11 and in conjunction with Toll Free* Data Base Query Service as described in 4.2.19. Customers may request Toll Free *SAC access connections to suitably equipped end offices and access tandem offices. A list of those offices will be provided upon request. All Toll Free* number assignments shall be administered by the Number Administration Service Center (NASC) through the Service Management System (SMS).

500 NXX Codes or 900 NXX Codes to be activated and/or deactivated in conjunction with 500 SAC Access Service or 900 SAC Access Service must be provided to the Telephone Company at least 30 business days prior to the effective date of the change.

* "Toll Free" is considered to mean any access service which utilizes any of the following NPAs: 800, 888, 877, 866, 855, 844, 833, 822, or other NPAs as they become available to the industry.

ORDERING OPTIONS FOR FIA

3.1 General (Cont'd)

3.1.1 Ordering Conditions (Cont'd)

(D) (Cont'd)

An ASR is required by the Telephone Company for 500 NXX Codes or 900 NXX Codes to be activated or deactivated on a access facility level basis. The Subsequent Ordering Charge - Switched Access as described in 4.5.2(A) will apply. In addition to the Switched Access Ordering Charge, the NXX Translation Charge, as described in Section 4.5.2(N)(8), shall apply to each 500 NXX code activated or deactivated in a Telephone Company switch capable of performing the Customer Identification Function for 500 SAC Access Service. Customer assigned codes for which an ASR has not been received will be blocked.

When SAC Access Service is not terminated over a Special Access Line as set forth in 5.1.1(C)(2), the customer must notify the Telephone Company of all local exchange telephone numbers to which SAC Access Service traffic is designated so that the Telephone Company can balance the end office in accordance with standard Telephone Company engineering practices for heavy volume lines.

(E) When equal access becomes available in an end office, orders for all types of Switched Access for that office must be in multiples of forty Busy Hour Minutes of Capacity.

(F) (Reserved for Future Use)

(G) (Reserved for Future Use)

(H) (Reserved for Future Use)

(I) (Reserved for Future Use)

(J) (Reserved for Future Use)

(K) When ordering Operator Services, an ASR is required to establish a new FGC, FGD, BSA-C or BSA-D trunk group(s) or to add Operator Services to an existing FGC, FGD, BSA-C or BSA-D trunk group between the Telephone Company's Operator Services Switching Location and one CDL in the same LATA.

When measurement capability does not exist for Operator Services per call charges, a forecast of the number of Operator Services calls anticipated is required from the customer as set forth in 8.7.3 when the initial order for Operator Services is placed.

(L) When ordering Signaling System 7 (SS7) Out of Band Signaling as described in 4.2.5(A)(A), the customer shall provide an ASR specifying a reference to existing CCS7 Access Service facilities or reference to a related ASR for CCS7 Access Service as such CCS7 Access Service facilities are described in the Company's Tariff GTOC FCC No. 1. The customer's ASR shall also include STP point codes, STP location identifier codes, FGD or BSA-D trunk or Toll Free* Service access trunk circuit identification codes and switch type. When ordering SS7 Out of Band Signaling for FGD or BSA-D, the customer shall specify that all traffic carried by that FGD or BSA-D will be equipped with Out of Band Signaling. The customer shall work cooperatively with the Telephone Company to determine the number of CCS7 Access Service connections required to handle the customer's SS7 Out of Band Signaling traffic. (C)

(M) When ordering Expanded Interconnection Services (EIS) as described in 17.5, the customer shall place an ASR for the Cross Connect, as described in 5.5.1(D) and 5A.1.1(E), to interconnect the facilities of the Telephone Company to the facilities of the customer. Each service application used in conjunction with EIS will require a separate ASR. When ordering additions or changes to the existing EIS facilities, the customer must refer to the specific EIS facilities affected by the addition or change.

