.0127 Method of Determining Usage Charges
Based upon the hourly rates set forth above, MCI WATS usage charges are calculated as described below:*

(*Minutes used in the calculation include both intrastate and interstate minutes.)

a. Determine the total minutes of monthly usage for each rate period over all dedicated access lines in a service group.

b. Determine the total number of access lines in service during the month (access lines in service for a partial month will be pro-rated.)

c. Determine the average usage for each rate period per access line by dividing the minutes for each rate period from (a) above by the number of lines from (b) above.

d. Determine the effective rate step for the desired service area from the appropriate originating state.

e. Determine the effective Tier 1 hourly rate for each rate period by:

1. Multiplying the total hours in each tapered usage increment for that rate period by the associated hourly rate for that increment; 2) totaling these charges for each rate period; and 3) dividing the total by the average usage per line from (c) above.

f. Repeat step (e) for Tier 2 usage.

g. Determine the Tier 1 usage charge for each rate period by multiplying the effective Tier 1 hourly rate per rate period from (e) above by the total Tier 1 hours of monthly use in a service group for each rate period, respectively, and totaling these charges.

h. Repeat step (g) for Tier 2 usage by using the effective Tier 2 hourly rate per rate period as determined in (f) above.

i. Determining the total Tier 1 and Tier 2 usage charge for all rate periods in each service group by adding the results of (g) and (h) above.

Customers who elect the ESP will receive a discount off their selected option's domestic interstate, and intrastate outbound and toll-free rates. (The Company's interstate rates are provided in its F.C.C. Tariff as filed with the Federal Communications Commission.) This discount will apply to WorldOne's peak interstate rates and all time periods for intrastate rates. Customers who elect the ESP are subject to the following:

(b) Upon execution of this agreement, the customer has ninety (90) days from the date service is made available in which to notify the Company in writing, either by certified or registered mail (return receipt requested), of the customer's desire to cancel this agreement without further obligation, except for charges incurred up to the date of termination, in the event that quality deficiencies solely caused by Company in the provision of telecommunications service hereunder are demonstrated by Customer to affect adversely and materially Customer's telecommunications applications (such a termination under this clause constituting a Termination for Cause). A Termination for Cause shall not be effective unless Customer has reported trouble on an ANI or circuit-specific basis to (and received a corresponding

trouble ticket from) the appropriate Company Support Center and a period of not less than thirty (30) days after receipt of Customer's written notice of termination has elapsed during which Company fails to correct such quality deficiencies. Provided, nothing contained herein shall impose any liability on Company and Customer's sole remedy shall be termination of the affected service as described.

(c) Customers who terminate service prior to the end of the term of commitment in any manner other than stated in (D) following, will be liable for a cancellation penalty equal to the monthly minimum billing commitment times the number of months remaining in the customer commitment period through the expiration of the first year. If applicable, 25% of the balance remaining (monthly minimum billing commitment times the number of remaining months in the contract beyond the first year) will also be included (per service type). If the termination becomes effective after the completion of the first year, then the charge shall be equal to 25% of the balance remaining (monthly minimum billing commitment times the number of months remaining in the contract). The foregoing cancellation penalty will apply unless the Customer immediately converts to another Company service with equal or greater term and minimum usage requirement commitments, and for a period of months equal to or greater than the number of months remaining in the term during which the conversion takes place.

(d) All customer requests to commence or terminate a WorldOne ESP must be made in writing, by certified mail (return receipt requested), to the Company and received no later than thirty (30) days prior to the then existing term expiration date. If such notification is not received by the Company within this timeframe, the WorldOne ESP agreement will be automatically renewed for a new term of commitment.

4.4.3 Intelenet Service

A. Description

Intelenet offers a full service voice product for single or multi-location customers using switched or dedicated, and calling card origination and switched or dedicated toll-free termination. The Intelenet package includes a single flat rate for both peak and off-peak dedicated and switched usage and offers discounts for customers willing to sign a term commitment of month to month, twelve (12) or twenty-four (24) months and/or a willingness to commit to a specific dollar volume of monthly minimum usage.

The minimum monthly commitment will be based on net charges for service (after discounts have been applied) and must be reached by the fourth invoice period and monthly thereafter. Multiple services and/or multiple locations using Intelenet can contribute to the overall monthly commitment; however, the customer must allocate the minimum by service and location. All inbound and outbound domestic and

international, calling card, intrastate service and internet access charges, including local services (if applicable) contribute to determining the monthly minimum usage with the exception of enhanced fax, conference calling and non-recurring charges.

