EXPLANATION OF SYMBOLS AND ABBREVIATIONS

SYMBOLS

(C) To signify changed listing, rule, or condition which may affect rates or charges.

(D) To signify discontinued material, including listing, rate, rule, or condition.

(I) To signify an increase.

(M) To signify material relocated from or to another part of tariff schedule with no change in text, rate, rule or condition.

(N) To signify new material including listing, rate, rule or condition.

(R) To signify reduction.

(S) To signify reissued material.

(T) To signify change in wording of text but not change in rate, rule, or condition.

(Z) To signify a correction (N)

ABBREVIATIONS

ISDN - Integrated Services Digital Network

LEC - Local Exchange Company

MTS - Message Telecommunications Service

PBX - Private Branch Exchange

APPLICATION OF TARIFF

This tariff contains the regulations, rates and charges applicable to the provision of international long distance telecommunications services by Verizon Long Distance LLC between points within the United States and foreign locations. This tariff includes rates, terms and conditions applicable for the first 45 days of service.

Where network facilities and billing systems permit, the Company will block casual dialing to international destinations, including, but not limited to, the Caribbean, Mexico and Canada.

TARIFF FORMAT (N)

A. Page Numbering - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.

B. Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of the various suspension periods and deferrals the Commission follows in its tariff approval process, the most current page number on file with the Commission is not always the tariff page in effect. Consult the check page for the page currently in effect.

C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

2
2.1
2.1.1
2.1.1.A
2.1.1.A.1
2.1.1.A.1.(a)
2.1.1.A.1.(a).I
2.1.1.A.1.(a).I.(i)
2.1.1.A.1.(a).I.(i).(1)

D. Check Sheets - When a tariff filing is made with the Commission an updated check sheet accompanies the filing. The check sheet lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There shall be no other symbols used on this page if these are the only changes made to it. The tariff user should refer to the latest check sheet to find out if a particular page is the most current on file with the Commission.