(N) (Reserved for Future Use)

(O) When ordering FGD or BSA-D Switched Access with 950-XXXX Access as described in 4.2.5(T), the customer shall provide an ASR specifying which 950-XXXX access code(s) are to be routed and the FGD or BSA-D Switched Access Service over which resulting originating 950-XXXX access code calls are to be routed.

* "Toll Free" is considered to mean any access service which utilizes any of the following NPAs: 800, 888, 877, 866, 855, 844, 833, 822, or other NPAs as they become available to the industry. (C) (C)

ORDERING OPTIONS FOR FIA

3.1 General (cont'd)

3.1.2 Provision of Other Services

(A) At the option of a customer, Additional Labor, Telecommunications Service Priority (TSP), Testing and Special Routing services may be ordered with an ASR at the same time the ASR is accepted by the Telephone Company. Such requests will be considered to be supplemental to the ASR. The rates and charges for these services as set forth in other sections of this tariff will apply in addition to the ordering charges set forth in this section and the rates and charges for the Switched Access or Special Access with which they are associated.

(B) The items listed in (A) preceding may subsequently be added to the ASR at any time, up to and including the service date established by the ASR. When ordered subsequently, charges for ASR modifications as set forth in 3.2.2 following will apply.

3.1.3 Special Construction

(A) The regulations, rates and charges for Special Construction as set forth in 10. following are in addition to the regulations, rates and charges specified in this section. (C)

(B) Special Construction is not applicable to EIS. (C)

3.1.4 Expanded Interconnection Service (EIS)

The regulations, rates and charges for EIS in Section 17 are in addition to the regulations, rates and charges specified in this section.

3.2 Access Service Request

A ASR is used by the Telephone Company to receive orders for the following types of FIA requested by the customer:

- Switched Access as set forth in 4. following,
- Special Access as set forth in 5. following,
- Expanded Interconnection Service as set forth in Section 17. following, and
- Other Services as set forth in other sections of the tariff. (C)

ORDERING OPTIONS FOR FIA

3.2 Access Service Request (Cont'd)

3.2.1 Service Date Intervals (C)

The time required to provision service is known as the service date interval. Such intervals will be established in accordance with published service date interval guidelines which are available to customers upon request. The service date interval guidelines will apply to ASRs and will specify the quantities of FIA that can be provided on the same service date. The customer may request a service date other than that established pursuant to the service date interval guidelines, and the Telephone Company, where possible, will establish the service date in accordance with such request, subject, however, to other applicable provisions of this tariff.

ORDERING OPTIONS FOR FIA

3.2 Access Service Request (Cont'd) (C)

(Reserved for Future Use)

ORDERING OPTIONS FOR FIA

3.2 Access Service Request (Cont'd)

3.2.2 ASR Modifications

The customer may request a modification of its ASR prior to the service date. The Telephone Company will make every effort to accommodate a requested modification when it is able to do so with the normal work force assigned to complete such an ASR within normal business hours. If the modification cannot be made with the normal work force during normal business hours, the Telephone Company will notify the customer. If the customer still desires the ASR modification, the Telephone Company will schedule a new service date. All charges for ASR modifications will apply on a per occurrence basis. Where new ASRs may be required, the appropriate charges as set forth in other sections of this tariff will be applicable.

Any increase in the number of Switched Access lines for FGA or BSA-A, trunks or BHMCs for FGB, FGC, FGD, BSA-B, BSA-C, BSA-D and SAC Access Service or Special Access circuits will require the issuance of a new ASR for the incremental capacity. (C)

ORDERING OPTIONS FOR FIA

3.2 Access Service Request (Cont'd)

3.2.2 ASR Modifications (Cont'd)

(A) Service Date Change Charge

ASR service dates may be changed, however a Service Date Change Charge will apply for each service date change after the plant test date of the original ASR. The applicable charge is $62.72.

For Switched Access, the new service date may not exceed the original service date by more than 30 calendar days. If the requested service date is more than 30 calendar days after the original service date, the ASR will be cancelled by the Telephone Company and cancellation charges as set forth in 3.2.6 will apply. The ASR will be reissued with the new service date.