If a customer's monthly service usage charges for any month in the term are less than the monthly commitment agreed upon, the customer shall pay the company the difference between the monthly usage charges and the monthly commitment in addition to charges for service.

B. Service Arrangements

1. Intelenet Service Agreement

When the customer has completed the term commitment, service will automatically be renewed for additional term(s) of the agreement unless the Company has received the customer's written notice to terminate the service on not less than sixty (60) days prior to the then existing term expiration date. Customers who terminate service prior to the end of the term in any manner other than stated will be liable for a service termination charge of an amount equal to the greater of the following, unless customer converts to another Company service with equal or greater term and minimum usage commitment:

(a) If the termination becomes effective prior to the completion of the first year of the Customer Term, then the charge shall be an amount equal to the monthly billing commitment times the number of months remaining in Term through the expiration of the first year. If applicable, twenty-five percent (25%) of the balance remaining (monthly billing commitment times the number of remaining months in the Term beyond the first year) will also be included.

(b) If the termination becomes effective after the completion of the first year, then the charge shall be an amount equal to twenty-five percent (25%) of the balance remaining (monthly billing commitment times the number of months remaining in the Term). In addition, the customer will be required to repay any promotional credits that were applied, and any charges reimbursed or waived.

Upon execution of the Intelenet Service Agreement, the customer has ninety (90) days from the date service is made available in which to notify the Company in writing, either by certified or registered mail (return receipt requested), of customer's desire to cancel the Service Agreement without penalty or further obligation, except for charges incurred up to the date of termination, in the event that quality deficiencies solely caused by the Company in the provision of telecommunications service hereunder are demonstrated by customer to affect adversely and materially customer's telecommunications applications (such a termination under this clause constituting a Termination for Cause). A Termination for Cause shall not be effective unless customer has reported trouble on an ANI or circuit-specific basis to (and received corresponding trouble ticket from) the appropriate Company Support Center and a period of not less than thirty (30) days after receipt of customer's written notice of termination has elapsed during which the Company fails to correct such quality deficiencies. Provided, nothing contained herein shall impose any liability on Company and customer's sole remedy shall be termination of the affected service as described.

Customer's Intelenet Service Agreement is subject to the general terms, and conditions and rates of this Tariff and/or Service or Credit Application forms executed in connection with the services provided herein.

2. Intelenet Association

The Intelenet Association program is a benefit package offered in conjunction with Intelenet, which allows the individual users who are members or employees of the participating organization to receive additional product discounts off of domestic interstate usage. Members who elect to participate in the Intelenet Association will receive InteleNet products and Calling card service.

To qualify for Intelenet association an organization generally must be a: (1) Trade association representing businesses or individuals in an industry, profession or business classification; (2) Business with franchises, agents, distributors, or multiple representatives; (3) Non-profit organization; or, (4) Buying group not organized merely to buy the Company's long distance for resale. The qualifying organization agrees to meet the following criteria within six (6) months of undertaking to qualify and thereafter maintain, and enters into a written agreement with the Company for marketing of the Company's services. The group's members who have subscribed to the Company's services throughout the group must have aggregate billings, net of taxes; promotional credits and surcharges of at least $5,000 per month.

The Company will render monthly statements to the individual members and the statement received will show all appropriate discounts. All sums due from members are the sole property of the Company, and the Company shall have sole right to collect, enforce collection and settle such sums. The Intelenet member group shall receive a monthly report from the Company listing members of the group who subscribe to the Company service under this program.

Unless otherwise specified in this tariff, member's usage of Company service under this plan cannot be used to qualify for any other benefits under this tariff or under other arrangements between the Company and third parties who undertake to market the Company's services. All other conditions of InteleNet will apply to InteleNet Association.

4.4.4 Total Solution GoldK Service

A. Description
Total Solution GoldK Service is an offering which allows customers to select shared and dedicated outbound and inbound service arrangements, and obtain Term Plan discounts. Total Solution GoldK calls are eligible for volume discounts based on total cross-contribution usage from all interstate and intrastate shared and dedicated outbound and inbound usage products (directory assistance and operator assistance are not contributory). Discounted rates apply retroactively, such that once the next dollar threshold is reached, the lower rate applies back to the first minute of usage for that billing period. Charges such as taxes, late payment fees or other service non-recurring and monthly recurring charges will not be included in the volume discount cross-contribution calculation.