For Special Access, except as specified below, the new service date may not exceed the original service date by more than 30 calendar days. If the requested service date is more than 30 calendar days after the original service date, the ASR will be cancelled by the Telephone Company. Cancellation charges as set forth in 3.2.6 will apply and the ASR will be reissued with the new service date.

With the agreement of the Telephone Company, a new service date may be established that is prior to the original service date and the provisions set forth in (E) will apply in addition to the Service Date Change Charge unless the customer indicates that billing for service is to commence as in 3.2.6 (A). (C)

(B) Partial Cancellation Charge

Any decrease in the number of Switched Access lines for FGA or BSA-A; trunks or BHMCs for FGB, FGC, FGD, BSA-B, BSA-C, BSA-D, and SAC Access Service, Special Access circuits; STP Port Terminations and CCS7 switched access facilities; OSS OPCs in conjunction with LIDB Query Service, or Advanced Communications Network services will be treated as a partial cancellation.

A customer may cancel any number of Special Access circuits or Advanced Communications Network services.

When a customer partially cancels the service ordered on an ASR, charges will apply as follows:

1) Except as specified in 3.2.6(D), when an ASR for Switched Access Service is partially canceled on or after the Application Date, the charge will be determined by multiplying the total Installation nonrecurring charges for the canceled portion of the order by the number of business days elapsed since the Application Date and dividing that figure by the number of days in the service interval and adding the Switched Access Ordering Charge.

(2) When an ASR for Special Access Service or Advances Communications Network service is partially canceled, on or after the Application Date, the charge will be determined by multiplying the total Special Access or Advanced Communications Network services nonrecurring charges for the canceled portion of the order by the number of business days elapsed since the Application Date and dividing that figure by the number of days in the service interval.

(3) When a customer cancels part of an ASR for which billing has commenced as provided in 3.2.2(A) and 3.2.6(A), cancellation charges in 3.2.6(C)(3) will apply to that part of the ASR being canceled.

3.2 Access Service Request (Cont'd)

3.2.2 ASR Modifications (Cont'd)

(C) Discontinuance of Service

A customer may discontinue FIA that is in service at any time. The request for discontinuance of service must be received by the Telephone Company at least two business days prior to the date on which service is to be disconnected and billing discontinued. The request may be verbal or written, however, a verbal request must be followed, within ten days, by written confirmation. The written confirmation serves as a confirmation of the verbal request rather than a request itself. The customer must notify the Telephone Company of a delay or cancellation in the discontinuance request prior to the disconnect date. The Telephone Company, where possible, will establish the disconnect date in accordance with such request. Billing and service will then continue until the new requested disconnect date. If a service is discontinued prior to the expiration of the Minimum Period as set forth in 3.2.4, the Minimum Period Charges as set forth in 3.2.5 may apply. For Switched Access service, the capacity discontinued may be subject to the Minimum Capacity Requirements as set forth in 3.5.

(D) Design Change Charges

The customer may request a design change to a pending ASR for both Switched and Special Access or request a change to an existing Switched Access Service. A Design Change is a change which requires engineering review

The regulations, rates and charges for a design change are as set forth in Section 4.5.2(A)(2)(b) for Switched Access Service, and are in addition to the regulations, rates and charges specified in this section.

For Special Access the Telephone Company will review the requested change, notify the customer whether the change can be accommodated and specify if a new service date is required. If the customer authorizes the Telephone Company to proceed with the design change, a Design Change Charge will apply on a per order per occurrence basis. The Design Change Charge is equal to one half of the nonrecurring charges for the FIA ordered when there is no nonrecurring charge associated with the change being made. If the change involves the addition or deletion of Optional Arrangements for which nonrecurring charges are stated, the Design Change Charge is equal to one-half the nonrecurring charge for each arrangement being added or deleted. The Design Change Charge will apply on a per FIA basis.

If a change of service date is required, the Service Date Change Charge as set forth in (A) preceding will also apply.

(E) Requests for Expedition

A customer may request a service date that is prior to the Standard Interval service date. The request for an earlier service date may occur prior to the issuance of an order or after the order has been issued but prior to the service date.

When this situation occurs, the Telephone Company will negotiate the request.

3.2 FIA Order (Cont'd.)

3.2.2 FIA Order Modifications (Cont'd.)

(D) Requests for Expedition (Cont'd.)

(Reserved for Future Use)

(E) Other Modifications

(Reserved for Future Use)

ORDERING OPTIONS FOR FIA

3.2 Access Service Request (Cont'd)

3.2.3 Specific Circuit Path Selection

(A) (Reserved for Future Use)

(B) For FIA Orders, a specific transmission path or circuit is provided for under Special Facilities Routing of FIA as set forth in 9. following.

3.2.4 Minimum Period

(A) The Minimum Period for which Special Access, Frame Relay, Packet Switching Network Service facilities and Basic Service Element (BSEs) are provided and for which charges are applicable, is one month, except as set forth in (B) through (G) following. (C)

(B) The minimum period for Ancillary and Miscellaneous Services is as set forth in Section 8 following.

(C) The minimum period for part-time television and program audio Special Access is one day. The Special Access will be provided only for the duration of the event specified on the order (e.g., one-half hour, two hours, five hours, etc.).

(D) The minimum period for FIA provided under Special Construction provisions and for which charges are applicable is as set forth in 10. following.

(E) The Minimum Period for FGA, FGB, FGC, BSA-A, BSA-B, BSA-C and also for FGD or BSA-D ordered after the conversion of an end office to equal access is three months. For the application of the minimum period charges for Switched Access Service FGA, FGB, FGC, BSA-A, BSA-B or BSA-C and for FGD or BSA-D ordered after the conversion of an end office to equal access it is assumed the last identical capacity placed in service is the first one discontinued. (C)

(F) For FGD or BSA-D ordered prior to the conversion of an end office to equal access and (1) cancelled prior to the conversion date, a Cancellation Charge as set forth in 3.2.6 applies or (2) cancelled on or after the equal access conversion date, a Discontinuance Charge as set forth in 3.2.7 applies. (C)

(G) The minimum periods for Expanded Interconnection Services are in Section 17.9.2.

ORDERING OPTIONS FOR FIA

3.2 Access Service Request (Cont'd)

3.2.5 Minimum Period Monthly Charges

When FIA is discontinued prior to the expiration of the minimum period, charges are applicable for the remaining months and/or fraction thereof of the minimum period.

The Minimum Period Monthly Charge will be determined as follows:

(A) (Reserved for Future Use)

(B) For Special Access, the charge for each remaining month and fraction thereof is the applicable monthly rates for the service as set forth in 5.6.2 following.

(C) For Common Lines the charge for each remaining month and fraction thereof is the applicable monthly rate for the FIA as set forth in 13.9.2 following.

(D) For FGD or BSA-D ordered prior to conversion of an end office to equal access, but cancelled after the equal access conversion date, a Discontinuance Charge as set forth in 3.2.7 applies.

(E) For part-time or occasional program audio Special Access services, the applicable daily rate as set forth in 5.6.1 and 5.7 following will apply. For part-time video Special Access Services daily rates will be developed on an Individual Case Basis.

3.2.6 Cancellation of an ASR

(A) A customer may cancel a FIA Order on any date prior to the service date. The cancellation date is the date the Telephone Company receives written or verbal notice from the customer that the ASR is to be cancelled. The verbal notice must be followed by written confirmation within 10 days. (C)

For Switched Access Tandem-Switched Transport or ASRs requesting additional trunk activations on existing Direct-Trunked Transport facilities, if a customer is unable to accept service within 30 calendar days of the original service date, the ASR shall be considered canceled and charges in (C) and (D) will apply. In such instances, the cancellation date shall be the 31st calendar day beyond the original service date of the ASR. (C)

For Special Access, if a customer is unable to accept service within 30 calendar days of the original service date, the customer has the choice of the following options:

- The ASR shall be canceled and charges in (C) will apply, or
- Billing for the service will commence.