The Outbound Calling Service arrangement is a long distance switched access service, which is available on either a shared or dedicated basis. The usage is billed on a flat rated basis. Outbound Calling Service calls are billed in 6 second increments, with an initial billing period of 18 seconds per call. Rates for Operator-assisted calls are set forth in Section 4.3.2. The Inbound Calling Service arrangement is a toll free switched access service, which permits calls to be completed at the Customer's location without charge to the calling party. This service is available on either a shared or dedicated basis. Access to the service is gained by a end user dialing a 10 digit telephone number (e.g., 800+NXX-XXXX) which will terminate at the Customer's location. The usage is billed on a flat rated basis. Toll Free Service calls are billed in 6 second increments, with an initial billing period of 18 seconds per call. In addition, there is a non-recurring and monthly recurring Toll Free Service number charge, which will be applied either on a "per Toll Free Service number" basis for shared access or on a "per routing arrangement" basis for dedicated access (reference rates in Section 4.4.5.D.3).

B. Service Arrangements

1. Term Plans
Total Solution GoldK Service is available at 1 or 2 year Term Plan rates. Term Plans are subject to a minimum monthly usage level of $500 for shared access or $2,500 for dedicated access after 90 days of initial service. Should the Customer's actual usage fall below the

monthly minimum usage commitment, the Customer is required to pay the Company a fee equal to the difference between the Customer's actual usage and the Customer's minimum monthly commitment. Term Plan threshold calculations will include usage charges from all intrastate and interstate switched outbound and inbound usage products (directory assistance and operator assistance are not contributory). Charges such as taxes, late payment fees and other service non-recurring and monthly recurring charges will not be included in the Term Plan usage threshold calculation. A Customer who terminates a Term Plan prior to the term's expiration will be required to pay in one lump sum an amount equaling the monthly minimum service usage charge times the number of months remaining in the term.

A Customer may terminate their Term Plan without liability under the following conditions: (a) The customer requests, and remains on, a new Term Plan for a term equal to or greater than the time remaining on their current Company Term Plan. (b) The Customer provides written notification to cancel the Term Plan to the Company postmarked within 90 days of the commencement of the Term Plan. The Customer is responsible for payment of services used during this period. Term Plans will be automatically renewed unless the Customer notifies the Company in writing to cancel the renewal within 30 days of expiration of the current Term Plan.

4.4.5 Total Solution Series 100K Service

A. Description

Total Solution Series 100K Service is an offering that allows Customers to select a commitment level and shared and dedicated outbound and inbound service arrangements, obtain term plan discounts, and receive Peak and Off-Peak pricing (Off-Peak pricing only applies to intraLATA outbound service where available). Total Solution Series 100K calls are flat rated, with discounts off the base rates available according to the commitment level and term plan selected by the Customer.

The Outbound Calling Service arrangement is a long distance switch-based service, which is available on either a shared or dedicated access basis. The usage is billed on a flat rated basis. Outbound Calling Service calls are billed in 6 second increments, with an initial billing period of 18 seconds per call. Rates for Operator-assisted calls are set forth in Section 4.3.2.

The Inbound Calling Service arrangement is a toll free switched access service, which permits calls to be completed at the Customer's location without charge to the calling party. This service is available on either a shared or dedicated basis. Access to the service is gained by an end user dialing a 10 digit telephone number (e.g., 800+NXX-XXXX) which will terminate at the Customer's location. The usage is billed on a flat rated basis. Toll Free Service calls are billed in 6 second increments, with an initial billing period of 18 seconds per call. In addition, there is a non-recurring and monthly recurring Toll Free Service number charge, which will be applied either on a "per Toll Free Service number" basis for shared access or on a "per routing arrangement" basis for dedicated access (reference rates in Section 4.4.5.D.3).

B. Service Arrangements

1. Commitment Levels and Term Plans

Total Solution Series 100K Service is available on a month to month basis or on an optional 1 or 2 year Term Plan. Discounts off the base rates are available to the Customer according to the commitment level and Term Plan selected by the Customer.

Total Solution Series 100K Service is subject to a minimum monthly usage commitment (after the third full month following the initial installation of service for new Customers) based on the Customer's selected commitment level. The commitment level is calculated from the monthly total of usage generated from the following Company products: shared and dedicated domestic interstate and intrastate outbound and inbound service, international outbound, intraLATA, local service, and calling card. Charges such as taxes, late payment fees or other service non-recurring and monthly recurring charges will not be included in the total usage amount calculation, as well as usage charges from Directory Assistance, Operator Service, voice mail and conference calling.