In either case, the cancellation date or the billing date shall commence on the 31st calendar day beyond the original service date of the ASR.

(B) ASR costs are considered to have started when the Telephone Company incurs any cost in connection therewith or in preparation thereof which would not otherwise have been incurred. These costs include but are not limited to preliminary engineering, orders to suppliers, and other similar items of cost.

ORDERING OPTIONS FOR FIA

3.2 Access Service Request (Cont'd)

3.2.6 Cancellation of an ASR (Cont'd)

(C) When a customer cancels an ASR for the installation of new service, or an ASR to modify existing service, charges will apply as follows: (C)

(1) When an ASR for Switched Access Service is canceled on or after the Application Date, the Cancellation Charge is calculated, on a per ASR basis, by multiplying the total Installation nonrecurring charges for the quantity ordered by the number of business days elapsed since the Application Date and dividing that figure by the number of days in the service interval (i.e., the number of business days between the Application Date and the last day of the service date interval) and adding the Switched Access Ordering Charge.

(2) When an ASR for Special Access Service is canceled on or after the Application Date, the Cancellation Charge is calculated, on a per ASR basis, by multiplying the total nonrecurring charges for the quantity ordered by the number of business days elapsed since the Application Date and dividing that figure by the number of days in the service interval (i.e., the number of business days between the order fate and the last day if the service date interval).

(3) When a customer chooses to commence billing rather than cancel an ASR for these services specified in (A), the customer must submit an ASR prior to the calendar day 31 from the original service date and request a service date change. The new service date may not exceed the original service date by more than 120 calendar days. Charges in 3.2.2(A) will only apply for each subsequent service date change request after calendar day 31, not to exceed 120 calendar days.

When a customer elects to commence billing, monthly recurring charges will begin accruing at calendar day 31 after the original service date. Upon implementation of the ASR, the initial bill for the service will include these accrued charges and any additional nonrecurring charges in addition to billable charges specified in 2.4.1(C).

If the ASR is not completed within 121 calendar days of the original service date, the ASR will be canceled. Cancellation charges in (C)(2) will apply. In addition, the customer will be billed the accrued monthly recurring charges specified above plus any additional non recurring charges applicable for the Service. These charges will be computed commencing at day 31 after the original service date up to and including the cancellation date, not to exceed 90 days of service (120 days from the original service date). The Telephone Company will not reissue an ASR with a new service date beyond 121 calendar days. It will be the customer's responsibility to submit a new ASR for Switched or Special Access Service, as appropriate.

ORDERING OPTIONS FOR FIA

3.2 Access Service Request (Cont'd)

3.2.6 Cancellation of an ASR (Cont'd) (C)

(D) For cancellation of an ASR for Switched Access FGD or BSA-D before an end office converts to equal access, cancellation charges will apply if the Telephone Company is notified of the cancellation within a period of 12 months prior to the scheduled service date. Cancellation charges apply to each trunk cancelled.

When, due to a shortage of FGD or BSA-D facilities an allocation of FGD or BSA-D facilities is made, cancellation charges apply only to circuits allocated to the customer.

Cancellation charges will accrue to the maximum in equal monthly increments (i.e., maximum cancellation charge divided by 12) beginning twelve months before an end office converts to equal access. Maximum cancellation charges are listed in Section 3.2.8 following. The charge applied will the accrued charge in the month during which notice of cancellation is received by the Telephone Company.