Should the Customer's actual usage fall below the monthly minimum usage commitment, the Customer is required to pay the Company a fee equal to the difference between the Customer's actual usage and the Customer's minimum monthly commitment. A Customer who terminates a Term Plan prior to the term's expiration will be required to pay in one lump sum an amount equaling the selected monthly commitment level times the number of months remaining in the term, plus an amount equal to any promotional credit, or discount, or waiver, if applicable, that was provided to the Customer.

A Customer may terminate their Term Plan without liability under the following conditions:

(a) The Customer requests, and remains on, a new Term Plan for a term and commitment level equal to or greater than their current Company Term Plan and commitment level.

(b) A new Customer (who was not receiving services through the Company prior to execution of the Term Plan) provides written notification to cancel the Term Plan to the Company postmarked within 90 days of the commencement of the Term Plan. The Customer is responsible for payment of services used during this period.

Term Plans will be automatically renewed unless the Customer notifies the Company in writing to cancel the renewal within 30 days of expiration of the current Term Plan.

A. EasyAnswer Service

The EasyAnswer Service offers a unified service for single or multi-location customers using switched, dedicated, and OnLine calling card origination and switched or dedicated toll-free (in WATS) termination. The EasyAnswer package includes the availability of outbound, inbound (toll-free) and calling card services, and offers a discount on outbound and toll-free service for customers willing to sign a term commitment and/or a willingness to commit to a specific dollar volume of monthly minimum usage.

There are three (3) Options of EasyAnswer available to customers, each of which are described below:

Option 1 - Requires no monthly minimum billing commitment.

Option 2 - Requires a monthly minimum billing commitment of $1,000; if the minimum is not reached, the customer is charged for the difference.

Option 3 - Requires a monthly minimum billing commitment of $5,000; if the minimum is not reached, the customer is charged for the difference.

Multiple services and/or multiple locations using EasyAnswer's services can contribute to the overall monthly minimum commitment; however, the customer must allocate the minimum by service and location. Domestic toll-free, Domestic and International outbound calls contribute to determine monthly minimum usage. Easy OnLine Calling Card, Operator Services and Directory Assistance usage is not included in determining monthly minimum usage.

Customers must reach the minimum monthly usage requirement associated with their selected EasyAnswer Option by the fourth invoice period and monthly thereafter.

B. Service Arrangement

1. EasyAnswer Term Plan

EasyAnswer Services are available to customers through a Term Plan option if the customer agrees to commit to such service for a term of twelve (12), twenty-four (24) or thirty six (36) months. Customers who elect the Term Plan option will receive a discount off their selected Option's domestic interstate, and intrastate outbound and toll-free rates. This discount will apply to EasyAnswer's peak interstate rates and all time periods for intrastate rates. Customers who elect the EasyAnswer Service option are subject to the following:

(a) Customers must indicate what EasyAnswer service or services are to be included in the term plan. The discounts provided under this option become effective with the first full month's usage.
(b) Option 2 Customers are required to meet a minimum annual usage commitment of $12,000 (Customer's $1,000 monthly minimum multiplied by twelve (12) months). Option 3 Customers are required to meet a minimum annual usage commitment of $60,000 (Customer's $5,000 monthly minimum multiplied by twelve (12) months). At the end of each successive twelve (12) month period following the date service becomes effective, Option 2 and Option 3 Customers will be required to pay the shortfall, if any, between their actual usage during that twelve (12) month period and the minimum annual usage commitment applicable to the option selected by the Customer. As used herein, "usage" consists of the amount of all domestic and international usage of all EasyAnswer Services (excluding EasyAnswer Association) measured in dollars.
(c) Customers who terminate service prior to the end of the term of commitment in any manner other than stated in (D) following, will be liable for a cancellation penalty equal to the number of months remaining in the term then in effect multiplied by: (1) for Option 1 Customers, $200 per month for switched services (per service type), or $500 per month for dedicated services (per service type); (2) for Option 2 Customers, $1,000 per month for switched or dedicated services (per service type); or (3) for Option 3 Customers, $5,000 per month for switched or dedicated services (per service type). The foregoing cancellation penalty will apply unless the Customer immediately converts to another Company service with equal or greater term and minimum usage requirement commitments, and Customer continues to use such Company Service for a period of months equal to or greater than the number of months remaining in the term during which the conversion takes place.
(d) All customer requests to commence or terminate a EasyAnswer Term Plan must be made in writing, either by certified or registered mail (return receipt requested), to the Company and received no later than thirty (30) days prior to the then existing term expiration date. If such notification is not received by the Company within this timeframe, the EasyAnswer Term Plan agreement will be automatically renewed for a new term of commitment.