Month During Which Notice is Received Before Conversion Date	Charge (Per Trunk Cancelled)
12	$42.21
11	46.05
10	50.66
9	56.29
8	63.32
7	72.37
6	84.43
5	101.31
4	126.64
3	168.86
2	253.29
1	506.57

(Reserved for Future Use)

ORDERING OPTIONS FOR FIA

3.2 Access Service Request (Cont'd)

3.2.7 Discontinuance of Switched Access FGD or BSA-D (C)

A Discontinuance Charge applies if a Customer discontinues FGD or BSA-D service provided at the conversion of an end office to equal access.* The Discontinuance Charge applies to each FGD or BSA-D trunk discontinued with one exception. When the FGD or BSA-D service is a result of an upgrade from FGB, FGC, BSA-B, BSA-C or SAC Access Service trunks in service prior to conversion to equal access, the Discontinuance Charge will only apply to the number of FGD or BSA-D trunks being discontinued that are in excess of the number of FGB, FGC, BSA-B, BSA-C or SAC Access Service trunks in service prior to conversion to equal access. However, the Customer may still be liable for any Minimum Period charges as set forth in 3.2.5 that may be applicable to the FGB, FGC, BSA-B, BSA-C or SAC Access Service trunks that were in service prior to conversion. For purposes of calculating the Discontinuance Charge, the Maximum Discontinuance Charge will be amortized in equal monthly increments (i.e., Maximum Discontinuance Charge divided by 12) over a 12 month period beginning on the date the end office converts to equal access. The Maximum Discontinuance Charge is equal to the FGD or BSA-D Maximum Cancellation Charge set forth in 3.2.8. The charge assessed will be the unamortized portion of the Maximum Discontinuance Charge.

3.2.8 FGD or BSA-D Maximum Per Trunk Cancelled Charge

Charge
$506.57

3.3 (Reserved for Future Use)

* FGD or BSA-D capacity is ordered in trunks/cancelled in trunks or ordered in BHMC/cancelled in BHMC.Cancelled BHMC will be converted to trunks as set forth in reference document GTE Service Corporation Telephone Operations Traffic Grade of Service Standards.

3. ORDERING OPTIONS FOR FIA (Cont'd)

3.4 (Reserved for Future Use)

3.5 Switched Access Minimum Capacity Requirements

3.5.1 When Switched Access is ordered it will be provided subject to the minumum capacity provisions set forth in 3.1.1 preceding and 3.5.2 through 3.5.5 following. (C)

3.5.2 There is no minimum capacity for Interface Arrangements 1 and 2 as set forth in 3.5.5 following. However, for Interface Arrangements 3 thru 10 the minimum capacity is as set forth in 3.5.5 following. A description of Interface Arrangements is found in 4.2.3(B) following.

3.5.3 (Reserved for Future Use)

3.5 Switched Access Minimum Capacity Requirements (Cont'd)

3.5.4 For the purpose of administering the minimum capacity provisions, different Switched Access groups for the same customer may be grouped together if the facilities provided for all the connections are the same and terminate in the same facilities terminal in the same Telephone Company access tandem or end office. (C)

3.5.5 The following table provides the total capacity of the interface and the thresholds for minimum order requirements. When the customer requests one of the following, it is required to order sufficient lines for FGA, and sufficient trunks or BHMC for FGB, FGC, FGD and SAC Access Service to satisfy the Minimum Capacity. When the customer requests more than one of the same type interface arrangements, it is required to meet the total minimum capacity of all such interface arrangements.

Interface Arrangement	Interface Type	Interface Name	Total Capacity (circuits)	Minimum Capacity (circuits)
1	Voice Frequency	2-Wire	1	NA
2	Voice Frequency	4-Wire	1	NA
3	Analog	Group	12	9
4	Analog	Supergroup	60	42
5	Analog	Mastergroup	600	420
6	Digital	DS1	24	17
7	Digital	DS1C	48	34
8				
9	Digital	DS3	672	471
10	Digital	DS3C	1344	941

(C) Indicates Change
